*Rites of Ordination and Commitment in the Churches of the Nordic Countries* Hans Raun Iversen, 2006 A unique situation exists in the Nordic countries where there is a Lutheran majority living in ecumenical cooperation with other churches and ecclesiastical communities This book attempts to shed light on what the churches have discovered they hold in common and on areas where they recognise that there are divergencies between them both in relation to ordination and ministry and in particular to the theology and terminology of ordination The book brings together the research and insights of 23 researchers from all the Nordic countries studying more than 200 different kinds of ordination rites from the Orthodox and Roman Catholic as well as Lutheran and non Lutheran protestant traditions After an introduction to the churches in the Nordic countries the book presents 19 case studies from the Nordic countries The last part includes some general ecumenical and liturgical perspectives on ordination and rites presented by international researchers **Ritual in Its Own**

George Jessel Lodge No. 566, 1905 The Office of Ceremonies and Advancement in Curial Rome, 1466-1528 Jennifer Mara DeSilva, 2022-02-07 This cultural and institutional history explores the careers of men who served in Rome s Office of Ceremonies during the papal court s growth period c 1466 1528 in order to understand how the smallest papal college stands as a model of early modern curial advancement The experiences and

textual contributions of three ceremonialists Agostino Patrizi Johann Burchard and Paris de Grassi show diverse strategies and origins but similar concerns and achievements In a period of heightened competition and increasing pressure for regularization and reform the Office s professionalization and their combined office holding networks and textual production reveal how early modern curialists got ahead This study shows the complexity of successful advancement strategies that were cultivated over decades and stretched far beyond papal support

most of them previously published in German which elucidate the functioning of prestate societies Examples from the Frankish and later German realm 800 1200 are used to clarify how rules and political rituals governed behavior in the power games between kings churchmen and nobles Such rules Spielregeln and rituals guided public and private behavior despite the fact that they existed only as unwritten customs The long overlooked significance of this way of establishing order has sparked a vivid and controversial international discussion in the last decades which continues today

**Legal Flexibility and the Mission of the Church** Will Adam,2016-04-22 Legal scholars and authorities generally agree that the law should be obeyed and should apply equally to all those subject to it without favour or discrimination Yet it is possible to see that in any legal system there will be situations when strict application of the law will produce undesirable results such as injustice or other consequences not intended by the law as framed In such circumstances the law may be changed but there may be broad policy reasons not to do so The allied concepts of dispensation and economy grew up in the western and eastern traditions of the Christian church as mechanisms whereby an individual or a class of people could by authority be excused from obligations under a particular law in particular circumstances without that law being changed This book uncovers and explores this neglected area of church life and law Will Adam argues that dispensing power and authority exist in various guises in the systems of different churches Codified and understood in Roman Catholic and Orthodox canon law this arouses suspicion in the Church of England and in English law in general The book demonstrates that legal flexibility can be found in English law and is integral to the law of the Church to enable the Church today better to fulfil its mission in the world
