Richard Wollheim On The Art Of Painting Art As Representation And Expression:

Richard Wollheim on the Art of Painting Richard Wollheim, 2001-07-30 A collection of essays on Wollheim's philosophy of art includes a response from Wollheim himself The Expression of Emotion in the Visual Arts Derek Matravers, Vanessa Brassey, 2024-11-08 The visual arts have long been held to have an intimate link with emotions Despite this the topic remains underexplored when the expression of emotion is discussed it is usually in relation to music This volume corrects this lacuna and presents a variety of perspectives on the expression of emotion in the visual arts with contributions from both established and early career academics There are chapters on the empathy theory of beauty enactment and artistic expression emotion and experimental psychology a persona theory of visual expression and self expression in portraiture There are also chapters discussing the contributions to the topic by Susanne Langer and Richard Wollheim as well as a chapter comparing the work of R G Collingwood and Maurice Merleau Ponty The Expression of Emotion in the Visual Arts will be of interest to students and researchers in the philosophy of art and aesthetics as well as those interested in conceptual issues in the visual arts Imagination and Art: Explorations in Contemporary Theory Keith Moser, Ananta Ch. Sukla, 2020-07-27 This transdisciplinary project represents the most comprehensive study of imagination to date The eclectic group of international scholars who comprise this volume propose bold and innovative theoretical frameworks for reconceptualizing imagination in all of its divergent forms Imagination and Art Explorations in Contemporary Theory explores the complex nuances paradoxes and aporias related to the plethora of artistic mediums in which the human imagination manifests itself As a fundamental attribute of our species which other organisms also seem to possess with varying degrees of sophistication imagination is the very fabric of what it means to be human into which everything is woven This edited collection demonstrates that imagination is the resin that binds human civilization together for better or worse Art and Its Objects Richard Wollheim, 1980-09-30 Aims to convey the author's belief that the nature of art has to be comprehensible from both the artist's and the spectator's point of view In pursuing this the book considers questions on expression representation style the significance of the artist **Art as Communication** Shawn Simpson, 2024-10-02 Is art a form of communication If so what does art express or represent How should we interpret the meaning of works created by more than one artist Is art an adaptation via natural selection In what ways is art similar to and different from language Art as Communication Aesthetics Evolution and Signaling employs information theory the theory of evolution and the newly developed sender receiver model of communication to reason about art aesthetic behavior and its communicative nature Shawn Simpson considers whether art from a biological point of view is the province of only humans or whether animals might reasonably be said to create art Examining the work of evolutionary biologists art theorists linguists and philosophers including Charles Darwin Stephen Davies H Paul Grice and others he addresses how well different theories of communication explain meaning and expression in art and argues that art is much more continuous with other forms of communication than

previously thought *Phenomenologies of Art and Vision* Paul Crowther, 2013-01-03 Contemporary discussions of the image like to emphasize art's societal functions Few studies come close to answering why pictures and sculptures fascinate and intrigue regardless of any practical functions they might serve In this original thought provoking study Paul Crowther reveals the intrinsic significance of pictures and sculptures To address the question of how painting becomes an art Crowther uses the analytic philosophy of Richard Wollheim as a starting point But to sufficiently answer the question he makes an important link to a tradition much more successful in giving voice to the deeper ontology of visual art existential phenomenology The result is a work that demonstrates the reciprocal relationship between phenomenology and analytic aesthetics To expand its ontological scope and solve the problem of expression analytic aesthetics needs phenomenology while to develop a sustained critically balanced and intellectually available ontology phenomenology needs the discursive force and lucidity of analytic philosophy This convincing case for a post analytic phenomenology of art is an important advancement of contemporary discussions of the philosophy of art *The Philosophy of Susanne Langer* Adrienne Dengerink Chaplin, 2019-10-17 This book is a comprehensive study of one of the most insightful and fertile but also most neglected philosophers of the twentieth century Susanne Langer Failure to recognise Langer's seminal philosophical sources has led to frequent misinterpretations and misunderstandings of her unique philosophical thought Beginning with an overview of Langer's life and education this study provides a much needed explanation of how Langer's thinking was shaped by four seminal sources her mentors Henry Sheffer and Alfred North Whitehead and the European philosophers Ernst Cassirer and Ludwig Wittgenstein Langer's ability to unite seemingly disparate fields such logic art and embodied cognition around the notion of symbolic form places aesthetics not at the margins of philosophy but at its very centre By locating Langer's work in the broader context of major developments in twentieth century European and American philosophy Dengerink Chaplin shows how she was often ahead of her time Shedding new light on Langer as an American philosopher whose innovative thought crosses the customary boundaries between analytic and continental philosophy this book confirms why she continues to have relevance today

Conceptual Art After Modernism Robert Bailey, 2025-05-30 This study provides a new interpretation of art after modernism by foregrounding the importance of conceptual thinking as a pervasive force for change in art and art history since 1950 Robert Bailey shows how distinctions between art and art history gave way as conceptual thinking provided artists and art historians with a common means to reassess what art could be and do in the world Bailey assesses the results of artful and scholarly inquiries combining creative activity with intellectual rigor to proffer new approaches to a variety of social and environmental concerns ranging from questions about human identity including race class gender and sexuality to activist efforts to redress everything from abortion access to migrants rights to climate change This book provides both a historical overview of these developments and close analyses of key works and texts spanning 1950 to the present and encompassing broad geographic scope with special attention paid to Indigenous art The book will be of interest to scholars
