Urban Challenges in the Globalizing Middle-East Simona Azzali, Silvia Mazzetto, Attilio Petruccioli, 2021-04-20 This publication aims to investigate the nature of social life in public and urban spaces in the cities of the Middle East considering the value of environmental approaches It aims to develop a better understanding of the patterns of social interactions and activities in public places which have been influenced by cultural heritage values Sustainable and livable open spaces can help in improving living conditions in cities Public spaces are relevant as they satisfy many human needs In public spaces people interact and meet people with different cultures and social backgrounds can communicate and learn from each other in social and spontaneous ways However decision makers tend to forget the value of public spaces especially in the absence of a national regulatory framework in emerging globalized cities The book provides a multi disciplinary approach in reading the characteristics and values of public

spaces in the emerging cities of the Middle East Urban Challenges and Urban Design Approaches for Resource-Efficient and Climate-Sensitive Urban Design in the MENA Region Elke Pahl-Weber, Ohlenburg, Holger, Seelig, Sebastian, Kuhla von Bergmann, Nadine, Schäfer, Rudolf, 2013-06-10 In an era defined by climate change huge resource consumption a lack of social cohesion rapidly accelerating technological innovations economic shifts and the transformation of political systems solutions must be pursued at every level of action This book shows how solutions from urban design and planning can by integrating the approaches of multiple disciplines be the first steps toward envisioning the sustainable energy efficient and climate sensitive city of the future This book is compiled for readers from a range of professional backgrounds Its intended audience includes the government bodies municipalities urban planners engineers architects civil servants and citizens who are part of urban development from initiation through implementation The facts and findings presented herein are relevant to any national or international debate concerning urban development which aims to create sustainable resource efficient and climate sensitive urbanization processes. The text and visuals of this book are intended to serve as a comprehensive decision support tool taking into account that current and future urban challenges and planning tasks can only be tackled through an interlinked and stakeholder driven iterative process As a result of the Young Cities research project this book acts as a multilayered reference manual by providing a a brief outline of the MENA region s urban challenges b a proposal for generic principles and actions for creating an energy and resource efficient as well as environmentally sustainable urban environment c the opportunities and impacts of each discipline involved in an integrated planning process and d the findings of the applied principles in the 35 ha Shahre Javan Community pilot project The Rise of the Eastern Metropolis: A Tale of Urban Transformation Pasquale De Marco, 2025-05-15 In the heart of a nation undergoing profound transformation there lies a city poised for greatness This book tells the captivating story of its metamorphosis from a humble provincial town to a thriving metropolis pulsating with industry culture and innovation Through the lens of meticulous research and vivid storytelling we delve into the intricate tapestry of this urban jewel exploring the forces that shaped its destiny and the lives of its inhabitants We witness its transformation fueled by the engines of commerce and the dreams of countless individuals as factories and mills spring up transforming the urban landscape and the lives of its workers The city becomes a crucible of social change where traditional values clash with new ideologies and aspirations We explore the struggles of the working class the fight for civil rights and the quest for equality in a society grappling with the growing pains of modernization We encounter its visionary leaders its ordinary citizens and the myriad characters who breathe life into its story With each chapter we delve deeper into the city's evolution examining its triumphs and tribulations its moments of glory and despair We ponder the city's future envisioning a metropolis that is both prosperous and sustainable a place where all its inhabitants can thrive and flourish This book is an ode to the indomitable spirit of urban transformation a testament to the resilience and creativity of the human spirit It is a story of progress

challenges and the unwavering pursuit of a better future As the city continues to evolve its legacy will inspire generations to come serving as a reminder of the power of human ingenuity and the limitless possibilities that lie ahead If you like this book write a review on google books Urbanization, Biodiversity and Ecosystem Services: Challenges and Opportunities Thomas Elmqvist, Michail Fragkias, Julie Goodness, Burak Güneralp, Peter J. Marcotullio, Robert I. McDonald, Susan Parnell, Maria Schewenius, Marte Sendstad, Karen C. Seto, Cathy Wilkinson, 2013-09-21 Urbanization is a global phenomenon and the book emphasizes that this is not just a social technological process It is also a social ecological process where cities are places for nature and where cities also are dependent on and have impacts on the biosphere at different scales from local to global The book is a global assessment and delivers four main conclusions Urban areas are expanding faster than urban populations Half the increase in urban land across the world over the next 20 years will occur in Asia with the most extensive change expected to take place in India and China Urban areas modify their local and regional climate through the urban heat island effect and by altering precipitation patterns which together will have significant impacts on net primary production ecosystem health and biodiversity Urban expansion will heavily draw on natural resources including water on a global scale and will often consume prime agricultural land with knock on effects on biodiversity and ecosystem services elsewhere Future urban expansion will often occur in areas where the capacity for formal governance is restricted which will constrain the protection of biodiversity and management of ecosystem services Smarter as the New Urban Agenda J. Ramon Gil-Garcia, Theresa A. Pardo, Taewoo Nam, 2015-09-07 This book will provide one of the first comprehensive approaches to the study of smart city governments with theories and concepts for understanding and researching 21st century city governments innovative methodologies for the analysis and evaluation of smart city initiatives The term smart city is now generally used to represent efforts that in different ways describe a comprehensive vision of a city for the present and future A smarter city infuses information into its physical infrastructure to improve conveniences facilitate mobility add efficiencies conserve energy improve the quality of air and water identify problems and fix them quickly recover rapidly from disasters collect data to make better decisions deploy resources effectively and share data to enable collaboration across entities and domains These and other similar efforts are expected to make cities more intelligent in terms of efficiency effectiveness productivity transparency and sustainability among other important aspects Given this changing social institutional and technology environment it seems feasible and likeable to attain smarter cities and by extension smarter governments virtually integrated networked interconnected responsive and efficient This book will help build the bridge between sound research and practice expertise in the area of smarter cities and will be of interest to researchers and students in the e government public administration political science communication information science administrative sciences and management sociology computer science and information technology As well as government officials and public managers who will find practical recommendations based on rigorous studies that will contain insights and guidance for the
