Ethics, Second Edition Patrick Findler, Doran Smolkin, Warren Bourgeois, 2019-05-28 In this updated second edition Debating Health Care Ethics explores contemporary moral challenges in health care providing students with the essential tools to

understand and critically evaluate the leading arguments in the field and to develop their own arguments on important moral problems in health care. Written in a clear and concise way, the textbook's first three chapters explore the nature of arguments and ethical theories, while the remaining chapters introduce students to moral problems in health care through case studies and dramas that feature complex scenarios involving patients, family members, and health care providers. Each case study and drama is followed by a lively debate where the authors defend their unique approaches to the dilemma. This new edition now includes more gender-inclusive dramas, an expanded discussion of feminist ethics, a case study on euthanasia that highlights changes to Canadian law, and an update on fetal consciousness that informs the debate on abortion.

Emphasizing critical issues in health care from a Canadian perspective, this essential textbook will benefit students in philosophy, nursing, and health studies. *Resources in Education*, 1998. *Spiritual Philosophers: From Schopenhauer to Irigaray*. Richard White, 2020-02-20. How does thinking illuminate the spiritual view of life? How does a close examination of key spiritual thinkers help us to live in the modern world? And in what way does philosophy enhance spirituality? In this book, Richard White answers these questions by analysing a range of important philosophers from Schopenhauer in the first half of the 19th century to Irigaray in the present day. Each chapter examines the work of a single writer and one closely associated theme, such as Nietzsche on generosity, Benjamin on wisdom, and Derrida on mourning. The author looks at philosophy and spirituality in the tradition of continental philosophy and he views spirituality as something that can be separated from religion. With the rise of reductive scientific materialism becoming ever more prevalent in modern society, White seeks to recover the idea of a spiritual tradition which is not otherworldly but philosophical in nature. The thinkers discussed in this book articulate some of the deepest possibilities of human existence. *Spiritual Philosophers* offers an approach to philosophy as a spiritual practice which the author sees as an integral part of our life. As a pioneering work in an emerging field, the philosophy of spirituality, this book contributes to several key debates surrounding spirituality, theology, and the role of philosophy in the contemporary world. *Children's Biographies of African American Women*. Sara C.

VanderHaagen, 2018-11-15. A study of how rhetoric has shaped the life stories of African American role models in children's literature. In *Children's Biographies of African American Women: Rhetoric, Public Memory, and Agency*. Sara C. VanderHaagen examines how these biographies encourage young readers to think about themselves as agents in a public world. Specifically, VanderHaagen illustrates how these works use traditional means to serve progressive ends and thereby examines the rhetorical power of biography in shaping identity and promoting public action. Drawing on scholarship in rhetoric, memory studies, and children's literature, VanderHaagen presents rhetorical analyses of biographies of three African American women: poet Phillis Wheatley, activist Sojourner Truth, and educator turned politician Shirley Chisholm, published in the United States during the twentieth and twenty-first centuries. VanderHaagen begins by analyzing how biographical sketches in books for black children published during the 1920s represent Wheatley and Truth. The study then shifts to books published between

1949 and 2015 VanderHaagen uses a concept adapted from philosopher Paul Ricoeur the idea of the agential spiral to chart the ways that biographies have used rhetoric to shape the life stories of Wheatley Truth and Chisholm By bringing a critical rhetorical perspective to the study of biographies for children this book advances the understanding of how lives of the past are used persuasively to shape identity and encourage action in the contemporary public world VanderHaagen contributes to the study of rhetoric and African American children s literature and refocuses the field of memory studies on children s biographies a significant but often overlooked genre through which public memories first take shape
