## **Riders On The Earth:**

*Riders on the Earth*, 1986-01-01      *Riders on the Earth* Bernard J. Weiss, 1977      *Riders on the Earth* Bernard J. Weiss, E. L. Everett, 1973      **Respectfully Quoted** James H. Billington, Library of Congress, 2010-01-01 A treasury of thought provoking declarations and observations features a splendid variety of political scientific social and literary voices Quoted historical figures include Paine Milton Emerson Marx Napoleon Dickens and Churchill      *Riders on the Earth* Bernard J. Weiss, Holt, Rinehart, and Winston, inc, 1977      **Riders on the Earth** Bernard J. Weiss, Loreli Olson Steuer, Joseph S. Renzulli, Holt, Rinehart, and Winston, inc, 1980      *Societal Impact of Spaceflight* Steven J. Dick, Roger D. Launius, 2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions      **Controversial Books in K-12 Classrooms and Libraries** Randy Bobbitt, 2019-10-04 *Controversial Books in K 12 Classrooms and Libraries* Challenged Censored and Banned analyzes the history of controversy surrounding assigned reading in K 12 classrooms and books available in school libraries Randy Bobbitt outlines the history of book banning and controversy in the United States stemming from 1950s conservative Cold War values of patriotism and respect for authority and ramping up through the 1960s and onward as media coverage and parental intervention into the inner workings of schools increased The author claims that sensitive topics including sexuality suicide and drug use do not automatically imply the glorification of deviant behavior but can be used constructively to educate students about the reality of life Bobbitt argues that in an effort to shield children from the dangers of controversial issues parents and administrators are depriving them of the ability to discover and debate values that are inconsistent with their own and those around them teaching instead that avoidance of different viewpoints is the solution Scholars of education communication literature and policy will find this book especially useful      *The Democracy of Suffering* Todd Dufresne, 2019-09-12 In *The Democracy of Suffering* philosopher Todd Dufresne provides a strikingly original exploration of the past present and future of this epoch the Anthropocene demonstrating how the twin crises of reason and capital have dramatically remade the essential conditions for life itself Images cartoons artworks and quotes pulled from literary and popular culture supplement this engaging and unorthodox look into where we stand amidst the ravages of climate change and capitalist economics With humour passion and erudition Dufresne diagnoses

a frightening new reality and proposes a way forward arguing that our serial experiences of catastrophic climate change herald an intellectual and moral awakening one that lays the groundwork albeit at the last possible moment for a future beyond individualism hate and greed That future is unapologetically collective It begins with a shift in human consciousness with philosophy in its broadest sense and extends to a reengagement with our greatest ideals of economic social and political justice for all But this collective future Dufresne argues is either now or never Uncovering how we got into this mess and how if at all we get out of it The Democracy of Suffering is a flicker of light or perhaps a scream in the face of human extinction and the end of civilization *Riders on the Earth*, 1983 *Riders on the Earth* Eldonna L. Evertts, 1986-01 A collection of poems essays biographies stories and a play accompanied by language arts exercises and discussion questions *Riders on the Earth* Bernard J. Weiss, 1977 **Holt Basic Reading**, 1986 *Image* Mark C. Taylor, Mary-Jane Rubenstein, Thomas A. Carlson, 2021-09-20 What are the primary characteristics that define what it means to be human And what happens to those characteristics in the face of technology past present and future The three essays in *Image* by leading philosophers of religion Mark Taylor Mary Jane Rubenstein and Thomas Carlson play at this intersection of the human and the technological building out from Heidegger's notion that humans master the world by picturing or representing the real Taylor's essay traces a history of capitalism dwelling on the lack of humility particularly in the face of our own mortality that is the persistent failure of humans before turning to art as a possible way to bring us back to earth and recover humility before it is too late Rubenstein zeroes in on the delusions of imaginative conquest associated with space travel Through a genealogy of the modern view from space from the iconic Earth rise photo of 1968 up to the new privatized American space race Rubenstein provides an analysis of the perils of the one world and the false unity it projects In his essay Carlson takes as his starting point the surveillance capitalism of facial recognition technology He dives deep into Heidegger to meditate on the elimination of individuals through totalizing gestures and the relationship between such elimination and our encounters with mortality Each of these essays in its own way reflects on the nature of imagination the character of technological vision in contemporary culture and the implications of these for the kinds of sociality and love that condition our human experience
