Risings Poetry:

Chaucer, Gower, and the Vernacular Rising Lynn Arner, 2013-04-11 Chaucer Gower and the Vernacular Rising examines the transmission of Greco Roman and European literature into English during the late fourteenth and early fifteenth centuries while literacy was burgeoning among men and women from the nonruling classes This dissemination offered a radically democratizing potential for accessing interpreting and deploying learned texts Focusing primarily on an overlooked sector of Chaucer s and Gower s early readership namely the upper strata of nonruling urban classes Lynn Arner argues that Chaucer s and Gower s writings engaged in elaborate processes of constructing cultural expertise These writings helped define gradations of cultural authority determining who could contribute to the production of legitimate knowledge and granting certain socioeconomic groups political leverage in the wake of the English Rising of 1381 Chaucer Gower and the Vernacular Rising simultaneously examines Chaucer s and Gower s negotiations often articulated at the site of gender over poetics and over the roles that vernacular poetry should play in the late medieval English social formation This study investigates how Chaucer s and Gower s texts positioned poetry to become a powerful participant in processes of social control

Divinity Rising John C. Robinson,2025-02-27 Divinity Rising integrates the insights of a depth oriented clinical psychologist ordained in interfaith spirituality with the revelations of a modern day mystic for a deep and experiential understanding of mysticism Some people approach the divine through Scripture others through ideas beliefs and intuitions The mystic seeks direct experience of the divine to explore its perceptual emotional and metaphysical nature For the mystic the entire universe is conscious and alive saturated by an all encompassing eternal and loving Presence a vision embraced by Rumi Kabir Hafez Gibran and so many other poets who leave ecstatic liberating and radically hopeful footprints Divinity Rising follows in this tradition More than a book it s a state of consciousness More than a spiritual technique it s an experience of transformation More than a relationship with God it s about becoming God **Rising from the Ruins** Bruce C. Swaffield,2009-10-02 The neoclassic tendency to write about the ruins of Rome was both an attempt to recapture the grandeur of the golden age of man and a lament for the passing of a great civilization John Dyer who wrote The Ruins of Rome in 1740 was largely responsible for the eighteenth century revival of a unique subgenre of landscape poetry dealing with ruins of the ancient world Few poems about the ruins had been written since Antiquit s de Rome in 1558 by Joachim Du Bellay Dyer was one of first neoclassic poets to return to the decaying stones of a past society as a source of poetic inspiration and imagination He views the relics as monuments of grandeur and greatness but also of impending death and

destruction While following most of the rules and standards of neoclassicism that of imitating nature and giving pleasure to a reader Dyer also includes his personal reactions and emotions in *The Ruins of Rome* The work is composed from the position of a poet who serves as interpreter and translator of the subject a primary characteristic of prospect poetry in the eighteenth century Numerous other writers quickly followed Dyer's example including George Keate William Whitehead and William Parsons The tendency by these poets to write about the ruins of Rome from a subjective point of view was one of the strongest themes in what Northrop Frye has called the Age of Sensibility Although the renewed interest in Roman ruins lasted well into the nineteenth century influencing Romantic poets from Lord Byron to William Wordsworth the evolution of this type of verse was a gradual process it originated with Du Bellay's poem continued through seventeenth century paintings by Claude Lorrain and Salvator Rosa along with the later art of Piranesi and Pannini and reached maturity with the poetic interest in the imagination in the eighteenth century All of these factors especially the tendency of poets to record their subjective feelings and insights concerning the ruins are elements that proved to be instrumental in the eventual development of Romanticism
