Maroc Annasie Internationale:

Le Maroc face aux impérialismes, 1415-1956 Charles-André Julien, 1978-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle désormais indisponible dans son format d'origine Vme Congrès International d'Histoire de la Médecine, 1926 *L'express international*, 2000 *Tisser le temps politique au Maroc* Béatrice Hibou, Mohamed Tozy, 2020-09-24 Le Maroc inspire des lieux communs Il serait un prototype d'immobilisme politique dans la main autoritaire et conservatrice du commandeur des croyants en mal de démocratie mais l'ombre d'un islam somme toute modeste Trente années d'enquêtes de terrain d'entretiens de dépouillement d'une vaste documentation primaire et d'observation participante permettent Béatrice Hibou et Mohamed Tozy de montrer comment les changements démographiques et environnementaux ainsi que les processus de naturalisation du nationalisme ont transformé les façons de gouverner les hommes et les territoires du royaume partir des types idéaux de l'Empire et de l'état nation les auteurs dégagent la pluralité des modes de gouvernement et de domination l'œuvre au Maroc en insistant sur leur osmose continue Il n'est pas question d'un passage de l'empire ottoman XVIIe-XIXe siècle à l'état nation dont le protectorat français aurait jeté les fondements ni de la perpétuation d'une tradition impériale résiduelle au cœur de l'état moderne Il s'agit bel et bien d'un assemblage de ces deux logiques qui déjà coexistaient dans les siècles précédents et dont le jeu simultané est sous-jacent au gouvernement national contemporain L'Empire et l'état nation ne se présentent pas sous la forme d'une alternative ni d'une contradiction Ils constituent deux ressorts d'une même domination qui ne se réduit pas à la seule figure du roi Ils sont en tension continue une tension dont procède l'historicité de l'imaginaire politique marocain et qui entisse le temps singulier Une démonstration fondamentale de sociologie historique comparée de l'état **International Bibliography of Studies on Alcohol**, 1966 **International Bibliography of Studies on Alcohol: References, 1901-1950** Mark Keller, 1966 **Le Monde de l'éducation**, 2001 **Le mouvement marocain des droits de l'homme** Marguerite Rollin, 2002-01-01 Les droits de l'Homme un principe vocation universelle sur un terrain nécessairement spécifique tel est l'objet de cet ouvrage travers le parcours d'hommes et de femmes engagés dans le mouvement de défense des droits de l'Homme au Maroc de l'époque du Protectorat jusqu'à l'arrivée du gouvernement d'alternance de Abderrahmane Youssoufi et l'accession au pouvoir de Mohammed VI Les références courantes des militants interrogés des courants intellectuels fondateurs ainsi que des lieux qui ont joué un rôle clé dans leur formation permettent de dégager trois grandes périodes dans ce mouvement la lutte pour le droit des peuples mais aussi pour les libertés publiques sous le Protectorat puis au début de l'indépendance la défense des prisonniers politiques liée à la lutte révolutionnaire de la génération marxiste léniniste des années soixante-dix enfin dans les quinze dernières années la participation des militants des droits de l'Homme au mouvement associatif qui merge au Maroc Ce passage au sein d'un même mouvement de l'unanimité nationale au concept de citoyen en passant par le marxisme permet d'étudier en quoi les mécanismes d'identification l'œuvre entrent en concurrence ou en convergence avec un modèle

universel Ce modèle celui des droits de l'Homme peut-il amener ces militants à passer les références une identité fondée sur l'appartenance à une communauté nationale Ou au contraire en quoi ces références les conduisent-ils à une logique de fermeture sur soi en tant que membre d'une ethnie d'une religion d'une nation Une telle approche aboutit à nommer les tabous ceux qui relèvent de la société de la tradition ou du pouvoir mais aussi de l'intérieur de ces mouvements Elle permet aussi de repérer les tentatives heureuses ou malheureuses de dépasser ces tabous pour rejoindre l'universalité des droits de l'Homme A

