Rome in the Third Century Michael Sage,2025-01-31 An in depth exploration of Rome s third century crisis examining its internal turmoil external pressures and transformative reforms For its first two centuries the Roman Empire enjoyed a relatively peaceful existence There were short periods of trouble and instability but they had no lasting effect At the end of the second century AD the situation began to change and by the third century the Empire was beset by serious internal and external threats Rome in the Third Century examines this time of troubles Michael Sage begins by analyzing the available sources which are difficult to use and provide mostly fragmentary glimpses of the period and looks at the surprising disappearance of historical writing in the western half of the empire He then discusses in detail the increasing pressures on Rome s northern and eastern frontiers along with the growing internal threats that the empire faced as the state weakened and experienced increasing internal disintegration He then narrates the period between the death of the emperor Septimius Severus in 211 and the accession of the emperor Diocletian at the end of the century when a reformed empire emerged in many respects very different from its predecessor The crucial changes in government and the military of this period are

explained and assessed and there is a new analysis of contemporary views both Christian and pagan of the crisis
