Shipwrecks in Paradise Jim Gibbs,1977 Shipwrecks in Paradise Jim Gibbs,2008 **International Handbook of Underwater Archaeology** Carol V. Ruppe,Jane F. Barstad,2013-11-11 Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites The editors have assembled an internationally distinguished roster of contributors to fill this gap In addition to both geographical and topical approaches the chapters also focus on technology law public and private institutional roles and goals and the research and development of future technologies and public programs **Beaches of Kaua'i and Ni'ihau** John R. K. Clark,1989-11-01 Kaua i has more sand beaches per mile of shoreline than any other island in Hawai i Its spectacular shoreline ranges from cliffs of bird sanctuaries to a fishpond in a volcanic crater to the traditional swimming snorkeling surfing and beachcombing beaches Although the owners of Ni ihau discourage visitors author John Clark includes fascinating sketches of the island to complete his inventory of Hawai i s beaches The Beaches series by John R K Clark include Beaches of Maui County Beaches of the Big Island Beaches of Kaua i and Ni ihau and The Beaches of O ahu The author an ocean recreation consultant includes comprehensive site descriptions of hundreds of beaches in the Hawaiian Islands and shares his extensive knowledge of and deep respect for Hawai i s shorelines

Wrecked on the Reef Jason T. Raupp,2025-12-15 Wrecked on the Reef Maritime Archaeology of American Whaleships in the Pacific Ocean explores the industrial nature of American deep water whaling ships operating in the Pacific Ocean Unlike the vessels used in other seaborne merchant activities of the period whaleships were constructed and organized to be floating production platforms The industrial system which has been neglected in archaeological studies involved organized labor and a series of interrelated processes and tools many of which were adapted from Indigenous and European whaling traditions that developed over centuries By connecting historical and archival research archaeological site inspections and comparative studies of museum collections Jason Raupp contextualizes the industrial experience and working environment

on board those whaling vessels Each source provides a different perspective illuminating the Golden Age of whaling 1815-1860 This engaging and accessible narrative overviews the experience from the earliest known whaling to the decline of the whaling industry and what can be learned from American whaleship wrecks that lie in the waters off the Hawaiian islands The narrative brings readers into the heart of preparing for voyages and daily routines from outfitting of the vessels meals recreation and healthcare to details of the hunt the processing of the whale parts and the duties and status of the workers on board Numerous photographs of archaeological finds from submerged shipwrecks complement the history of the industrial nature of the workplaces This book will be a must have for all fascinated by America's whaling past Provided by publisher
