Goodbye Gutenberg Valerie Kirschenbaum, 2005 This book takes you on a journey where no writer has ever taken you before Author Valerie Kirschenbaum not only dreams of a Renaissance the likes of which the world has never seen she gives you the actual blueprint In warm and intimate prose she shows you how and why we will experience this Renaissance in our lifetime Responding to the recent National Endowment for the Arts survey which documented a precipitous 20 year decline in America's reading habits she presents an electrifying new solution for captivating a generation of readers reared on television movies and music videos With 860 gorgeous full colour images from ancient Egypt Greece Rome Maya India China Japan Tibet and medieval Europe many never seen by an American audience Kirschenbaum provides what world renowned graphic designer Milton Glaser described as the visual history of the universe and its relationship to writing She combines the breathtaking beauty of illuminated manuscripts with today's latest technologies to create a scintillating multisensory experience Aldo Van Eyck Robert McCarter, 2015-01-01 Robert McCarter provides a comprehensive study of Aldo van Eyck's 50 year career guiding readers through the architect's buildings and unrealised projects with a focus on the interior spatial experience as well as the design and construction processes He investigates how van Eyck's writings and lectures convey the importance of architecture in the everyday lives of people around the world and throughout history and by presenting the architect's design work together with the principles on which it was founded illuminates van Eyck's ethical interpretation of architecture's place in the world **The Architects' Journal**, 2003 Josef Müller-Brockmann Kerry William Purcell, 2006-10 In the ever evolving world of contemporary graphic design those who came before are often forgotten in the search of the next big thing It is surprising then that many new fashionable designs intentionally conjure work that was created by designers of an earlier era designers who worked not with a computer but with pen and paper designers like Josef Müller Brockmann 13 13 One of the twentieth century's most important graphic designers the Swiss born Müller Brockmann is the father of functional objective design and an influential figure for generations of designers around the world While many of his contemporaries moved to the United States and elsewhere in Europe Müller Brockmann based himself in Zurich and established his reputation there He adapted his approach to a changing world moving from an early illustrative style to a modern constructivist approach making full use of geometrical form and the grid system to provide an underlying structure to graphic work 13 13 Müller Brockmann is perhaps most known for his large array of music posters produced from the early 1950s to the early 1970s which graphically represent the musical character of each specific performance In addition to these iconic designs Müller Brockmann completed a number of books on graphic design and its history including the influential *The Graphic Designer and his Design Problems* 13 13 This volume is the most definitive

monograph to be published on Josef Müller Brockmann. It traces Müller Brockmann's life from his childhood through his early training, rarely seen designs for the theater, famous posters for the Zurich art scene, corporate design work for clients like IBM, and finally his efforts to educate young designers. With assistance from the Museum für Gestaltung Zurich and the Josef Müller Brockmann Archive, this book is extensively illustrated with completed works, period photography, rare sketches, concept drawings, and personal photos. Precision and Madness, Kunstmuseum Wolfsburg, 2007. At last, the broader movements of twentieth-century Swiss art and the individual artists behind them are tracked through the present day in one standard setting. Publication: Swiss Made: Precision and Madness, sets the famous Swiss tendency toward precision and order alongside the tendency toward obstinacy and chaos, pairing canonical works with pieces made within the past 40 years. Provocative pairs include Max Bill and John Armleder, Ferdinand Hodler and Urs Lüthi, Alberto Giacometti and Romy Zaugg, Louis Soutter and Martin Disler, Robert Müller and Sylvie Fleury, Paul Klee and Silvia Bächli, Adolph Wolfli and Ugo Rondinone. Tensions emerge between the focused and the expansive over everyday life in the Swiss state and naturally over the mountains. Swiss Made: Precision and Madness is of interest on its own analytic terms and as an excellent overview of the country's art since 1850.
