**Children's Rights** Smiljana Simeunovic Frick, 2011 This book presents reports prepared by children and submitted to the UN's Committee on the Rights of the Child Although children's participation has become an important topic in academic literature on childhood or children's rights neither their participation in the monitoring process of the Children's Rights Convention nor their reports have received due attention so far Children's reports document their citizenry practices and are a valuable source of information about their perspective on their rights and other related topics The aim of the book is to give children an opportunity to have their voices heard by the wider public Series Kinder Jugend Lebenswelten Transnationale und interkulturelle Studien Vol 7

**The New Handbook of Children's Rights** Bob Franklin, 2001-10-18 The expanded and completely revised new edition of this well established handbook provides essential information on a topic of increasing importance across a range of disciplines and practices

Rights and Wrongs of Children's Work M. F. C. Bourdillon, 2010 Explores the place of labor in children's lives and child development By incorporating recent theoretical advances in childhood studies and in child development the authors argue for the need to re think assumptions that underlie current policies on child labor Proposes a new approach to promote the well being development and human rights of working children From publisher description

**Child Rights** T. Mamatha, Devireddy Sarada, 2009 Study conducted at Chittoor District of Andhra Pradesh India

Young Children in the World and Their Rights Adrijana Višnjić-Jevtić, Alicja R. Sadownik, Ingrid Engdahl, 2021-04-20 This book provides different perspectives on the concept of children's rights including policy educational and children's perspectives It examines how the crucial ideas of the Convention on the Rights of the Child are respected and implemented in 14 countries in five regions of the world It looks at early childhood education children's participatory rights and at how these rights are promoted and guaranteed in different countries It explores the professional practice of education and its complexities challenges and dilemmas as well as the role of play and of listening and participation The book advocates children's rights today arguing for its vital importance in the best interests of the children In doing so it furthers the understanding of children's rights and spreads knowledge about the Convention as a means of celebrating its 30th anniversary The UN Convention on the Rights of the Child UNCRC comprises the potential to change the lives of children to the very best It may exalt children from the position of marginalized citizens to the centre of policies all over the world Even though the concept of children's rights is omnipresent the respect for children's rights must be discussed While the Convention brings the new perspective of children as citizens to the world there are still challenges in its application The book interrogates challenges in understanding and applying children rights and offers possible answers to

these challenges The ratification process itself does not guarantee that children s rights are respected While all adults should take responsibility for implementing the UNCRC in everyday life Early Childhood Education should give opportunities for children to learn and live their rights

**Conference on Children in a Democracy** ,1939 *Conference on Children in a Democracy* White House Conference on Children in a Democracy (1939-1940, Washington, DC),1939 *The United Nations Convention on the Rights of the Child: An Analysis of Treaty Provisions and Implications of U.S. Ratification* Jonathan Todres,Mark E. Wojcik,Cris Revaz,2006-05-01 This in depth text goes beyond the rhetoric of the debate on children s rights and the Convention on the Rights of the Child in particular to provide a detailed examination of the impact that U S ratification of the Convention would have on U S law The chapters have been written by leading children s advocates and scholars with a general audience in mind as the authors believe that it is important for all Americans to become informed about the Convention and about children s rights in general With a greater understanding of the substance of the Convention and children s rights readers will be better positioned to determine what the real issues are what is simply rhetoric without any basis in fact or law and how they can address the real issues in an effective manner in order to provide a better world for all children

[Here For Our Children's Children?](#) Adrian C. Armstrong,2016-04-05 This study reviews the many different bases for wanting to preserve the environment By seeing how protagonists approach the same situation from different assumptions some of the origins of environmental conflict may be established and ways of resolving conflict can be identified There are two major issues in environmental ethics The first asks whether the problems can be solved within current approaches or require instead lifestyle changes for the whole of western civilisation The second issue concerns why the environment should be valued This review identifies a series in increasingly stronger valuations that can be identified as 1 Hedonistic we protect the environment because we like it 2 Utilitarian the environment is valuable to us 3 Consequentialist we want to preserve things for other people now or future 4 Intrinsic The environment has virtue in its own right 5 Extrinsic we value the environment because it is of consequence to some thing else theistic a God Thirdly these insights are used to explore potential ways of resolving environmental conflicts notably by the recovery of democratic decision making at the right scale local national or even global

