Beyond Nature Writing Karla Armbruster, Kathleen R. Wallace, 2001 Ecocriticism a field of study that has expanded dramatically over the past decade has nevertheless remained until recently closely focused on critical analyses of nature writing and literature of wilderness The authors push well beyond that established framework with this collection of essays by respected ecocritics and scholars from the literary and environmental arenas

"^AWho Set You Flowin'?" Farah Jasmine Griffin, 1996-09-26 Twentieth century America has witnessed the most widespread and sustained movement of African Americans from the South to urban centers in the North Who Set You Flowin examines the impact of this dislocation and urbanization identifying the resulting Migration Narratives as a major genre in African American cultural production Griffin takes an interdisciplinary approach with readings of several literary texts migrant correspondence painting photography rap music blues and rhythm and blues From these various sources Griffin isolates the tropes of Ancestor Stranger and Safe Space which though common to all Migration Narratives vary in their portrayal She argues that the emergence of a dominant portrayal of these tropes is the product of the historical and political moment often challenged by alternative portrayals in other texts or artistic forms as well as intra textually Richard Wright's bleak yet cosmopolitan portraits were countered by Dorothy West's longing for Black Southern communities Ralph Ellison while continuing Wright's vision reexamined the significance of Black Southern culture Griffin concludes with Toni Morrison embracing the South as a site of African American history and culture a place to be redeemed

Undomesticated Ground Stacy Alaimo, 2019-01-24 From Mother Earth to Mother Nature women have for centuries been associated with nature Feminists troubled by the way in which such representations show women controlled by powerful natural forces and confined to domestic space have sought to distance themselves from nature In Undomesticated Ground Stacy Alaimo issues a bold call to reclaim nature as feminist space Her analysis of a remarkable range of feminist writings as well as of popular journalism visual arts television and film powerfully demonstrates that nature has been and continues to be an essential concept for feminist theory and practice Alaimo urges feminist theorists to rethink the concept of nature by probing the vastly different meanings that it carries She discusses its significance for Americans engaged in social and political struggles from for example the Indian Wars of the early nineteenth century to the birth control movement in the 1920s to contemporary battles against racism and heterosexism Reading works by Catherine Sedgwick Mary Austin Emma Goldman Nella Larsen Donna Haraway Toni Morrison and others Alaimo finds that some of these writers strategically invoke nature for feminist purposes while others cast nature as a postmodern agent of resistance in the service of both environmentalism and the women's movement By examining the importance of nature within literary and political texts this book greatly expands the parameters of the nature writing genre and establishes nature as a crucial site for the cultural work of feminism

Claude McKay Kotti Sree Ramesh, Kandula Nirupa Rani, 2006-08-02 The gifted and rebellious writer Claude McKay grew up in the British West

Indies and then moved to the United States As he traveled from Jamaica to Harlem and then to Europe and Africa he embraced various causes and political ideologies that made their way into his writings Brought up as a colonial in the British West Indies he found racial oppression as an immigrant in the United States His struggle for self definition and self determination was manifest in his writings and laid the foundation for the Harlem Renaissance and negritude movements African American scholarship in the United States tends to focus on McKay s American productions such as his poetry and novels like Home to Harlem while critics in the Caribbean focus on his works there novels like Banana Bottom and dialect poetry This study has undertaken to explore comprehensively the life and works of Claude McKay framed within colonial and cross cultural experiences While dealing with pertinent issues like identity race exile ethnicity and sexuality the work examines all the facets of this influential 20th century author a man trying to solve the problem of his own identity in a world determined to marginalize him

Picture Freedom Jasmine Nichole Cobb,2015-04-03 In the decades leading up to the end of U S slavery many free Blacks sat for daguerreotypes decorated in fine garments to document their self possession People pictured in these early photographs used portraiture to seize control over representation of the free Black body and reimagine Black visibility divorced from the cultural logics of slavery In Picture Freedom Jasmine Nichole Cobb analyzes the ways in which the circulation of various images prepared free Blacks and free Whites for the emancipation of formerly unfree people of African descent She traces the emergence of Black freedom as both an idea and as an image during the early nineteenth century Through an analysis of popular culture of the period including amateur portraiture racial caricatures joke books antislavery newspapers abolitionist materials runaway advertisements ladies magazines and scrapbooks as well as scenic wallpaper Cobb explores the earliest illustrations of free Blacks and reveals the complicated route through visual culture toward a vision of African American citizenship Picture Freedom reveals how these depictions contributed to public understandings of nationhood among both domestic eyes and the larger Atlantic world

Nature Prose Dominic Head,2022 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is

in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing
