English and the Discourses of Colonialism Alastair Pennycook, 2002-09-11. English and the Discourses of Colonialism opens with the British departure from Hong Kong, marking the end of British colonialism. Yet Alastair Pennycook argues that this dramatic exit masks the crucial issue that the traces left by colonialism run deep. This challenging and provocative book looks particularly at English language teaching and colonialism. It reveals how the practice of colonialism permeated the cultures and discourses of both the colonial and colonized nations, the effects of which are still evident today. Pennycook explores the extent to which English is as commonly assumed a language of neutrality and global communication and to what extent it is, by contrast, a language laden with meanings and still weighed down with colonial discourses that have come to adhere to it. Travel writing, newspaper articles, and popular books on English are all referred to, as well as personal experiences and interviews with learners of English in India, Malaysia, China, and Australia. Pennycook concludes by appealing to postcolonial writing to create a politics of opposition and dislodge the discourses of colonialism from English.

**The Road to Sleeping Dragon** Michael Meyer, 2017-10-10. From the highly praised author of *The Last Days of Old Beijing*, a brilliant portrait of China today and a memoir of coming of age in a country in transition. In 1995, at the age of twenty-three, Michael Meyer joined the Peace Corps and, after rejecting offers to go to seven other countries, was sent to a tiny town in Sichuan. Knowing nothing about China or even how to use chopsticks, Meyer wrote Chinese words up and down his arms so he could hold conversations and, per a Communist dean's orders, jumped into teaching his students about the Enlightenment, the stock market, and Beatles lyrics. Soon he realized his Chinese counterparts were just as bewildered by China's changes as he was. Thus began an impassioned immersion into Chinese life. With humor and insight, Meyer puts readers in his novice shoes, winding across the length and breadth of his adopted country, from a terrifying bus attack on arrival to remote Xinjiang and Tibet, into Beijing's backstreets and his future wife's Manchurian family, and headlong into efforts to protect China's vanishing heritage at places like Sleeping Dragon, the world's largest panda preserve. In the last book of his China trilogy, Meyer tells a story both deeply personal and universal as he gains greater, if never complete, assurance, capturing what it feels like to learn a language, culture, and history from the ground up. Both funny and relatable, *The Road to Sleeping Dragon* is essential reading for anyone interested in China's history and how daily life plays out there today.

**Contemporary Travel Writing** Debbie Lisle, 2006-11-02 To what extent do best selling travel books such as those by Paul Theroux Bill Bryson Bruce Chatwin and Michael Palin tell us as much about world politics as newspaper articles policy documents and press releases Debbie Lisle argues that the formulations of genre identity geopolitics and history at work in contemporary travel writing are increasingly at odds with a cosmopolitan and multicultural world in which everybody travels Despite the forces of globalization common stereotypes about foreignness continue to shape the experience of modern travel The Global Politics of Contemporary Travel Writing is concerned with the way contemporary travelogues engage with and try to resolve familiar struggles about global politics such as the protection of human rights the promotion of democracy the management of equality within multiculturalism and the reduction of inequality This is a thoroughly interdisciplinary book that draws from international relations literary theory political theory geography anthropology and history      *Tibet* Michael Buckley, 2006 Provides comprehensive information on the geography history wildlife governmental structure economy diversity peoples religion and culture of Tibet      **100 Provocative Statements about Riding the Iron Rooster** Owen Skeat, 2013-02 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of Riding the Iron Rooster By Train Through China Don't say we didn't warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don't buy this book if 1 You don't have nerves of steel 2 You expect to get pregnant in the next five minutes 3 You've heard it all      **The "Inscrutably Chinese" Church** Nathan Faries, 2010-09-23 The first half of the twenty first century promises to be a time of great change for the Christian church in the People's Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close      **Riding the iron rooster** Paul Theroux, 1985      China's Railway Transformation Junjie Xi, Paco

Mejias Villatoro, 2022-12-30 This book investigates China's railway transformation through history along with culture changes and urban development. The book begins by looking at the background of China and the history and growth of railway development in China through five key phases followed by assessing the cultural changes in the railway carriage and exploring how these are linked to social equality and national provisions. The core of this book aims to analyse the Chinese urban transformation through the development of the high speed rail (HSR) infrastructure in China. Eleven important new HSR stations in mainland China plus the new Hong Kong West Kowloon Station have been selected to contextually explore how HSR infrastructures have affected the development of the Chinese urban context. The selected case studies are the stations of Beijing South, Wuhan, Shanghai Hongqiao, Guangzhou South, Xi'an North, Nanjing South, Chengdu East, Tianjin West, Zhengzhou East, Hangzhou East, and Hong Kong West Kowloon. All of these were built between 2008 and 2018. In these case studies, the location and the intentions and success of promoting urban development are analysed and assessed. Following this, the book further investigates the peculiarities of the new HSR stations in China in comparison with stations in Europe. An assessment framework is established to evaluate the Chinese case studies comparatively with significant cases in Europe, attending to the urban structure of the area, the architectural quality, the functional diversity, and the quality of the public space generated in the surrounding area.
