Rhymney Railway Branch Lines In The Valleys:

The Rhymney Railway Branch Lines in the Valleys John Hutton, 2004-02-24 This is a pictorial record of the Rhymney Railway at a time when the valleys of South Wales were a major coal producer for the rest of the world South Wales Branch Lines Harold Morgan, 1984 *Industrial South Wales 1750-1914* W.E Minchinton, 2013-11-05 South Wales was one of the main centres of the Industrial Revolution in Britain but the story of the rapid growth of an industrial society there has not yet been fully told since much of the work done has consisted of articles rather than books This volume brings together a selection of important contributions hitherto only accessible in a large number of scattered periodicals These articles have been selected to present a considered sequence and are preceded by an introduction which puts the story of the industrialization of Wales into perspective They deal firstly with the problems of population and migration then with the basic industries of iron coal tinplate and copper These are followed by essays on banking and the volume concludes with contributions on trade unionism and building This is by no means merely the story of regional development since the book has a wider appeal a number of the articles are concerned with the links with America and with the place of Wales in the Atlantic economy Amongst the authors are the late Sir Lewis Namier and some of the leading writers on the history of modern Wales including Brinley Thomas and A H Dodd **Great Western Branch Line Gallery** Kevin

McCormack, 2023-08-17 This book is a gallery of more than two hundred photographs including a color section featuring a selection of Great Western Railway British Railways Western branch lines and similar services taken between 1900 and 1965 The emphasis is pictorial rather than factual with the aim of using photographs provided by two transport charities as well as the author all of which are unlikely to have appeared previously in print or on the Internet Generally images depict working trains surrounded by recognizable infrastructure often with station nameboards visible Such pictures should be of particular interest to railway modelers as well as invoking nostalgia for the older generation who were pursuing their hobby around the time the pictures were taken Most of the branch lines covered were victims of the 1960s Beeching Axe with closure to passengers or complete closure coming even earlier in some cases Most of the services depicted are steam operated although a few GWR and BR diesel railcars multiple units are included All the scenes seem to reflect a more leisurely way of life than exists today **The Geology of the South Wales Coal-field ...: The country around Newport,**

Monmouthshire (Sheet 249 of the map), by Aubrey Strahan. 1899. 2d ed. 1909 Geological Survey of Great Britain, 1909 *The History and Architecture of Cardiff Civic Centre* John B. Hilling, 2016-05-20 History of the civic centre and how it came to be created Detailed architectural descriptions of all the buildings in the civic centre Specially prepared maps and plans showing how the civic centre developed over two centuries up to date and complete coverage of the subject including a history of the site over two centuries full descriptions of individual buildings and monuments The Geology of the South Wales Coal-field Geological Survey of Great Britain, 1909 The Geology of the South Wales Coalfield Aubrey

Strahan, 1909 **Reports from Committees** Great Britain. Parliament. House of Commons, 1866 **Parliamentary**
Papers Great Britain. Parliament. House of Commons, 1861
