Right To Know:

The Right to Know Lani Watson, 2021-05-26 We speak of the right to know with relative ease You have the right to know the results of a medical test or to be informed about the collection and use of personal data But what exactly is the right to know and who should we trust to safeguard it This book provides the first comprehensive examination of the right to know and other epistemic rights rights to goods such as information knowledge and truth These rights play a prominent role in our information centric society and yet they often go unnoticed disregarded and unprotected As such those who control what we know or think we know exert an influence on our lives that is often as dangerous as it is imperceptible Beginning with a rigorous but accessible philosophical account of epistemic rights Lani Watson examines the harms caused by epistemic rights violations drawing on case studies across medical political and legal contexts She investigates who has the right to what information who is responsible for the quality and circulation of information and what epistemic duties we have towards each other This book is essential reading for philosophers legal theorists and anyone concerned with the protection and promotion of information knowledge and truth **Right-to-know After September 11th** United States. Ettoh, 2014-12-04 This book underscores the natural right of all humans to know God Today we are told that God is irrelevant to our livelihood and we do not need God for anything This deception emanates from our lack of understanding of and about God In this book you will find insight into Who God really is How and why it is your right to know God The benefits of knowing God for the individual nation and the Christian How Science tells us more about God How you can know God on a personal level and the stages of knowing God How you can discover yourself in God and the blessed privileges we all have in Christ Jesus And many more Usually our understanding of God is too human and we end up misunderstanding Him and subsequently missing out on knowing Him This book is here to help you understand and know the true God who made you **Expansion of the Right to Know Program** United States. My Rights, and My Right to Know , Community Right-to-know ,1982 You Know I'm Right Michelle Caruso-Cabrera,2010-10-05 Straight talking CNBC reporter Michelle Caruso Cabrera demands a modern solution to our nation s social and economic woes a return to our political roots fiscal conservatism limited government and personal accountability Hypocrites and radicals on both sides of the political spectrum have left fiscally conservative socially liberal Americans like CNBC s Michelle Caruso Cabrera people without a party If you tell your neighbors you re a card carrying Republican they ll assume you re opposed to abortion hostile to gay marriage and don t care about the environment or the poor Democrats are portrayed as union loving tree hugging activists more concerned with making government big rather than effective The reality is that both parties have been hijacked by the wrong issues and have abandoned the loyal Americans who believe that government should stay out of our private lives and out of our pocketbooks Both parties are to blame for the exorbitant spending and excessive social interference over the last ten years that have left our country in a financial disaster The core principles of Reaganomics rejuvenated an unstable economy and the Clinton era policy successes took power away from the federal government and put money in our pockets We must return to the fundamentals of American politics small not big government Less spending not more The first step is to more narrowly define the parties platforms away from needlessly divisive social issues and refocus the political discussion on that really matters economic policies that create jobs In the smart tell it like it is style that has made her popular with Democrats and Republicans like Caruso Cabrera outlines forward thinking free market solutions for health care education and immigration These ideas will stop our growing deficit boost our competitive capital and strengthen our dollar because an economy that is flexible and free of government interference can grow faster and get the country out of its current malaise It s not too late to fix our nation restore our credibility and rebuild our political system with the tenets on which it was founded fiscal conservatism and social liberty Our future is counting on it
