Kayatekin, 2020-09-10

While Marxian theory has produced a sound and rigorous critique of capitalism has it faltered in its own practice of social transformation Has it faltered because of the Marxian insistence on the hyper secularization of political cultures The history of religions with the exception of some spiritual traditions has not been any less heartless and soulless This book sets up a much needed dialogue between a rethought Marxian praxis of the political and a rethought experience of spirituality Such rethinking within Marxism and spirituality and a resetting of their lost relationship is perhaps the only hope for a non violent future of both the Marxian reconstruction of the self and the social as also faith based life practices Building on past work in critical theory this book offers a new take on the relationship between a rethought Marxism and a rethought spirituality rethought in the life philosophy and works of Christian thinkers anti Christian thinkers Marxian thinkers those critical of Marxist Statecraft Dalit neo Buddhist thinkers thinkers drawing from Judaism as well as thinkers drawing critically from Christianity Contrary to popular belief this book does not see spirituality as a derivative of only religion This book also sees spirituality as what Marx designated the sigh of the oppressed against both social and religious orthodoxy In that sense spirituality is not just a displaced form of religion it is a displaced form of the political too This book therefore sets up the

much needed dialogue between the Marxian political and the spiritual traditions The chapters in this book were originally published in *Rethinking Marxism A Journal of Economics Culture and Society* Intercultural Theology Mark J. Cartledge, David Cheetham, 2010-11-01 A groundbreaking and trendsetting collection of essays introducing a new interdisciplinary area of theological studies Usable as a key text for modules in intercultural theology mission studies Black Theology and Pentecostal Studies at upper undergraduate and M level Rethinking Gramsci Marcus Green, 2011-03-30 This edited volume provides a coherent and comprehensive assessment of Antonio Gramsci's significant contribution to the fields of political and cultural theory It contains seminal contributions from a broad range of important political and cultural theorists from around the world and explains the origins development and context for Gramsci's thought as well as analysing his continued relevance and influence to contemporary debates It demonstrates the multidisciplinary nature of Gramscian thought to produce new insights into the intersection of economic political cultural and social processes and to create a vital resource for readers across the disciplines of political theory cultural studies political economy philosophy and subaltern studies

Overtly Muslim, Covertly Boni Mark R.J. Faulkner, 2006-05-01 This volume explores the way of life of the Boni community a hunter gatherer people that straddle the Kenya Somali border in East Africa The Boni converted to Islam some fifty years ago and the reasons for this both internal and external to the community are identified The book argues that former indigenous religious activity far from having died out is now being renegotiated so as to reflect an evolving Boni self identity in a multi ethnic setting as well as allowing the fermentation of resistance in the face of attempts at cultural hegemony advanced by outside forces Employing a phenomenological approach and a methodology based on participant observation this volume identifies three contrasting spheres of religious activity the bush the village centre and individual homesteads

Sudarshana Bhaumik,2022-08-26 This book challenges the prevalent assumptions of caste hierarchy and social mobility in pre colonial and colonial Bengal It studies the writings of colonial ethnographers Orientalist scholars Christian missionaries and pre colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure but one which had room for spatial and social mobility The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized It delineates the linkages between sedantized peasant culture and the emergence of new agricultural castes in colonial Bengal Moreover the author discusses a wide spectrum of issues like marginality and hierarchy the spread of Brahmanical hegemony the creation of deities and the process of Sanskritization popular Saivism the cult of Manasa in Bengal and the revolt of 1857 and the caste question Rich in archival sources this book will be an essential read for scholars and researchers of colonial history Indian history political sociology caste studies exclusion studies cultural studies social history cultural history and South Asian studies especially those interested in undivided Bengal South Asia in World Politics Devin T.
