Marriage, Family and Society S. Parvez Wakil, F. A. Wakil, 1975 *Marriage, Family and Society* F. A. Wakil, 1975

The Changing Position of Women in Family and Society Lupri, 2022-03-28 *Marriage, Family and Society*

S. Parvez Wakil, F. A. Wakil, 1975 *Perspectives Canada III* H. J. Adler, D. A. Brusegard, 1980 Statistics on and insights into social trends in Canada *Telling Tales* Catherine A. Cavanaugh, Randi R. Warne, 2011-11-01 Women played a vital role in the shaping of the West in Canada between the 1880s and 1940s Yet surprisingly little is known about their contributions or the differences sex and gender made to the opportunities and obstacles women encountered *Telling Tales* contributes to the rewriting of western Canada's past by integrating women into the shifting power matrix of class race and gender that undergirded its colonization and settlement This book covers a range of topics African American settlement on Vancouver Island prairie childbirth narratives and Mennonites as domestic servants are but three examples They focus on women of both minority and dominant cultures and reflect the West's characteristically mixed population *Telling Tales* challenges founding myths of the region and invites a retelling of the story of western Canadian colonization and settlement

Ramu, 1979 This book provides a systematic introduction to the key aspects of courtship marriage and the family in Canada **Perspectives Canada III**, 1980 *Opportunity and Uncertainty* Paul Anisef, Paul Axelrod, Etta Baichman-Anisef, 2000-01-01 Based on the longest running survey of its kind in Canada this book examines events in the lives of a generation of Ontario residents who graduated from grade 12 in 1973 and recreates the world in which these high school students faced the future **The Canadian Family** Karigoudar Ishwaran, 1983 **Canadian Families 1900-2000** Benjamin Schlesinger, 2000 This partially annotated bibliography of 943 articles relating to Canadian Families covers the period from 1900-2000 The concept is unique in its attempt to give the reader an overview of what has been published in English on the major issues relating to Canadian Families during a century Items in the bibliography are organized into 50 topical headings and include articles books reports surveys and other entries from published sources Also included is a selection of relevant websites An introductory essay highlights some of the major events relating to Canadian Families during the 1964-2000 period Historical entries let the reader examine what family life was like during the first 50 years of the 20th century An author index of 968 names allows for quick reference to specific bibliographic items *The Double Standard* Margrit Eichler, 2024-07-31 First published in 1980 *The Double Standard* is a powerfully written book challenging the logic of much of the feminist literature in the social sciences Although loyal to the tradition of feminist scholarship Margaret Eichler argues that many feminist writers have unintentionally reinforced the sexual stereotypes that they seek to destroy by using the wrong conceptual tools and the wrong language The terms like sex roles and sex identity have been especially distorting because they are ambiguous and in themselves become instruments of sexism In both the language they employ and the explanations they offer feminists must

transcend sex as a criterion of social difference if they wish to overcome sexism in language and thought This book argues that the double standard is the only relevant criterion for determining whether an identified sex difference is a matter of concern and not A double standard implies that two things which are the same are measured by different standards Although usually employed in a strictly sexual sense the concept may be used for all types of behavior in which sex plays a role The arguments of the book are controversial and provoking but they sharpen the thinking of the feminist critique in a way that few other books have achieved This is a must read for scholars and researchers or feminism sociology of gender and gender studies *Children in Canadian Families* Sylvia T. Wargon,1979 *The Summer Slide* Karl Alexander,Sarah

Canadian Families Today David J. Cheal,2007 This exciting collection of original essays by prominent Canadian scholars examines issues and trends affecting family life in Canada The text is organized in five parts The first part Conceptualizing the Family presents an overview of the sociology of the family in Canada it explores various definitions of family from an anthropological perspective examines family patterns in historical and cross cultural contexts provides an overview of the

