Water Planet Camille Gaskin-Reyes, 2016-10-24 Through case studies opposing viewpoints and primary documents this reference work examines the environmental and sustainability issues regarding water as well as how water is an intrinsic part of human culture Every culture and ecosystem on earth depends on water As the world's climate changes human culture is increasingly threatened by the seemingly opposite problems of having too little clean potable water and having too much water e.g. flooding melting polar ice caps and rising sea levels What are the solutions that humanity must collectively pursue to protect our ability to flourish on planet earth

Water Planet: The Culture, Politics, Economics, and Sustainability of Water on Earth offers an unprecedented examination of the critical subject of water sustainability Its essays, viewpoints, case studies, and documents show how this vital resource that many in first world countries take for granted is intricately woven into not only basic human survival but also cultural, political, and economic stability Readers will learn about topics such as flooding and drought the growing problem of water pollution the connections between water and gender including gender equity and gender aspects of water ownership the effects of global temperature changes on the water supply concerns regarding fishing and overfishing water security and sustainable water management

Eat, Sleep, Ride Paul Howard, 2011-02-15 For Paul Howard who has ridden the entire Tour de France route during the race itself setting off at 4 am each day to avoid being caught by the pros riding a small mountain bike race should hold no fear Still this isn't just any mountain bike race This is the Tour Divide Running from Banff in Canada to the Mexican border the Tour Divide is more than 2 700 miles 500 miles longer than the Tour de France Its route along the Continental Divide goes through the heart of the Rocky Mountains and involves more than 200 000 feet of ascent the equivalent of climbing Mount Everest seven times The other problem is that Howard has never owned a mountain bike and how will training on the South Downs in southern England prepare him for sleeping rough in the Rockies Entertaining and engaging Eat Sleep Ride will appeal to avid and aspiring cyclists as well as fans of adventure travel narrative with a humorous twist

A Hole in the Wind David Goodrich, 2017-06-06 An epic bicycle journey across the American hinterland that explores the challenges of climate change alongside a diverse array of American

voices After a distinguished career in climate science as the Director of the UN Global Climate Observing System in Geneva David Goodrich returned home to the United States to find a nation and a people in denial Concerned that the American people are willfully deluded by the misinformation about climate that dominates media and politics David thought a little straight talk could set things right As they say in Animal House he decided that this calls for a stupid and futile gesture on someone's part and I'm just the guy to do it Starting on the beach in Delaware David rode his bike 4 200 miles to Oregon talking with the people he met on the ultimate road trip Along the way he learned a great deal about why climate is a complicated issue for many Americans and even more about the country we all share Climate change is the central environmental issue of our time But A Hole in the Wind is also about the people Dave met and the experiences he had along the way like the toddler's beauty pageant in Delaware the tornado in Missouri rust belt towns and their relationship with fracking and the mined out uranium ghost town in Wyoming As he rides David will discuss the climate with audiences varying from laboratories to diners to elementary schools Beautifully simple direct and honest A Hole in the Wind is a fresh refreshing ride through a difficult and controversial topic and a rich read that makes you glad to be alive **Heidi Across America** Heidi Beierle, 2024-04-30 A memoir of homecoming Heidi Across America is a gritty story of how opening our hearts to others enables us to open our hearts to ourselves and love what we find there Finalist Chanticleer International Book Awards In the summer of 2010 Heidi Beierle had just finished her first year of graduate studies in community and regional planning and decided to pedal her bicycle solo from her home on the west coast across rural America to the Preserving the Historic Road conference in Washington D C What started as a research trip turned into an intimately physical and psychological encounter with self and nationhood Heidi was 35 at the time and didn't love much about herself except her ability to endure grueling physical undertakings She viewed her journey as an opportunity to fix her failures and insufficiencies There were also some research questions she wanted to explore Why do people live in small towns and what do they like about it Did a bicyclist like herself bring economic benefit to the small towns she visited What could communities do to support or invite cyclists to stay in their towns What could cyclists do to support the communities Along the way she was surprised by the kindness of strangers and the emotional pinch of traveling through Wyoming where she grew up Her journey led her through the Plains and into the Ozarks where the heat climbed to agonizing temperatures and every pedal stroke in the heat felt one closer to death By the time she completed the trip Heidi discovered a newfound compassion for herself and a growing love for her country Strangers opened their hearts to her and in turn she opened her heart to herself And her questions began to change and mirror things many Americans are asking themselves today How can I be okay in my own skin What does it mean to be enough How do I satisfy my desire to travel without harming the planet What does it mean to love America For many young people it is a rite of passage to light out on an adventure to see the world and expose themselves to new experiences but we don't often talk about how Americans seeing America can open us to the diversity awe

and wonder available right here in our nation Heidi Across America offers a journey to self love empathy consideration for others and respect for the spirit of place as pathways to find connection and home **Bike for Life** Roy M.
