MAROONED WITH A MARINE Maureen Child,2012-12-17 A torrential hurricane stranded Karen Beckett in a tiny motel room with Gunnery Sergeant Sam Paretti the one man she never wanted to see again Just months before Karen had severed all ties with the gorgeous marine but bittersweet memories of their love refused to vacate her mind Now her rescuer demanded a hefty price for shelter from the storm His eyes shimmered with a desire equal to the hunger clawing at Karen s control But she had to resist Because to surrender to their urgent need would mean exposing her past and admitting her fathomless love for Sam Marooned with a Marine Gordon Phillips,2020-08-22 Psychologist Neil is a civilian embedded with a division of Marines sent out as part of a peacekeeping mission overseas in the Pacific When the local political situation erupts into open civil war the American troops are ordered to evacuate Neil escapes in a small plane along with several military personnel The plane crashes into the sea with only Neil and a Marine surviving They re swept over a reef and deposited in the lagoon of a deserted island As they work together to survive in the hopes of being rescued mutual respect warms into friendship But Neil s feelings grow deeper and he keeps them hidden from his companion How would the Marine react if he knew the feelings Neil harbors for him Can what they share in isolation carry over if or when they re rescued

Marine Air Robert F. Dorr,2007-01-02 Think of the U S Marines and you ll naturally think of the peerless ground force that has always bravely answered America s call to arms But the Marines also have an air arm with a tradition every bit as proud and legendary as the ground infantry they support Now military historian Robert F Dorr presents the first fully illustrated oral history of the Marine Air Wing and gives the Flying Leathernecks the recognition they deserve When America entered World War I in 1917 the Marine Air Wing had only thirty five aviators During World War II it expanded to sixty one squadrons twenty with at least one flying ace and over 10 000 pilots Marine Air is a long overdue illustrated history filled with the Flying Leathernecks own words and packed with photographs of the the few the proud of the skies and of their unwavering commitment to protecting their comrades on the ground and to defending the country they have never let down

J.A.P. EDWARD LANDERS,2013-12 JAP is a story about a young man who somehow through a series of accidents intentions mistakes and drive became a Naval Aviator no mean feat by any accounts Having survived the grim reaper several times during his eight years of flying on active duty with the Navy he has come to believe sort of that he is a good aviator and can take care of just about anything that arises in the realm of flying He has disgustedly left active duty flying with the Navy as the result of witnessing inept officers who should never have made the grade continue to fly and serve without any leadership skills or command authority amounting to anything effective Most of them were in the young man s opinion timid beings who were only concerned with keeping their status quo resulting in their refusal to make decisions let alone lead in any forward power projections His decision to leave the Navy and throw his lot in with the airline pilot s career was based on his perception that an airline captain just had to be made of stronger stuff That idea was also doomed to an early failure when he actually started to fly with the pilots who make up the airborne operation of the airline He found the same weaknesses on the part of the airline pilots that he had witnessed in the Navy pilots he had flown with Still struggling to find perfection the young man named Kruger in the book tries flying with the Naval Reserve pilots only to find once more that those pilots were even worse than the two groups that he had flown with earlier Kruger s worst nightmare finally comes to pass when he finds himself making some bad mistakes and decisions just like all of the other pilots he has ever encountered He has become a JAP or just another pilot like all of the others In spite of all of the disappointments he encounters he still has fun and fulfillment flying and is convinced that he could really do no job other than flying Flying has always been described as hours and hours of boredom punctuated by moments of stark terror Kruger s experiences follow that pattern except the boring hours are interesting also Kruger had always considered that the most exhilarating and exciting time you could ever experience was when you were right on the dangerous edge of things when you had less than a fifty percent chance of surviving the situation you were in and when you finally came out on top alive and well albeit that your heart was trying to go into tachycardia and your breathing could only be described as panting There is no rush better than this There are no punches pulled in the book The author tells it like it really was without cutting corners or glossing over the facts It is what it was People are people and no one is perfect We all have warts no matter how good we look and usually the ones who boast the most and are the models of perfection are the ones who have the most faults As the Bible says Judge not lest ye be judged Kruger finds that to be very true and as a result he mulls each flight in his mind in an effort to try to perfect what he has just done There are no heroes in the book but there are a lot of truths if you can find them

[The Marines, Counterinsurgency, and Strategic Culture](#) Jeannie L. Johnson, 2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps s long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable book reminds us of Sun Tzu s wisdom that to be successful in war it is important to know thyself as well as the enemy This is a must read for anyone interested in the Marines Corps counterinsurgency warfare military innovation or strategic culture
