The Making of the Modern Supermarket Bridget Salmon, Andrew Godley, 2025-06-04 The Making of the Modern Supermarket describes the emergence and growth of the modern supermarket format in Britain showing how the original American innovation of self service was adapted to the different postwar British context in a number of ways During the early 1960s various retailers began to experiment with larger formats which became known as supermarkets Sainsbury s was a late mover into self service but began to develop a different supermarket model emphasising fresh foods and perishable goods This led it to pursue a more expensive path of development as it invested in self service creating its novel supermarket format by the end of the 1960s The book explores in detail how this Sainsbury s format evolved It was driven by the company s historic commitment to selling fresh meat and other perishable goods which demanded a much greater commitment to refrigeration in Sainsbury s self service format than was the case for its peers Because most consumers were suspicious of buying fresh meat and perishables through self service outlets in the early 1960s Sainsbury s also had to retain high levels of staffing to support their self service offering During the 1960s as they extended their product range they facilitated the development of one stop shopping in the UK where customers were able to buy all their food requirements in one shop rather than shopping around This became the most popular version of the supermarket format and it was the template that others copied as they tried to follow Sainsbury s example Retailing : critical concepts. 3,1. Retail practices and operations A. M. Findlay, 2002 *Unearthing Family Tree Mysteries* Ruth A. Symes, 2016-07-31 The intriguing characters in these real family history mysteries include an agricultural labourer who left secrets behind in Somerset when he migrated to Manchester a working class woman who bafflingly lost ten of her fourteen children in infancy a miner who purportedly went to live with the Red Indians and a merchant prince of the Empire who was rumoured to have two wives This book shows how a variety of sources including birth marriage and death certificates censuses newspaper reports passports recipe books trade directories diaries and passenger lists were all used to uncover more and how much can be detected by setting the characters from your family tree in their proper historical backgrounds This book is an updated edition of Ruth Symes previous book titled *Stories From Your Family Tree Researching Ancestors Within Living Memory* 2008 **Consuming Mass Fashion in 1930s England** Cheryl Roberts, 2022-10-17 This book details a significant and largely untold history of the demand for cheap fashionable clothing for young working class women This is an interdisciplinary fashion and business history analysis that investigates the design manufacture retailing and consumption of fashion for and by young working class women in 1930s Britain It concentrates on new mass developments in the design and manufacture of lightweight day dresses styled for younger women and on their retailing in the second hand trade and seconds dealing street markets new multiple stores department stores independent dress shops and home dressmaking The book also discusses the specific impact of this new product within the emerging mass manufactured goods mail order catalogue industry in England These outlets all offered

venues of consumption to the young employed modern working class woman and are analysed in the context of old and new businesses practices The actuality of the garments worn by these young women is paramount to this research and will be at the forefront of all findings and outcomes The Age of Asa M. Taylor,2014-11-25 Asa Briggs has been a prominent figure in post war cultural life as a pioneering historian a far sighted educational reformer and a sensitive chronicler of the way in which broadcasting and communication more generally have shaped modern society He has also been a devoted servant of the public good involved in many inquiries boards and trusts Yet few accounts of public life in Britain since the Second World War include a discussion or appreciation of his influential role This collection of essays provides the first critical assessment of Asa Briggs career using fresh research and new perspectives to analyse his contribution and impact on scholarship the expansion of higher education at home and overseas and his support and leadership for the arts and media more generally The online bibliography of Asa Briggs publications which accompanies the book is available on the The Institute of Historical Research website here Debrett's Bibliography of Business History Stephanie Zarach,1987-06-18 **Imperial Wine** Jennifer Regan-Lefebvre,2024-04-23 A fascinating and approachable deep dive into the colonial roots of the global wine industry Imperial Wine is a bold rigorous history of Britain s surprising role in creating the wine industries of Australia South Africa and New Zealand Here historian Jennifer Regan Lefebvre bridges the genres of global commodity history and imperial history presenting provocative new research in an accessible narrative This is the first book to argue that today s global wine industry exists as a result of settler colonialism and that imperialism was central not incidental to viticulture in the British colonies Wineries were established almost immediately after the colonization of South Africa Australia and New Zealand as part of a civilizing mission tidy vines heavy with fruit were symbolic of Britain s subordination of foreign lands Economically and culturally nineteenth century settler winemakers saw the British market as paramount However British drinkers were apathetic towards what they pejoratively called colonial wine The tables only began to turn after the First World War when colonial wines were marketed as cheap and patriotic and started to find their niche among middle and working class British drinkers This trend combined with social and cultural shifts after the Second World War laid the foundation for the New World revolution in the 1980s making Britain into a confirmed country of wine drinkers and a massive market for New World wines These New World producers may have only received critical acclaim in the late twentieth century but Imperial Wine shows that they had spent centuries wooing and indeed manufacturing a British market for inexpensive colonial wines This book is sure to satisfy any curious reader who savors the complex stories behind this commodity chain *Retailing in the European Union* Stewart Howe,2005-08-12 A timely study of the difference retail structures across Europe this book offers an insightful overview of the internationalization of retailing and asks important questions about the effectiveness of different retailing sectors **Twentieth Century Industrial Archaeology** Michael Stratton,Barrie Trinder,2014-04-04 This book examines the industrial monuments of twentieth century Britain Each chapter takes a specific theme and examines it in the

context of the buildings and structure of the twentieth century The authors are both leading experts in the field having written widely on various aspects of the subject In this new and comprehensive survey they respond to the growing interest in twentieth century architecture and industrial archaeology The book is well illustrated with superb and unique illustrations drawn from the archives of the Royal Commission on the Historical Monuments of England It will mark and celebrate the end of the century with a tribute to its remarkable built industrial heritage Refugees from the Third Reich in Britain