*Suffer the Children* Richard P. Hiskes,2021-07-16 In 1973 Hillary Rodham Clinton famously stated that children s rights is a slogan in search of a definition used to bolster various arguments for peace and for specific rights but without any coherent conception of children as political beings In 1989 the United Nations established the basis for this definition in the Convention on the Rights of the Child CRC a document every nation in the world save the United States has ratified Still human rights theorists scholars and jurists continue to disagree as to the theoretical justification for children s human rights In *Suffer the Children* Richard P Hiskes establishes the first substantive theoretical foundation for the human rights of children As Hiskes argues recognizing the rights of children fundamentally alters the meaning and usefulness of human rights in a global context Ironically the case for children s rights as Hiskes

argues should be seen as the evolution distillation or maturing of human rights in general Children s human rights will end the debate about whether groups can have rights because globally many rights claims today are precisely group claims including those from children Moreover Hiskes provides a new critical assessment of the United Nations CRC and explores child activism for human rights worldwide in courts on social networks and in public demonstrations to show how children are already claiming their rights in ways that will fundamentally change the meaning both of rights themselves and of democratic processes Giving children rights in a way that avoids privileging any single cultural experience of children would make rights no longer a Western individualistic idea but a truly global one

Children's Environmental Rights Under International and EU Law Francesca Ippolito,2022-11-07 This book is dedicated to a topic which has for a long time lacked the attention it deserves within the academic world It intends to address in a coherent and comprehensive manner the problem of the environmental rights of the child which are not identical to the ones of adults whose environmental rights have been appraised from a general point of view In the absence of any international law instrument explicitly granting a child the right to a clean environment drawing on an extensive and original analysis of the UN Convention on the Rights of the Child and the practice of its monitoring body this book undertakes an assessment of the extent to which these challenges may be overcome through a greater engagement between international law on the rights of the child and international environmental law The result is the first comprehensive study on the manner in which these two mutually reinforcing legal regimes can interact to strengthen the protection of children s environmental human rights at stake in the increased strategic environmental and climate litigations at both the national and international level The book is recommended reading for amongst others policy

makers international environmental lawyers and human rights lawyers and practitioners Additionally lecturers students and researchers from a range of disciplines will also gain from seeing how new legal scholarship and intertwined branches of international law contribute to the continual development of the living rights of the human rights conventions Francesca Ippolito is Associate Professor of International Law in the Department of Political and Social Science of the University of Cagliari Italy She holds the Jean Monnet Chair on European Climate of Change REACT for 2021 2024

*Monitoring Children's Rights* Eugene Verhellen, 2023-08-28 Intense political social and scientific efforts to improve the position of children are converging rapidly centered on the UN Convention on the Rights of the Child It is therefore reasonable to assume that there is broad consensus in the international community on how to take the position of children in society seriously Despite the unique success of the Convention the situation is such that it forces us as a matter of urgency to explore develop and implement guarantees for effective monitoring of the implementation of the Convention s provisions In the end rights are only effective when implemented This book containing the contributions made and discussed at the European Conference on Monitoring Children s Rights organized by Ghent University s Children s Rights Centre in December 1994 presents the results of interdisciplinary research into monitoring to a wider scientific forum Several monitoring issues are tackled with particular emphasis on the reporting system what should be reported the content of the reports and who should report the more formal and procedural aspects of reporting Apart from a suitable monitoring mechanism there is also the self executing force of the Convention making it directly enforceable in national courts Ongoing and dynamic monitoring can be a powerful impetus to making systematic progress in this area The debate on monitoring the Children s Rights Convention may in this way expand into an attractive and exemplary debate on human rights conventions in general This book will therefore not only meet the requirements of all those working in the field of children s rights but can also provide appealing material for all those involved in the field of monitoring human rights
