Rights Of The Imprisoned:

Parental Imprisonment and Children's Rights Fiona Donson, Aisling Parkes, 2021-03-30 This book brings together internationally renowned academics and professionals from a variety of disciplines who in a variety of ways seek to understand the legal conceptual and practical consequences of parental imprisonment through a children's rights lens. Children whose parents have been incarcerated are often referred to as invisible victims of crime and the penal system. It is well accepted that the imprisonment of a parent even for a short period of time not only negatively affects the lives of children but it can also result in a gross violation of their fundamental human rights such as the right of access to their parent and the right to have an input into decision making processes affecting them the outcomes of which will without doubt affect the life of the child concerned. This collection foregrounds the voice of these children as it explores transdisciplinary boundaries and examines the practice and development of the rights of both children and their families within the wider dynamic of criminal justice and penology practice. The text is divided into three parts which are dedicated to 1 hearing the voices of children with parents in prison 2 understanding to what extent children's rights informs prison policy and 3 demonstrating how law in the form of children's rights can help frame both court sentencing and prison practice in a way that minimises the harm that contact with the prison system can cause. The research drawn upon in this book has been conducted in a number of European countries and demonstrates both good and bad practice as far as the implementation of children's rights is concerned in the context of parental incarceration. An accessible and compelling read this book will appeal to students and scholars of law children's rights criminology sociology social work psychology penology and all those interested in and working towards protecting the rights of children who have a parent in prison.

Prisoners' Rights John Kleinig, 2017-07-05 This volume brings together a selection of the most important published research articles from the ongoing debate about the moral rights of prisoners. The articles consider the moral underpinnings of the debate and include framework discussions for a theory of prisoners' rights as well as several international documents which detail the rights of prisoners including women prisoners. Finally detailed analysis of the moral bases for particular rights relating to prison conditions covers areas such as health solitary confinement recreation work religious observance library access the use of prisoners in research and the disenfranchisement of prisoners.

Human Rights In The Administration Of Justice United Nations. Office of the High Commissioner for Human Rights, International Bar Association, 2003-12-01 Independent legal professionals play a key role in the administration of justice and the protection of human rights. Judges prosecutors and lawyers need access to information on human rights standards laid down in the main international legal instruments and to related jurisprudence developed by universal and regional monitoring bodies. This publication which includes a manual and a facilitator's guide seeks to provide a

comprehensive core curriculum on international human rights standards for legal professionals It includes a CD ROM containing the full electronic text of the manual in pdf format **Human Rights in Pre-trial Detention** Chandr Mohan Upadhyay,1999 The Rights of Refugees under International Law James C. Hathaway,2021-04-22 The only comprehensive analysis of international refugee rights anchored in the hard facts of refugee life around the world Prisoners and Human Rights Dr Upendra Nath Dubey,2023-07-12 The concept of Human Rights is as old as the existence of mankind on this earth These rights were known by different names at different times This book presents thorough knowledge about Human Rights of the Prisoners and it is perhaps the first book of its kind The book is significant from the point of view of lawyers Judges researchers NGOs and all other persons related to protection and promotion of Human Rights of the prisoners at large It may help the Government in introducing changes in its policies so as to provide better treatment to the prisoners The readers can apply findings of the study in India and abroad while doing any work regarding protection and promotion of Human Rights of the prisoners It also deals with the problems which are being faced by different kinds of prisoners Any right will become redundant if there is no machinery for enforcement *Essential Texts on European and International Asylum and Migration Law* Gert Vermeulen, Ellen Desmet,2022-12-30 This volume comprises the relevant legal instruments in the area of international and European asylum and migration The range of issues covered is comprehensive human rights nationality and statelessness equal treatment non discrimination racism and xenophobia citizenship residence and free movement borders border management and entry visa and passenger data labour migration family reunification asylum subsidiary and temporary protection irregular migration and trafficking in human beings The texts have been ordered according to the multilateral co operation level within which they were drawn up either the United Nations the Council of Europe or the European Union including Schengen level instruments This edition provides practitioners authorities policy makers scholars and students throughout Europe with an accurate and up to date compilation of essential texts on asylum and migration matters All texts have been updated until 12 December 2022 *The Use of Preventive Detention Laws in Malaysia: A Case for Reform* M. Ehteshamul Bari, Safia Naz,2020-07-07 This book examines the extraordinary nature of the power of preventive detention which permits executive dispensation of the personal liberty of an individual on the mere apprehension that if free and unfettered he may commit acts prejudicial to national security or public order In light of the extraordinary scope of this power it therefore contends that the scope of the power should be confined to genuine emergencies threatening the life of the nation Against the above background this book sheds light on the fact that Article 149 of the Federal Constitution of Malaysia empowers the Parliament to enact preventive detention laws authorizing the executive branch of government to preventively detain individuals without the precondition of an emergency Furthermore the Constitution does not stipulate adequate safeguards for mitigating the harshness of preventive detention laws This book makes it manifestly evident that the weaknesses of the constitutional provisions concerning preventive detention have enabled succeeding

generations of executives in Malaysia to not only enact a series of preventive detention statutes for arrogating to themselves wide powers concerning preventive detention but also to rely on them for arbitrarily detaining their political adversaries. Consequently on the basis of this analysis this book puts forward concrete recommendations for insertion in the Constitution detailed norms providing for legal limits on the wide power of the executive concerning preventive detention. The insertion of such norms would ensure the maintenance of a delicate balance between protecting national interests and simultaneously observing respect for an individual's right to protection from arbitrary deprivation of liberty. This book is useful for academics and students of comparative constitutional law, human rights and Asian law. The extensive law reform analysis undertaken in this book also greatly benefits the policy makers in Malaysia and the policy makers of constitutional polities facing similar problems with the issue of circumscribing the scope of the powers concerning preventive detention.

Essential Texts on European and International Asylum and Migration Law and Policy (2nd revised edition) Gert Vermeulen, Ellen Desmet, 2019. This volume comprises the relevant legal instruments and principal policy documents in the area of international and European asylum and migration including the latest versions of pending legislative proposals. The range of issues covered is comprehensive: human rights, nationality and statelessness, equal treatment, non-discrimination, racism and xenophobia, citizenship, residence and free movement, borders, border management and entry, visa and passenger data, labour migration, family reunification, asylum, subsidiary and temporary protection, irregular migration and trafficking in human beings. The texts have been ordered according to the multilateral co-operation level within which they were drawn up: either the United Nations, the Council of Europe or the European Union, including Schengen level instruments. This edition provides practitioners, authorities, policy makers, scholars and students throughout Europe with an accurate up-to-date and forward-looking compilation of essential texts on asylum and migration matters. All texts have been updated until 20 December 2018.
