Mari Et Femme Dans La Societe Paysanne:

Mari et femme dans la société paysanne Martine Segalen, 1980 **Mari et femme dans la société paysanne** Martine Segalen, 1984 **La société paysanne en Nouvelle-Castille** Marie-Catherine Barbazza, 2000

Aux XVI^e XVII^e siècles le système successoral castillan repose sur le principe d'aînesse et implique par conséquent une division des patrimoines. Dès lors quel pouvait être le sort d'une propriétaire paysanne soumise à un morcellement continu? Le recours au majorat restait exceptionnel dans les campagnes. Grâce à l'analyse minutieuse d'une documentation d'archives et de nature très diverse (partages de biens, testaments, lettres de dot, actes de vente et autres actes notariés et aux nombreux recoupements qui ont pu être effectués) le présent ouvrage met en lumière les mécanismes selon lesquels entre 1580 et 1640 se sont constitués puis transmis un certain nombre de patrimoines paysans situés autour de Pozuelo, un village de Nouvelle Castille proche de Madrid. L'étude des stratégies mises en œuvre pour assurer la continuité des structures familiales et des alliances matrimoniales, lesquelles sont fondées sur l'échange et la réciprocité, permet de démontrer les rouages d'une société paysanne dynamique qui garde soigneusement des individus se préoccupent avant tout de donner au groupe familial les moyens de se perpétuer et de conserver le patrimoine qui garantit sa survie.

Schooling the Daughters of Marianne Linda L. Clark, 1984-01-01

This first book length study of girls primary education in France gives a concrete picture of how Frenchwomen were and are prepared for their roles in society. Until the 1960s the primary school provided the only formal education for the majority of French children. Long recognized as a major inculcator of patriotic and moral values the French primary school also played the vital role of preparing girls for their expected adult lives. Linda L. Clark describes in detail this socialization process. By analyzing a wide variety of documents from 1870 to the present (textbooks, curriculum materials, students notebooks, examination questions, inspectors reports and teachers memoirs) she has uncovered not only what was taught to girls but the social and political assumptions that lay behind the primary school's messages about feminine personalities and activities. The book goes on to establish the relationship of feminine images to important aspects of French social, economic and political life. A chapter on the preparation of girls for the world of work for example reveals the discrepancy between formal teaching about femininity and women's actual participation in society.

Historical Anthropology of the Family Martine Segalen, 1986-11-28

Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions (from socialising the children to caring for the sick and the old) to the modern nuclear family which was regarded solely as being the locus for emotional relationships. Historians have shown that in the past there was a variety of family structures within a range of varying demographic, economic and cultural frameworks distinctive for each society. At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place, descent, marriage, the relative roles of husband and wife and parent-child relations as well as the more general

relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant **Work Without Wages** Jane L. Gimenez, 1990-03-22 production for family consumption and for the wider market While the importance of women s domestic labor has been generally recognized the complex articulation between household activities and the changing nature of the economy has rarely been examined in greater depth than in this volume The authors explore theoretically and empirically the relationships between household labor wage levels markets economic change and the status of women in the context of both first and third world countries In the process narrowly defined debates are expanded suggesting ways in which our understanding of domestic activities is relevant to studies of petty commodity production and vice versa **1981**, 2020-05-18 No detailed description available for 1981

Culture, Religion, and Demographic Behaviour Kevin McQuillan, 1999 Recent work in demography has shown that economic factors alone do not shape patterns of marriage childbearing and mortality Focusing on the French region of Alsace during the period 1750 to 1870 Kevin McQuillan explores the influence of religious an **Literature Among Discourses** Wlad Godzich, Nicholas Spadaccini, 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible to scholars students researchers and general readers Rich with historical and cultural value these works are published unaltered from the original University of Minnesota Press editions The books offered through Minnesota Archive Editions are produced in limited quantities according to customer demand and are available through select distribution partners **Medieval Crime and Social Control** Barbara Hanawalt, David Wallace, Crime is a matter of interpretation and never was this truer than in the Middle Ages when societies faced with new ideas and pressures were continually forced to rethink what a crime was and what was a crime This collection undertakes a thorough exploration of shifting definitions of crime and changing attitudes toward social control in medieval Europe These essays reveal how various forces in medieval society interacted and competed in interpreting and influencing mechanisms for social control Drawing on a wide range of historical and literary sources legal treatises court cases statutes poems romances and comic tales the contributors consider topics including fear of crime rape and violence against women revenge and condemnations of crime learned dispute about crime and social control and legal and political struggles over hunting rights

Religious Renewal in France, 1789-1870 Roger Price, 2017-12-04 This book provides a study of the manner in which the Roman Catholic Church in France responded to successive revolutions between 1789 and 1870 as well as to the cultural upheaval associated with accelerating socio economic change It focuses on the Church as an institution engaged in a dynamic process of re Christianization and determined as the only repository of the true faith of Jesus Christ to fortify belief and to combat the Satanic forces of moral corruption and revolutionary chaos and create a counter society the soci t parfaite

