The rise and fall of the city of Mahagonny [Aufstieg und Fall der Stadt Mahagonny, engl.] Transl. by W[ystan] H[ugh] Auden and Chester Kallman Bertolt Brecht, Wystan Hugh Auden, Chester Kallman, 1976

The Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity

A Theology of Nonsense Josephine Gabelman, 2017-10-26 There is within all theological utterances something of the ridiculous perhaps more so in Christianity given its proclivity for the paradoxical and the childlike Few theologians are willing to discuss how consent to the Christian doctrine often requires a faith that goes beyond reason There seems to be a fear that the association of theology with the absurd will give fuel to the sceptic's refrain You can't seriously believe in all that nonsense Josephine Gabelman considers the legitimacy of the sceptic's objection and explores the possibility that an idea can be contrary to rationality and also true and meaningful using the systematic analysis of central stylistic features of literary non sense such as Lewis Carroll's Alice stories Gabelman sets up a nonsense theology by

considering the practical and evangelical ramifications of associating Christian faith with nonsense literature and conversely the value of relating theological principles to the study of literary nonsense Ultimately Gabelman says faith is always a risk and a strictly rational apologetic misrepresents the nature of Christian truth *Brecht and Tragedy* Martin Revermann, 2021-12-16 This wide ranging detailed and engaging study of Brecht's complex relationship with Greek tragedy and tragic tradition argues that this is fundamental for understanding his radicalism Featuring an extensive discussion of The Antigone of Sophocles 1948 and further related works the Antigone model book and the Small Organon for the Theatre this monograph includes the first ever publication of the complete set of colour photographs taken by Ruth Berlau This is complemented by comparatist explorations of many of Brecht's own plays as his experiments with tragedy conceptualized as the big form The significance for Brecht of the Greek tragic tradition is positioned in relation to other formative influences on his work Asian theatre Naturalism comedy Schiller and Shakespeare Brecht emerges as a theatre artist of enormous range and creativity who has succeeded in re shaping and re energizing tragedy and has carved paths for its continued artistic and political relevance **Hitler's War Poets** Jay W. Baird, 2008 Jay W Baird demonstrates how poets and writers responded enthusiastically to Hitler's summons to artists to create a cultural revolution commensurate with the political radicalism of the new state **The Musical Times**, 1963 *The Illustrated London News*, 1963 *New Masters of the Wooden Box* Oscar P.
