Rideau Waterway And Ottawa River:

Rideau Waterway Robert Legget, 2001-12-15 Many years ago I decided to write a book about the Rideau Canal It is therefore with mixed feelings that I see that Robert Legget has beaten me to the tape He is to be congratulated The definitive work on the Rideau has been written and I shall value my copy Eric Arthur Since the publication of the first edition in 1955 Rideau Waterway has informed and delighted readers among them historians engineers and vacationers First revised in 1972 this classic guide has once again been brought up to date in a new edition Robert Legget offers a rich history of the Rideau Canal an adventure in engineering built by soldiers and civilian labourers through swamp bush and rocky wilderness as well as a guide to current places of interest along the waterway and stories of the pioneers who settled there He resurrects the controversy surrounding Colonel John By Superintending Engineer of the construction of the canal whose leadership was debated in the British press and after whom By town was named By town is now Ottawa Legget traces the city s development from construction camp to national capital This new edition contains three times as many photographs as the original and has been even more thoroughly updated than was the revised edition of 1972 Legget has added new information about historical figures and references to developments in the surroundings the St Lawrence Seaway the Carillon hydroelectric project new roads new bridges and more The appendices have been revised to include the latest maps charts and fishing information available In all Legget has provided a lively guide for boaters and other travellers and for all those interested in the history of eastern Ontario

The Ottawa River Canal System Normand Lafrenière, 1984 This study presents a brief history of the Ottawa River canal system from the time construction began until 1963 Although the Carillon Canal a national historic park would normally have been the focal point of such an undertaking a specific study of this canal proved virtually impossible owing to the lack of information pertaining to its initial construction period Records of the commercial use of the canal over the years were equally sparse Fortunately however the history of the Carillon Canal is closely linked with that of several other canals the Vaudreuil St Anne s Chute a Blondau and Grenville canals constructed on the lower Ottawa River in the early 19th century As a consequence this study encompasses the entire Ottawa River canal system
