After European contact, Aboriginal way of life was changed forever.

Once the dominant people of Australia, the Aborigines today account for less than 3% of the total population.

English has become the dominant language of the continent; only around 48,000 people speak an indigenous language in Australia today.

Aboriginal peoples were not granted voting rights until 1965 and were not even counted as part of the national census until 1967

Rights For Aborigines:

Rights for Aborigines Bain Attwood, 2020-07-24 We cannot help but wonder why it has taken the white Australians just on 200 years to recognise us as a race of people Bill Onus 1967 Aboriginal people were the original landowners in Australia yet this was easily forgotten by Europeans settling this old continent Labelled as a primitive and dying race by the end of the nineteenth century most Aborigines were denied the right to vote to determine where their families would live and to maintain their cultural traditions In this groundbreaking work Bain Attwood charts a century long struggle for rights for Aborigines in Australia He tracks the ever shifting perceptions of race and history and how these impacted on the ideals and goals of campaigners for rights for indigenous people He looks at prominent Aboriginal and non Aboriginal campaigners and what motivated their involvement in key incidents and movements Drawing on oral and documentary sources he investigates how they found enough common ground to fight together for justice and equality for Aboriginal people Rights for Aborigines illuminates questions of race history political and social rights that are central to our understanding of relations between Aboriginal and non Aboriginal Australians

The Struggle for Aboriginal Rights Bain Attwood, 2020-07-22 The Struggle for Aboriginal Rights is the first book of its kind Not only does it tell the history of the political struggle for Aboriginal rights in all parts of Australia it does so almost entirely through a selection of historical documents created by the Aboriginal campaigners themselves many of which have never been published It presents Aboriginal perspectives of their dispossession and their long and continuing fight to overcome this In charting the story of Aboriginal political activity from its beginnings on Flinders Island in the 1830s to the fight over native title today this book aims to help Australians better understand both the continuities and the changes in Aboriginal politics over the last 150 years in the leadership of the Aboriginal political struggle the objectives of these campaigners for rights for Aborigines their aspirations the sources of their programmes for change their methods of protest and the outcomes of their protest Through the words of Aboriginal activists across 150 years The Struggle for Aboriginal Rights charts the relationship between political involvement and Aboriginal identity

Historical Dictionary of Australian Aborigines Mitchell Rolls, Murray Johnson, 2019-11-05 The Aboriginal Australians first arrived on the continent at least 60 000 years ago occupying and adapting to a range of environmental conditions from tropical estuarine habitats densely forested regions open plains and arid desert country to cold mountainous and often wet and snowy high country Cultures adapted according to the different conditions and adapted again to environmental changes brought about by rising sea levels at the end of the last ice age European colonization of the island continent in 1788 not only introduced diseases to which Aborigines had no immunity but also began an enduring and at times violent conflict over land and resources Reconciliation between Aborigines and the settler population remains unresolved This second edition of the Historical Dictionary of Australian Aborigines contains a chronology an introduction an extensive bibliography and more than 300 cross referenced entries on

Richard Egan, 2021-10-19 In 1883 the New South Wales Board for the Protection of Aborigines was tasked with assisting and supporting an Aboriginal population that had been devastated by a brutal dispossession. It began its tenure with little government direction; its initial approach was cautious and reactionary. However, by the turn of the century this Board, driven by some forceful individuals, was squarely focused on a legislative agenda that sought policies to control, segregate and expel Aboriginal people. Over time it acquired extraordinary powers to control Aboriginal movement, remove children from their communities and send them into domestic service, collect wages and hold them in trust, withhold rations, expel individuals from stations and reserves, authorise medical inspections and prevent any Aboriginal person from leaving the state. Power and Dysfunction explores this Board and uncovers who were the major drivers of these policies, who were its most influential people and how this body came to wield so much power. Paradoxically, despite its considerable influence through its bravado, structural dysfunction, flawed policies and general indifference, it failed to manage core aspects of Aboriginal policy. In the 1930s, when the Board was finally challenged by Aboriginal and non-Aboriginal groups seeking its abolition, it had become moribund, paranoid and secretive as it railed against all detractors. When it was finally disbanded in 1940, its 57-year legacy had touched every Aboriginal community in New South Wales with lasting consequences that still resonate today.

Rights Duncan Ivison, 2014-12-05 The language of rights pervades modern social and political discourse, from prisoners to unborn babies, yet there is deep disagreement amongst citizens, politicians and philosophers about just what they mean. Who has them? Who should have them? Who can claim them? What are the grounds upon which they can be claimed? How are they related to other important moral and political values such as community, virtue, autonomy, democracy and social justice? In this book, Duncan Ivison offers a unique and accessible integration of and introduction to the history and philosophy of rights. He focuses especially on the politics of rights, the fact that rights have always been and will remain deeply contested. He discusses not only the historical contexts in

which some of the leading philosophers of rights formed their arguments but also the moral and logical issues they raise for thinking about the nature of rights more generally At each step Ivison also considers various deep criticisms of rights including those made by communitarian feminist Marxist and postmodern critics The book is aimed at students and readers coming to these issues for the first time but also at more knowledgeable readers looking for a distinctive integration of history and theory as applied to questions about the nature of rights today *Principles of Civil Government* John Boyd Kinnear,1887 *Indigenous Rights and Colonial Subjecthood* Amanda Nettelbeck,2019-03-28 An exploration of how policies protecting indigenous people s rights were entwined with reforming them as governable subjects including through punishment under the law **Buying Back the Land** Ian Palmer,Australian Institute of Aboriginal Studies,1988 Political legal and bureaucratic problems of implementation of land purchases from 1960s to present day contradictions of land rights demands in Capitalist Australia major phases of Aboriginal Land Fund Commission s life Department of Aboriginal Affairs relations with A L F C *The Colonial Intelligencer, Or, Aborigines' Friend* ,1874-02
