Singing with the Mountains William Sherman, 2023-12-05 An illuminating story of a Sufi community that sought the revelation of God In the Afghan highlands of the sixteenth century the messianic community known as the Roshaniyya not only desired to find God s word and to abide by it but also attempted to practice God s word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation As their critics would contend however the Roshaniyya attempted to make language do something that language should not do infuse the semiotic with the divine Their story thus ends in a tower of skulls the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity In *Singing with the Mountains* William E B Sherman finds something extraordinary about the Roshaniyya not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur an The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation In the example of the Roshaniyya we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders imperial courts groups of wandering ascetics and scholastic networks throughout Central and South Asia In telling this tale Sherman asks the following questions How can we make language shimmer with divine truth How can letters grant sovereign power and form new ethnic identities and ways of belonging How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds

The Rise and Fall of Khoqand, 1709-1876 Scott Levi, 2018-03-07 This book analyzes how Central Asians actively engaged with the rapidly globalizing world of the eighteenth and nineteenth centuries In presenting the first English language history of the Khanate of Khoqand 1709 1876 Scott C Levi examines the rise of that extraordinarily dynamic state in the Ferghana Valley Levi reveals the many ways in which the Khanate s integration with globalizing forces shaped political economic demographic and environmental developments in the region and he illustrates how these same forces contributed to the downfall of Khoqand To demonstrate the major historical significance of this vibrant state and region too often relegated to the periphery of early modern Eurasian history Levi applies a connected history methodology showing in great detail how Central Asians actively influenced policies among their

heart of Eurasia The New Cambridge History of Islam: Volume 3, The Eastern Islamic World, Eleventh to Eighteenth Centuries David O. Morgan, Anthony Reid, 2010-11-04 This volume traces the second great expansion of the Islamic world eastwards from the eleventh century to the eighteenth As the faith crossed cultural boundaries the trader and the mystic became as important as the soldier and the administrator Distinctive Islamic idioms began to emerge from other great linguistic traditions apart from Arabic especially in Turkish Persian Urdu Swahili Malay and Chinese The Islamic world transformed and absorbed new influences As the essays in this collection demonstrate three major features distinguish the time and place from both earlier and modern experiences of Islam Firstly the steppe tribal peoples of central Asia had a decisive impact on the Islamic lands Secondly Islam expanded along the trade routes of the Indian Ocean and the South China Sea Thirdly Islam interacted with Asian spirituality including Hinduism Sikhism Buddhism Taoism and Shamanism It was during this period that Islam became a truly world religion **Exploring the Dutch Empire** Catia Antunes, Jos Gommans, 2015-05-21 In 1602 the States General of the United Provinces of the Netherlands chartered the first commercial company the Dutch East India Company and in so doing initiated a new wave of globalization Even though Dutch engagement in the Atlantic and Indian Oceans dates back to the 16th century it was the dawn of the 17th century that brought the Dutch into the fold of the general movement of European expansion overseas and concomitant globalization This volume surveys the Dutch participation in and contribution to the process of globalization At the same time it reassesses the various ways Dutchmen fashioned themselves following the encounter and in the light of increasing dialogue with other societies across the world As such Exploring the Dutch Empire offers a new insight into the macro and micro worlds of the global Dutchman in Asia Africa and the Americas The result fills a gap in the historiography on empire and globalization which has previously been dominated by British and to a lesser extent French and Spanish cases **History of civilizations of Central Asia** Adle, Chahryar, Baipakov, Karl M., Habib, Irfan, UNESCO, 2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas Genealogical History in the Persianate World Jo-Ann Gross, Daniel Beben, 2025-06-26 Scholarship on the Muslim world has recently begun to pay increased attention to non literary genres of documentation as sources for historical research Genealogical writings are one form of such documentation that has demonstrated significant potential for addressing a wide range of research concerns particularly for topics that receive little attention in historical chronicles and other state centered narrative sources However while genealogical documentation has

received some attention in scholarship on the Arab world it remains mostly unstudied in scholarship on Persianate societies The chapters in this book offer reflections on theoretical and methodological issues concerning the study of genealogical documentation combined with case studies based primarily on previously unpublished unstudied source materials The topics explored span the full breadth of the Persianate world from Anatolia to the Ferghana Valley in Central Asia to the Gujarat region of India utilizing sources dating from the fourteenth to the twentieth century The book will be of significant interest to scholars and students of Islamic history and the Persianate ecumene as well as readers in other fields interested in comparative research demonstrating the use of genealogical documentation as historical sources *Caravans* Scott Levi, 2016-01-15 *Caravans* tells the fascinating story of countless Punjabi Khatri merchants who built great business empires through their ingenuity and spirit of adventure Operating during the sixteenth through the nineteenth centuries these merchants risked everything and travelled across Afghanistan Central Asia Iran and Russia They used sophisticated techniques to convert a modest amount of merchandise into vast portfolios for trade and moneylending ventures *Caravans* challenges the belief that the rising tide of European trade in the Indian Ocean usurped the overland Silk Road trade and demonstrates how thousands of Punjabis created a booming market in Central Asia at precisely this historical moment
