Rides on Railways Samuel Sidney,2012-10 Excerpt that while iron was made in Surrey Sussex and Kent where not a pound is now manufactured in Glamorganshire at present a great seat of iron manufacture iron was so scarce that an anvil was leased out at the rent of 3s 4d a year 126 a rent at which taking the then value of money a very tolerable anvil could now be purchased When the woods of the kingdom began to be exhausted attention was turned to pit coal which had long been in use for fuel in the counties where it was plentifully found A curious account of the first successful experiments is to be found told in very quaint language in the Metallum Martis of Dudley Dudley son of Lord Edward Dudley an ancestor of the late Earl Dudley and Ward and of the present Lord Ward who now enjoys the very estates referred to and derives a princely income from the mineral treasures the true value of which was discovered by his unfortunate ancestor published in the reign of Charles II This Mr Dudley was an early victim of the patent laws which to this day have proved to be for the benefit of lawyers and officials and the tantalization of true inventors and discoverers The following extracts contain his story and enable us to compare the present with the then state of iron manufacture
