Richard England The Spirit Of Place:

Richard England, 1998 Mediterranean architecture characterized by a strong sense of colour and light distinguishes Richard England's work. He contrives to combine the force of history and nature with the principles of modernity. **Richard England** Edwin Heathcote, 2002-12-30 Richard England is not only an internationally acclaimed architect but also a sculptor, photographer, poet, painter, and author. This book offers an in-depth account of the views and approach of this highly individual and respected architect. **Spirit and Place** Christopher Day, 2012-06-14 Built environment surrounds us for 90% of our lives but only now are we realising its influence on the environment, our health, and how we think, feel, and behave both individually and socially. Spirit how to moderate climate to make places of delight and realign social pressures so places both support society and maximise economic viability. Thought provoking and easy to understand. Christopher Day uses everyday examples to relate his theories to practice and our experience. Unbounded Dolly Daou, DJ Huppertz, Dinh Quoc Phuong, 2015-06-18 In interior design the definition and popular perception of the interior has long been concerned with bounded spaces and with the relationship between private and public realms. However, two issues have challenged traditional boundaries between interior and exterior and private and public: first the emergence of new technological practices and second a broader understanding of diverse cultures. Popular perceptions of public and private space are currently being revised and the interior. Spirit of Place Susan Owens, 2020-09-15 Lyrical and compelling. Spirit of Place examines the British landscape as it's portrayed in literature and art. English landscape painting is often said to be an eighteenth-century invention yet when we look for representations of the countryside in British art and literature we find a story that begins with Old English poetry and winds its way through history all the way up to the present day. In Spirit of Place Susan Owens illuminates how the British landscape has been framed, reimagined, and reshaped by generations of creative thinkers. To offer a panoramic view of the countryside throughout history Owens dives into the work of writers and artists from Bede and the Gawain Poet to Thomas Gainsborough, Jane Austen, J. M. W. Turner, and John Constable, and from Paul Nash and Barbara Hepworth to Robert Macfarlane. Richly illustrated including manuscript pages, early maps, paintings, film stills, and photographs. Spirit of Place is a compelling narrative of how we have been shown the British landscape. *Spirit of Place* Bill Noble, 2020-06-23 Delve into this beautiful book. You'll come away sharing his passion for the beauty that gardens bring into our lives. Sigourney Weaver, environmentalist, actor, trustee of New York Botanical Garden. How does an individual garden relate to the larger landscape? How does it connect to the natural and cultural environment? Does it evoke a sense of place? In Spirit of Place Bill Noble, a lifelong gardener and the former director of preservation for the Garden Conservancy, helps gardeners answer these questions by sharing how they influenced the creation of his garden in Vermont. Throughout Noble reveals that a garden is never created in a vacuum but is rather the outcome of an individual's personal vision combined with historical and cultural forces. Sumptuously illustrated, this thoughtful look at the process of garden making shares insights.
