Lund, 2015-01-20 Returning seven years later to their original pieces from this landmark book over 20 leading scholars and activists revisit and reframe their rich contributions to a burgeoning scholarship on Whiteness With new reflective writings for each chapter and valuable sections on relevant readings and resources this volume refreshes and enhances the first text to pay critical and sustained attention to Whiteness in education with implications far beyond national borders Contributors include George Sefa Dei Tracey Lindberg Carl James Cynthia Levine Rasky and the late Patrick Solomon Courageously examining diverse perspectives contexts and institutional practices contributors to this volume dismantle the underpinnings of inequitable power relations privilege and marginalization The book's relevance extends to those in a range of settings with abundant and poignant lessons for enhancing and understanding transformative social justice work in education Revisiting The Great White North offers terrific grist for examining the persistence of Whiteness even as it shape shifts Chapters are comprehensive theoretically rich and anchored in personal experience Authors reflections on the seven years since

publication of the first edition of this book complexify how we understand Whiteness while simultaneously driving home the need not only to grapple with it but to work against it Christine Sleeter Professor Emerita California State University Monterey Bay Our understanding of racial inequities in education will be impoverished unless we look deeply at White privilege its variation in different contexts and resistances to change Such is the call in this important book by Lund Carr and colleagues whose analyses within Canadian contexts framed and re framed for this captivating revised edition will be useful to educators and scholars around the world Read this book today Kevin Kumashiro Dean School of Education University of San Francisco President National Association for Multicultural Education Darren Lund and Paul Carr have given the contributors to their original 2007 text the opportunity to revisit rethink reconceptualize and reframe their earlier work The result is an interesting invigorating and unsettling group of chapters that challenge readers to also revisit and rethink their own ideas about Whiteness privilege and power Teachers administrators policymakers and researchers will all benefit from this critical work Sonia Nieto Professor Emerita Language Literacy and Culture College of Education University of Massachusetts Amherst Lund and Carr bring together a superb collection of authors who collectively challenge readers to go beyond liberal platitudes about race until educators confront the political social and economic consequences of inequitably distributed privilege the path towards equality and freedom will remain elusive By immersing us in the discourse of Whiteness the essays in this book illuminate that very path Joel Westheimer University Research Chair Professor Faculty of Education University of Ottawa

The Great White North?, 2007-01-01 This landmark book represents the first text to pay critical and sustained attention to Whiteness in Canada from an impressive line up of leading scholars and activists The burgeoning scholarship on Whiteness will benefit richly from this book s timely inclusion of the insights of Canadian scholars educators activists and others working for social justice within and through the educational system with implications far beyond national borders Over 20 leading scholars and activists have contributed a diversity of chapters offering a concerted scholarly analysis of how the complex problematic of Whiteness affects the structure culture content and achievement within education in Canada Contributors include James Frideres Carl James Cynthia Levine Rasky and Patrick Solomon The book critically examines diverse perspectives contexts and the construction and application of societal and institutional practices both formal and informal that underpin inequitable power relations and disenfranchisement Its relevance extends beyond the Canadian context as those in other global settings will find abundant and poignant lessons for their own transformative work in education with a particular focus on social justice Awards for The Great White North The publication Award Canadian Association for Foundations in Education 2009 Canadian Race Relations Foundation Award of Distinction 2008

Poverty and Psychology Stuart C. Carr, Tod S. Sloan, 2003-08-31 This volume is constituted of a collection of leading contributions each focusing on understanding the global dynamics of poverty and wealth together from a psychological particularly social psychological perspective It is one of few if any books on the subject that combines psychological theory and research with

community development and practice *Ivory Tower Blues* James Cote, Anton L. Allahar, 2007-05-26 The present state of the university is a difficult issue to comprehend for anyone outside of the education system. If we are to believe common government reports that changes in policy are somehow making life easier for university graduates, we cannot help but believe that things are going right and are getting better in our universities. *Ivory Tower Blues* gives a decidedly different picture, examining this optimistic attitude as it impacts upon professors, students, and administrators in charge of the education system. *Ivory Tower Blues* is a frank account of the contemporary university, drawing on the authors' own research and personal experiences as well as on input from students, colleagues, and administrators. James E. C. t and Anton L. Allahar offer an insider's account of the university system, an accurate alternative view to that overwhelmingly presented to the general public. Throughout, the authors argue that fewer and fewer students are experiencing their university education in ways expected by their parents and the public. The majority of students are hampered by insufficient preparation at the secondary school level, lack of personal motivation, and disillusionment. Contrary to popular opinion, there is no administrative or governmental procedure in place to maintain standards of education. *Ivory Tower Blues* is an in-depth look at the crisis facing Canadian and American universities, the factors that are precipitating the situation, and the long-term impact this crisis will have on the quality of higher education.

The Garland Encyclopedia of World Music Ellen Koskoff, 2017-09-25 This volume makes available the full range of the American Canadian musical experience, covering for the first time in print all major regions, ethnic groups, and traditional and popular contexts. From musical comedy to world beat, from the songs of the Arctic to rap and house music from Hispanic Texas to the Chinese communities of Vancouver, the coverage captures the rich diversity and continuities of the vibrant music we hear around us. Special attention is paid to recent immigrant groups, to Native American traditions, and to such socio-musical topics as class, race, gender, religion, government policy, media, and technology.