Discussion of the Church as an institution in crisis of the recruitment instruction and mind sets of its bishops parish clergy and the members of religious orders of its hierarchical structures and internal discipline and of the need to compensate for the losses suffered during a period of revolutionary upheaval provides the basis for an exploration of its evolving doctrine s and sense of purpose for an assessment of the pastoral care provided to parish communities and of the leadership and moral qualities of the clergy before final consideration of the reception of the religious message s **The Text and the World** Piotr Górecki,2015 A study of an exceptionally interesting primary source the Henrykow Book and of the local and regional world which that source reflected and helped shape This volume mines the Henrykow Book for the information it provides about the social political religious and literary contexts of medieval Europe *Modern Marriage and Its Cost to Women* François de Singly,1996 This book examines the price women have to pay for marriage socially and culturally Its basic premise unites feminist theory and the work of Pierre Bourdieu and is supported by data from the numerous quantitative and qualitative studies that have been carried out in France **A History of Private Life** Philippe Ariès,Michelle Perrot,Georges Duby,1987 Library has Vol 1 5 **Paysans du Bourbonnais** Daniel Paul,2006 *Women, Equality, and the French Revolution* Candice E. Proctor,1990-10-24 This volume represents the first book length study of attitudes toward women in revolutionary France Based on extensive research in the libraries and archives of Paris the book examines the impact of the Revolution s ideology of liberty and equality When the men of 1789 wrote the Declaration of the Rights of Man they were thinking in terms of man the male not man the species But there were some men and women who interpreted it in terms of all humanity The outrage of these individuals over what they perceived as a discrepancy between the principles and the practice of the Revolution motivated them to produce some of the most unhesitating declarations of sexual equality that had ever been seen in history Dr Proctor demonstrates however these claims of equality were not simply ignored they were categorically rejected by the mainstream revolutionaries The book examines the typical 18th century concept of women as alien and in some ways inferior beings and traces the striking continuity between pre Revolutionary and Revolutionary thought on the subject Against this background Proctor addresses a number of important questions How widespread was the support for a movement in favor of sexual equality What was the response of the Revolution itself to demands for equal rights for women How did the men of the French Revolution justify the contradiction between their suppression of women and the ideologies for which they claimed to be fighting To arrive at the answers an abundance of material produced in France in the 18th century is identified and analyzed and cited in an extensive bibliography of original sources What finally emerges is not only a clearer picture of the French Revolution and its attitude toward women but a deeper understanding of the ambivalent attitudes toward women that still affect our society today This book will be an important resource for courses in European history the French Revolution and women s studies as well as a valuable reference for college university and public libraries

Une société provinciale face à son devenir : le Vendômois aux xviii^e et xix^e siècles Jean Vassort,1995 l origine de

ce livre une volonté mieux connaître et mieux comprendre les horizons culturels des populations provinciales aux XVIII^e et XIX^e siècles et un choix enraciner la recherche dans un terrain local celui du pays vendmois. L'ouvrage retrace d'abord les réalités économiques et sociales de ce pays au XVIII^e siècle dans toute la diversité de ses terroirs de la vallée du Loir aux plateaux des bocages du Perche aux vastes horizons de la Beauce. Cette présentation réaliste l'enquête peut en venir son objet central en examinant comment sont vécus et pensés dans la région le temps et l'espace comment aussi s'y organise la relation critique. Sur ces plans quantitatifs de partages traversent la population entre illettrés et alphabétisés entre ici et ailleurs entre mouvement et stabilité entre temps cyclique et temps orientés certains de ces partages qui recoupent des clivages sociaux bien établis étaient prévisibles mais il faut voir aussi en cette matière des rapprochements inattendus. Parmi ces derniers le fait qu'en dépit même des évolutions que connaît alors la région ses habitants pensent généralement son histoire comme dominée par l'immuable et le permanent. Une telle vision ne résiste pas à l'irruption de l'évolution révolutionnaire et encore moins aux transformations qui la prolongent au XIX^e siècle. Jusqu'alors n'existait le changement s'imposait d'ordinaire comme un enjeu essentiel. La dernière partie de l'ouvrage examine comment les notables le prennent en charge pour encourager la modernisation agricole ou l'alphabétisation en bref pour répandre le progrès. Mais le changement ne ignore aucun domaine de la vie sociale et les notables découvrent rapidement qu'il peut aussi remettre en cause leur position de l'un des sarrois perceptible chez beaucoup d'entre eux. La fin du siècle l'optimisme progressiste qui les animait au temps de la monarchie parlementaire faisant alors souvent place à une nostalgie passiste. L'évolution vécue et devenir perçu destin souhait et nouveau subie confiance en l'avenir et repli sur le passé tels sont les grands thèmes que ce livre explore pour préciser et enrichir partir du cas vendmois l'histoire du changement dans les provinces françaises au temps des grandes mutations des deux siècles considérés.

Vie et mort du couple en Nouvelle-France Josette Brun, 2006-11-15 La Nouvelle France offre à elle aux femmes un champ d'action large comme le voudrait une certaine conception de l'histoire coloniale. Ce n'est pas ce que révèle l'analyse du partage des droits et des responsabilités entre pères des secondes noces et des stratégies de survie économique des personnes veuves. Mais chez les seigneurs chez eux selon le vu de l'état de l'église et de la loi les maris assument formellement l'essentiel des responsabilités professionnelles et patrimoniales du ménage. Lorsqu'ils meurent leurs veuves doivent pour survivre apprendre profiter de leur nouvelle capacité juridique d'une certaine flexibilité des rôles féminins de leur expérience professionnelle ou de leur douaire qu'elles mettent en valeur seules ou avec l'aide de la parenté. Les veufs souvent parents de jeunes orphelins et contraints par les normes de la masculinité se remarient rapidement. Ils retiennent moins l'attention des autorités que les veuves nombreuses. La figure tant attendrissante et tant suspecte se trouve parfois directement mêlée aux rapports de pouvoir entre la métropole et ses colonies nord-américaines.
