Gender-Competent Legal Education Dragica Vujadinović,Mareike Fröhlich,Thomas Giegerich,2023-02-03 Male dominated law and legal knowledge essentially characterized the whole of pre modern history in that the patriarchy represented the axis of social relations in both the private and public spheres Indeed modern and even contemporary law still have embedded elements of patriarchal heritage even in the secular modern legal systems of Western developed countries either within the content of legislation or in terms of its implementation and interpretation This is true to a greater or lesser extent across legal systems although the secular modern legal systems of the Western developed countries have made great advances in terms of gender equality The traditional understanding of law has always been self evidently dominated by men but modern law and its understanding have also been more or less malestreamed Therefore it has become necessary to overcome the given maskulinity of legal thought In contemporary legal and political orders gender mainstreaming of law has been of the utmost importance for overcoming deeply and persistently embedded power relations and gender based unequal social relations At the same time and equally importantly the gender mainstreaming of legal

education to which this book aims to contribute can help to gradually eliminate this male dominance and accompanying power relations from legal education and higher education as a whole This open access textbook provides an overview of gender issues in all areas of law including sociological historical and methodological issues Written for students and teachers around the globe it is intended to provide both a general overview and in depth knowledge in the individual areas of law Relevant court decisions and case studies are supplied throughout the book

Evidence-Based Practice With Women
Martha Markward, Bonnie Yegidis, 2010-12-09 Social Work Practice with Women An Evidence Based Approach is a key text for courses on Social Work Practice and Women in Social Work Women constitute a large proportion of clients seeking treatment and often present with issues that are unique This book focuses on the major mental health issues faced by women in social care and it will present empirically validated ways of assessing and treating clients This is the first book to focus broadly on women in treatment and evidence based approaches in social work The book will focus on assessing and treating women with the following mental health issues 1 generalized anxiety disorder 2 PTSD and Trauma including sexual abuse 3 Treating depression 4 substance abuse treatment 5 Eating disorders

Schizophrenia J. Michael Mahoney, 2011-11 Man has long searched for the cause and meaning of mental illness This book which is a combination of the author's earlier books Volumes One and Two continues in his attempt to answer those questions The author compiler has spent 47 years investigating these problems and his conclusion is that severe unconscious bisexual conflict and confusion lie at the root of all mental illness as difficult to comprehend as this idea may be The book itself consists of 790 quotations from a variety of sources all of which point to the unshakable truth of this hypothesis This is a fixed law of nature unassailable and constantly operative in every case No other species but man is afflicted with mental illness because no other species has either the intellectual power to repress their sexual feelings nor the motivation to do so The disease we call schizophrenia is but an arbitrary name which is used to designate the end stage of a process beginning with a slight neurosis The more severe the bisexual conflict and confusion in the individual the more severe the degree of the mental illness which is experienced Several other investigators in the past have reached this same conclusion but unfortunately their wisdom went largely unheeded Hopefully this book will remedy that ill advised neglect

Women and the Vote Jad Adams, 2014-09-18 Before 1893 no woman anywhere in the world had the vote in a national election A hundred years later almost all countries had enfranchised women and it was a sign of backwardness not to have done so This is the story of how this momentous change came about The first genuinely global history of women and the vote it takes the story of women in politics from the earliest times to the present day revealing startling new connections across time and national boundaries from Europe and North America to Asia Africa Latin America and the Muslim world post 9 11 A story of individuals as well as of wider movements it includes the often dramatic life stories of women's suffrage pioneers from across the world painting vivid biographical portraits of everyone from Susan B Anthony and the Pankhursts to hitherto lesser known activists in China Latin America and

Africa It is also the first major post feminist history of women s struggle for the vote Controversially Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters Ultimately he argues it was nationalism not feminism that was the most important factor in winning women the vote