theoretical frameworks and research methodologies for family studies and discusses Canadian demographic trends The life cycle is the focus of the second part of this book In Chapter 3 Rachel Ariss shows how social expectations and ideologies about intimacy shape how individuals experience family formation In Parents and Children Gillian Ranson introduces the dominant ideals of motherhood and fatherhood in Canada and demonstrates the extent to which parenting practices are shaped by social and economic contexts Major changes in social practice and in the legal environment that have gone hand in hand with demographic changes to contribute to the episodic nature of spousal unions in Canada today In Chapter 5 Craig McKie outlines the legal history of the family in Canada and explores how the introduction of Islamic laws shariah challenge the principle that newcomers to Canada are free to continue on in their beliefs and practices when these are not in fundamental conflict with Canadian law Chapter 6 provides a timely examination of the issues that affect the sandwich generation coresidence with adult children the informalization of care to aging parents intergenerational ambivalence and the relationship between midlife families and social policy As Lori D Campbell and Michael P Carroll note in their chapter on older Canadians aging within a family context has become more complex and diverse than ever before The changes that have been occurring in the form and structure of families as a result of greater longevity increased divorce remarriage and other socio demographic factors allow increased intergenerational exchange the exchange of support between older and younger generations Part III highlights the economic inequalities that exist among families As Andrea Doucet notes historical circumstances have contributed to strong divisions in both paid and unpaid work that are linked to gender class and ethnicity Chapter 8 examines key issues in the study of paid and unpaid work including the connections that exist between paid and unpaid work how unpaid work benefits the state the complexities involved in measuring unpaid work the costs of care and why gender differences in paid and unpaid work matter In the following chapter Joseph H Michalski argues that family change and demographic events have had their impact on income poverty to the extent that they influence the types of families and living arrangements in which Canadians share and pool income Diversity is the unifying theme of Part IV In her article In I Do Belong in Canada Same Sex Relationships and Marriage Doreen M Fumia reveals the insecure relationship between sexual minorities and citizenship highlighting the strategies used to reproduce normalized heterosexual notions of marriage and to avoid confronting heterosexism James S Frideres stresses the importance of the family among aboriginal immigrant and visible minorities communities as family members learn to cope with the dynamics of integration and adaptation to mainstream Canadian culture In Chapter 11 he focuses on key issues affecting family life for these groups intermarriage gender roles in minority communities social and economic demographics in comparison to mainstream Canadians differences in social structure and organization and risk factors that affect Aboriginal immigrant and visible minority youth In Chapter 12 Michelle K Owen draws our attention to the impact that disability has on Canadian families the role that gender plays in the lives of people with disabilities the relationship between poverty and disability and the increased

incidence of physical and sexual abuse among people with a disability The final part of the book is devoted to law and policy In *All in the Family Violence Against Women Children and the Aged* Aysan Sever examines the dark side of the family where power differences can translate into mental physical and or sexual abuse and even murder She reviews the basic definitions of abuse and introduces theories that explain violence within intimate relationships She then addresses possible interventions at the social and structural levels that may diminish the incidence of abuse The role of the state in regulating family life is addressed in Chapter 14 Catherine Krull details the evolution of Canada's family policies within a liberal welfare state and examines the ideology and implications of a universal versus a targeted approach to family policies Krull argues that we need to appreciate why state intervention is necessary if we are to achieve gender equity and suggests that Quebec's progressive family policies should serve as a model for the rest of Canada In the final chapter Margrit Eichler takes a lighthearted look at the predictions that experts made regarding the future of the family from 1930 to 1975 After reviewing some predictions that were spectacularly wrong and others that were surprisingly accurate Eichler bravely makes her own predictions regarding the future of the family she anticipates a modest trend towards three generation families as one response to economic uncertainties and political turmoil a decrease in life expectancy continuing low fertility with high immigration from third world countries less homophobia a continuing slow erosion of strictly defined gender roles and a continuing diversity of unions including common law and legal marriages opposite and same sex marriages In short families will continue to exist some will prosper others less so and children will continue to be raised within family settings which will probably be even more diverse than at present

The Working Classes and Higher Education Amy E. Stich, Carrie Freie, 2015-12-22 Within the broader context of the global knowledge economy wherein the college for all discourse grows more and more pervasive and systems of higher education become increasingly stratified by social class important and timely questions emerge regarding the future social location and mobility of the working classes Though the working classes look very different from the working classes of previous generations the weight of a universal working class identity background amounts to much of the same economic vulnerability and negative cultural stereotypes all of which continue to present obstacles for new generations of working class youth many of whom pursue higher education as a necessity rather than a choice Using a sociological lens contributors examine the complicated relationship between the working classes and higher education through students distinct experiences challenges and triumphs during three moments on a transitional continuum the transition from secondary to higher education experiences within higher education and the transition from higher education to the workforce In doing so this volume challenges the popular notion of higher education as a means to equality of opportunity and social mobility for working class students
