Rias Berlin:

"A Free Voice of the Free World" Annika Witzel, 2013-01-14 Seminar paper from the year 2012 in the subject History of Germany Postwar Period Cold War grade 1 3 University of Bonn Institut für Anglistik Amerikanistik und Keltologie IAAK language English abstract 1 Introduction RIAS has always been more than just the initials of an American post war operation in divided Berlin For many people in Berlin and in East Germany RIAS Berlin was and still is a part of their life a piece of their very personal biography Kundler 2002 preface This statement was made by Siegfried Buschschlatter RIAS broadcasting director in October 1993 a few months before RIAS history ended and the one of its successor Deutschlandradio began RIAS short for Rundfunk im Amerikanischen Sektor was established in Berlin by the United States Information Agency in 1946 and has played a significant role in German media history in the post war era Its motto A free voice of the free world proves the objective of the station and the position it saw itself in The paper at hand aims at investigating this role and will elaborate on the question why this station was so special to the people especially to the people in East Germany and later the German Democratic Republic GDR Measuring the impact of RIAS on the people in East Germany and the GDR might seem impossible since in these areas it was officially forbidden to listen to the station Still people did listen since radio had the important advantage that it could be received almost everywhere while Western press was not legally and easily available for the people in East Germany Soldat 2008 184 Therefore it is very important to note that this paper's objective is twofold it does not only look at the perception of RIAS by its target listeners in East Germany the GDR but also at the way how East Germany's government perceived and reacted to the station The most important historical event bringing together those two sides is June 17th 1953 since this day RIAS and its reporting triggered the strongest reactions from both sides of the spectrum This is mainly the reason why 1953 was used in this paper as a frame year to limit the focus of this paper on a particular period of time Of course the influence of RIAS did not end with the year 1953 on the contrary There were many events such as the erection of the Berlin Wall in 1961 or Kennedy's visit to Berlin in 1963 to which RIAS and its reporting had a lot to contribute However these events after the revolts in 1953 will be left out in this paper

Judiciary, and Related Agencies, 1986 Cold War Cultures Annette Vowinckel, Marcus M. Payk, Thomas Lindenberger, 2012

The Cold War was not only about the imperial ambitions of the super powers their military strategies and antagonistic ideologies It was also about conflicting worldviews and their correlates in the daily life of the societies involved The term Cold War Culture is often used in a broad sense to describe media influences social practices and symbolic representations as they shape and are shaped by international relations Yet it remains in question whether or to what extent the Cold War Culture model can be applied to European societies both in the East and the West While every European country had to adapt to the constraints imposed by the Cold War individual development was affected by specific conditions as detailed in these chapters This volume offers an important contribution to the international debate on this issue of the Cold War impact on everyday life by providing a better understanding of its history and legacy in Eastern and Western Europe *The Wireless World* Simon James Potter, Friederike Kind-Kovacs, 2022 The Wireless World sheds new light on the transnational connections created by international broadcasting using a single analytical frame to draw together the periods from the pioneering days of wireless through WWII and the Cold War to the decades since the fall of the Berlin Wall to reveal key continuities and transformations *Cold War Journalism* Kevin Grieves, 2021-04-29 This book explores Cold War journalism and journalists as threat representing enemy systems and ideologies The book also examines Cold War aspirations of forging transnational journalistic connections across the Iron Curtain as well as finding common journalistic ground within the East and West blocs The book shines a critical light on overly idealistic visions for that journalistic common ground drawing on primary archival source material to investigate journalists and reporting work journalistic content and journalistic venues during the Cold War era This is not a book about traditional war correspondence rather it is about the rhetorical battles and the ideological fronts that have shaped and continue to shape our world By fully understanding how journalism and journalists have intersected with hostile barriers and divisions in the past we can have a more nuanced understanding of the current global media environment