Démocraties et autoritarismes Association française de science politique. Congrès, Michel Camau, Gilles Massardier, 2009 Les lignes de partage entre démocraties et autoritarismes s'estompent Les polyarchies démocratiques ont affaire des coalitions de plus en plus litistes et non représentatives tandis que les autoritarismes litistes sont censés connaître des formes d'ouverture pluraliste le plus souvent sous l'impulsion de bailleurs de fonds internationaux Ces hybridations marquent les limites de l'emprise du principe électif sur les modalités de l'accès au gouvernement et sur les formes de la décision collective politics Elles tiennent à l'évolution des modes de production et de distribution des biens publics politiques diversification des intervenants et des lieux de fabrication des politiques publiques décentralisation territorialisation de l'action publique chelles multiples de décision depuis l'international jusqu'aux micro territoires À l'heure de la mondialisation l'universalisation des procédures de la démocratie représentative va de pair avec une tendance générale à la fragmentation des espaces de compétition et de légitimation La distinction classique assignait chaque grand type de régime démocratie et autoritarisme une loi de fonctionnement structurant l'ensemble d'une société politique donnée Ces prétendus blocs se fissurent Ils recouvrent des séries d'arrangements localisés des régimes partiels de régulation qui juxtaposent la compétition et le droit de suffrage la clôture litiste des lieux de décision Les contributions ici réunies proposent une série de cas et de figures thématiques tendant à explorer les diverses formes empruntées par la fragmentation des lieux de pouvoir ainsi que leurs implications pour l'analyse des régimes *Mediterranean Frontiers* Dimitar Bechev, Kalypso Nicolaïdis, 2009-11-30 The identity of any nation state is inextricably linked with its borders and frontiers Borders connect nations and sustain notions of social cohesion Yet they are also the sites of division fragmentation and political conflict This ambitious study encompasses

North Africa the Middle East and South and South East Europe to examine the emergence of state borders and polarised identities in the Mediterranean The authors look at the impact of political boundaries upon the region along with pressures from European and economic integration the resurgence of nationalism and refugee and security concerns The authors explore the politics of memory and ask whether echoes from the imperial past Ottoman and colonial could provide the basis for conflict resolution region building and economic integration **Agadir 1911 [i.e. dix-neuf cent onze]** Jean-Claude Allain, 1976 **Nouveaux horizons démographiques en Méditerranée** Youssef Courbage, 1999 **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair, C. A Desert Named Peace Benjamin Claude Brower, 2011 In the mid nineteenth century French colonial leaders in Algeria started southward into the Sahara beginning a fifty year period of violence Lying in the shadow of the colonization of northern Algeria which claimed the lives of over a million people French empire in the Sahara sought power through physical force as it had elsewhere yet violence in the Algerian Sahara followed a more complicated logic than the old argument that it was simply a way to get empire on the cheap A Desert Named Peace examines colonial violence through multiple stories and across several fields of research It presents four cases the military conquests of the French army in the oases and officers predisposition to use extreme violence in colonial conflicts a spontaneous nighttime attack made by Algerian pastoralists on a French village as notable for its brutality as for its obscure causes the violence of indigenous forms of slavery and the colonial accommodations that preserved it during the era of abolition and the struggles of French Romantics whose debates about art and politics arrived from Paris with disastrous consequences Benjamin Claude Brower uses these different perspectives to reveal the unexpected causes of colonial violence such as France's troubled revolutionary past and its influence on the military's institutional culture the aesthetics of the sublime and its impact on colonial thinking the ecological crises suffered by Saharan pastoralists under colonial rule and the conflicting paths to authority inherent in Algerian Sufism Directly engaging a controversial history A Desert Named Peace offers an important backdrop to understanding the Algerian war for independence 1954-1962 and Algeria's ongoing internal war begun in 1992 between the government and armed groups that claim to fight for an Islamist revolution **Sénégal 2000-2004** Tarik Dahou, 2005 Au Sénégal l'enthousiasme suscite par la lection d'Abdoulaye Wade en mars 2000 est retombé Le présent dossier tente de prendre la mesure des évolutions survenues depuis cinq ans et il en montre le caractère contradictoire Les pulsions autoritaires auxquelles le régime est tenté de recourir semblent voués à l'échec Le clientélisme reste pour un régime qui bénéficie de marges politiques et budgétaires

nouvelles le mode de construction politique privilégie la gestion des déséquilibres factionnels suscités par ce clientélisme est la grande affaire du pouvoir. L'ouverture durable du champ politique trouve un choc dans l'espace religieux la sécularisation attendue du politique n'a pas eu lieu alors que les responsables des grandes confréries redimensionnent leur position centrale dans les rapports à l'Etat. De multiples initiatives se développent au nom de l'islam et renforcent encore cette offre politique plurielle.
