Marriage And Family Life Among The Arabs:

Marriage & Family Life Among the Arabs Salahuddin Khuda Bukhsh, 1953 **Handbook of Families in the Arab Gulf States** Md Mizanur Rahman, Kaltham Al-Ghanim, Ziarat Hossain, Sharique Umar, 2025-06-30 This open access book collates and advances the body of knowledge about the factors, directions and magnitudes of change in Arabian Gulf families from interdisciplinary perspectives. Family life across the globe is being impacted by unprecedented diversity in household living arrangements and by sweeping economic, cultural and social change, and this is not an exception in the Gulf region. The book demarcates how Gulf families are experiencing many formidable challenges and undergoing profound changes due to speedy economic transformation, educational reforms, extensive use of social media, rapid urbanization, migration, women empowerment and the intersections of popular culture from both the East and the West. Notwithstanding such challenges and changes, Gulf families often seem to retain and continue many of the traditional roles and functions of families in a sustained manner. It contributes to current debates that revolve around questions of what has changed and what has stayed the same in family structures in the region. Sweeping and comparative, the book provides avenues for offering practical solutions for policy interventions in Kuwait, the United Arab Emirates, Qatar, Bahrain, Oman and Saudi Arabia. It is a key academic text for sociologists interested in transformations in the family in relation to politics, economics, consumption patterns, education, gender, law, social media, religion, culture, social reforms and the state. **Arab Family Studies** Suad Joseph, 2018-07-10 Family remains the most powerful social idiom and one of the most powerful social structures throughout the Arab world. To engender love of nation among its citizens, national movements portray the nation as a family. To motivate loyalty, political leaders frame themselves as fathers, mothers, brothers or sisters to their clients, parties or the citizenry. To stimulate production, economic actors evoke the sense of duty and mutual commitment of family obligation. To sanctify their edicts, clerics wrap religion in the moralities of family, and family in the moralities of religion. Social and political movements, from the most secular to the most religious, pull on the tender strings of family love to recruit and bind their members to each other. To call someone family is to offer them almost the highest possible intimacy, loyalty, rights, reciprocities and dignity. In recognizing the significance of the concept of family, this state-of-the-art literature review captures the major theories, methods and case studies carried out on Arab families over the past century. The book offers a country-by-country critical assessment of the available scholarship on Arab families. Sixteen chapters focus on specific countries or groups of countries; seven chapters offer examinations of the literature on key topical issues. Joseph's volume provides an indispensable resource to researchers and students and advances Arab family studies as a critical, independent field of scholarship.
