*Extreme Leadership* Charles Patton, 2024-07-26 Leadership is a curious topic It is most noted in its absence and most measured by its need Leadership requires opportunity Leadership is driven by the situation what worked in one situation may be disastrous in another It requires skills to be able to direct the challenge at hand Leadership is both an art and a science It is theoretical and applied cultural and contextual Most importantly leadership is about accomplishment and results Let s face it talking about leadership is tough and in many ways counter intuitive Many people want to be leaders and some people prefer to follow a leader but followers want to follow not just any leader they want to follow a great leader Business leadership textbooks often focus on the process and theory of leadership Not what it is but what it looks like or what it has accomplished Terms like neo charismatic and non hierarchical cross culture participator are used Pictures are drawn showing pyramids and leadership process flows with colored boxes containing value risk qualifiers I have even read in textbooks that leadership is a dated concept and today it is the social environment and individual zones of comfort that produce accomplishments Mumbo jumbo I believe if you want to have the things that great people have you have to do the things great people do The single most identifiable characteristic of successful people is that they are successful leaders This is why Mr Patton developed the term Extreme Leadership for this book and why the book focuses more on extreme examples than process flows and models Charles writing style is straight ahead and his content lays it out as it is This book is designed as a supplement to graduate level leadership courses However it is also very readable and interesting and applicable to all aspects of life This book sends the important message that It is okay to lead it is okay to be a leader It is also okay to follow And that anyone who wants to lead can learn to lead Hopefully after reading this book and thinking about the case studies you will have a rounded view of leadership start to see when opportunities are presented and be able to leverage them for your own leadership successes Dr D E Lady

### Challenge Yourself

Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. Engage Support. One can't lead alone and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family managers at work or professional coaches, leaders need the advice, feedback, care, and support of others.

### Practice Deliberately

No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit.

Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately.

### Learning Leadership

challenges readers to do the meaningful and disciplined work necessary to becoming the best they can using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.
