Richard Downing Economic Advocacy And Social Reform In Australia:

Richard Downing Nicholas Brown, 2001 In this first biography of Downing Nicholas Brown is particularly interested to examine his rich and complex contributions to public debate in Australia Downing's interests ranged widely from economics to the arts and education and their expression has much to tell us about Australian politics and society Readers will find many revealing insights into the discussion and formation of public policy during the post war decades and into a particular style of Australian liberalism The story of Richard Downing's life will fascinate readers and its telling illuminates many aspects of contemporary Australian history BOOK JACKET *Australia's Boldest Experiment* Stuart Macintyre, 2015-06-01 In this landmark book Stuart Macintyre explains how a country traumatised by World War I hammered by the Depression and overstretched by World War II became a prosperous successful and growing society by the 1950s An extraordinary group of individuals notably John Curtin Ben Chifley Nugget Coombs John Dedman and Robert Menzies re made the country planning its reconstruction against a background of wartime sacrifice and austerity The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity This book shows the 1940s to be a pivotal decade in Australia At the height of his powers Macintyre reminds us that key components of the society we take for granted work welfare health education immigration housing are not the result of military endeavour but policy planning politics and popular resolve [The Australian Study of Politics](#) R. Rhodes, 2009-11-11 The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia whether described as political studies or political science It focuses on Australia and on developments since WWII also exploring the historical roots of each major subfield **Old Age in Australia** Pat Jalland, 2015-01-05 The Australian population is rapidly getting older demanding important policy and service decisions This groundbreaking book is the first to explore a 100 year history of older people in Australia from 1880 to 1980 Over that period the aged suffered as forgotten people until 1945 when there was the promise of a new deal for the elderly Major themes examined include family histories of aged care poverty social and medical policy gender the impact of wars and economic depression housing nursing homes and the retirement debates Old Age in Australia provides essential historical context for current discussions about the implications of ageing in Australia *A History of Australasian Economic Thought* Alex Millmow, 2017-07-14 This overview of Australasian economic thought presents the first analysis of the Australian economic contribution for 25 years and is the first to offer a panoramic sweeping account of New Zealand economic thought Those two countries both at the start of the twentieth century and at its end excelled at innovative economic practices and harbouring unique economic institutions A History of Australasian Economic Thought explains how Australian and New Zealand economists exerted influence on economic thought and contributed to the economic life of their respective countries in the twentieth century Besides surveying theorists and innovators this book also considers some of the key expositors and builders of the academic economics profession in both

countries The book covers key economic events including the Great Depression the Second World War the post war boom and the great inflation that overtook it and lastly the economic reform programmes that both Australia and New Zealand undertook in the 1980s Through the interplay of economic events and economic thought this book shows how Australasian economists influenced to differing degrees economic policy in their respective countries This book is of great importance to those who are interested in and study the history of economic thought economic theory and philosophy and philosophy of social science as well as Australasian economics Educating for Business, Public Service and the Social Sciences Peter Groenewegen, 2009 Tertiary economics and business education started early in Australia but was not organised on a faculty basis until the 20th century Commerce and business teaching at Sydney University began in 1906 and from 1920 was taught in the Faculty of Economics together with public administration and accounting Its progress for the next 80 years is chronicled in this comprehensive history of the Faculty of Economics The book presents a broad overview of staff students and courses of study during Depression war postwar reconstruction student unrest and successful moves to add further Business studies A prelude surveys the 19th century beginnings and the epilogue presents the varied education opportunities offered for the 21st century by the Faculty of Economics and Business Australian Political Lives John Nethercote, Tracey Arklay, John Wanna, 2006-10-01 This monograph brings together some of the best practitioners of the art and craft of political biography in Australia They are simultaneously some of our best scholars who at least in part have turned their attention to writing Australian political lives They are not merely chroniclers of our times but multidisciplinary analysts constructing layers of explanation and theoretical insight They include academic professional and amateur biographers scholars from a range of disciplines politics history sociology public administration gender studies and politicians who for a time strutted the political stage The assembled papers explore the strengths and weaknesses of the biographical approach the enjoyment it can deliver the problems and frustrations of writing biographies and the various ways the project can be approached by those constructing these lives They probe the art and craft of the political biographer **The Power of Economic Ideas** Alex Millmow, 2010-05-01 Economics Keynes once wrote can be a very dangerous science Sometimes though it can be moulded to further the common good though it might need a leap in mental outlook a whole new zeitgeist to be able to do so This book is about a transformation in Australian economists thought and ideas during the interwar period It focuses upon the interplay between economic ideas players and policy sometimes in the public arena In a decade marked by depression recovery and international political turbulence Australian economists moved from a classical orthodox economic position to that of a cautious Keynesianism by 1939 We look at how a small collective of economists tried to influence policy making in the nineteen thirties Economists felt obliged to seek changes to the parameters as economic conditions altered but more importantly as their insights about economic management changed There are three related themes that underscore this book Firstly the professionalisation of Australian economics took a gigantic leap in this period aided in part by the adverse

circumstances confronting the economy but also by the aspirations economists held for their discipline A second theme relates to the rather unflattering reputation foisted upon interwar economists after 1945 That transition underlies a third theme of this book namely how Australian economists were emboldened by Keynes s General Theory to confidently push for greater management of economic activity By 1939 Australian economists conceptualized from a new theoretic framework and from one which they advanced comment and policy advice This book therefore will rehabilitate the works of Australian interwar economists arguing that they not only had an enviable international reputation but also facilitated the acceptance of Keynes s General Theory among policymakers before most of their counterparts elsewhere A Century of Influence Renate Howe,2009 The Australian Student Christian Movement has provided a forum for exploring spirituality and social issues in the nations universities for over a century Prime Ministers Robert Menzies and Bob Hawke were ASCM members The ASCM was opposed to racism at home and abroad founding Aust Volunteers Abroad and opposing White Australia Policy

Historical Dictionary of Australia Norman Abjorensen,James C. Docherty,2014-12-05 Australia s development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large scale immigration Since 1942 it has been a loyal ally of the United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the U S invasion of Iraq in 2003 and in operations in Afghanistan In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors This fourth edition of Historical Dictionary of Australia covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Australia
