Marriage Or Celibacy The Daily Telegraph On A Victorian Dilemma:

Marriage Or Celibacy? John M. Robson, 1995 An extensive series of news accounts leading articles and letters to the editor most of the last under the heading Marriage or Celibacy appeared in the London newspaper the Daily Telegraph in June and July 1868 Making abundant use of direct quotations the author presents an analysis of the debate which focused on prostitution its causes and cures ideal and practical marriage and emigration its promises and dangers The result is a fascinating picture of the era s middle class family life and morals Paper edition unseen 29 95 Annotation copyright by Book News Inc Portland OR Letters to the Editor Allison Cavanagh, John Steel, 2019-11-07 This book provides an account of current work on letters to the editor from a range of different national cultural conceptual and methodological perspectives Letters to the editor provide a window on the reflexive relationship between editorial and readership identities in historical and international contexts They are a forum through which the personal and the political intersect a space wherein the implications of contemporaneous events are worked out by citizens and public figures alike and in which the meaning and significance of unfolding media narratives and events are interpreted and contested They can also be used to understand the multiple and overlapping ways that particular issues recur over sometimes widely distinct periods This collection brings together scholars who have helped open up letters to the editor as a resource for scholarship and whose work in this book continues to provide new insights into the relationship between journalism and its publics **The Single Homemaker and Material Culture in the Long Eighteenth Century** David Hussey, Margaret Ponsonby, 2016-03-03 The Single Homemaker and Material Culture in the Long Eighteenth Century represents a new synthesis of gender history and material culture studies It seeks to analyse the lives and cultural expression of single men and women from 1650 to 1850 within the main focus of domestic activity the home Whilst there is much scholarly interest in singleness and a raft of literature on the construction and apprehension of the home no other book has sought to bring these discrete studies together Similarly scholarly work has been limited in evaluating gendered consumption practices during the long eighteenth century because of an emphasis on the homes of families Analysing the practices of single people emphasises the differences but also amplifies the similarities in their strategies of domestic life **Settlers at the end of empire** Jean P. Smith, 2022-07-12 Settlers at the end of empire traces the development of racialised migration regimes in South Africa Rhodesia present day Zimbabwe and the United Kingdom from the Second World War to the end of apartheid in 1994 While South Africa and Rhodesia like other settler colonies had a long history of restricting the entry of migrants of colour in the 1960s under existential threat and after abandoning formal ties with the Commonwealth they began to actively recruit white migrants the majority of whom were British At the same time with the 1962 Commonwealth Immigrants Act the British government began to implement restrictions aimed at slowing the migration of British subjects of colour In all three nations these policies were aimed at the preservation of nations imagined as white revealing the persistence of the racial ideologies of empire across the era of

decolonisation *Bachelors, Manhood, and the Novel, 1850-1925* Katherine V. Snyder,1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism

A Man's Place John Tosh,2008-10-01 divDomesticity is generally treated as an aspect of women's history In this fascinating study of the nineteenth century middle class John Tosh shows how profoundly men's lives were conditioned by the Victorian ideal and how they negotiated its many contradictions Tosh begins by looking at the experience of boyhood married life sex and fatherhood in the early decades of the nineteenth century illustrated by case studies representing a variety of backgrounds and then contrasts this with the lives of the late Victorian generation He finds that the first group of men placed a new value on the home as a reaction to the disorienting experience of urbanization and as a response to the teachings of Evangelical Christianity Domesticity still proved problematic in practice however because most men were likely to be absent from home for most of the day and the role of father began to acquire its modern indeterminacy By the 1870s men were becoming less enchanted with the pleasures of home Once the rights of wives were extended by law and society marriage seemed less attractive and the bachelor world of clubland flourished as never before The Victorians declared that to be fully human and fully masculine men must be active participants in domestic life In exposing the contradictions in this ideal they defined the climate for gender politics in the next century DIV

Domesticity, Imperialism, and Emigration in the Victorian Novel Diana C. Archibald,2002 *Emigrant Homecomings* Marjory Harper,2005 This book analyzes the motives experiences and impact of returning migrants in a wide range of locations since 1600 and examines the mechanisms and technologies which enabled their return **Victorian Review** ,1998 *The Odd Women* George Gissing,2021-05-21 George Gissing's *The Odd Women* dramatizes key issues relating to class and gender in late Victorian culture the changing relationship between the sexes the social impact of odd or redundant women the cultural impact of the new woman and the opportunities for and conditions of employment in the expanding service sector of the economy At the heart of these issues as many late Victorians saw them was a problem of the imbalance in the ratio of men to women in the population There were more females than males which meant that more and more women would be left unmarried they would be odd or redundant and would be forced to be independent and to find

work to support themselves In the Broadview edition Gissing's text is carefully annotated and accompanied by a range of documents from the period that help to lay out the context in which the book was written In Gissing's story Virginia Madden and her two sisters are confronted upon the death of their father with sudden impoverishment Without training for employment and desperate to maintain middle class respectability they face a daunting struggle In Rhoda Nunn a strong feminist Gissing also presents a strong character who draws attention overtly to the issues behind the novel The Odd Women is one of the most important social novels of the late nineteenth century

Constructing Girlhood through the Periodical Press, 1850-1915 Kristine Moruzi, 2016-05-23 Focusing on six popular British girls periodicals Kristine Moruzi explores the debate about the shifting nature of Victorian girlhood between 1850 and 1915 During an era of significant political social and economic change girls periodicals demonstrate the difficulties of fashioning a coherent consistent model of girlhood The mixed genre format of these magazines Moruzi suggests allowed inconsistencies and tensions between competing feminine ideals to exist within the same publication Adopting a case study approach Moruzi shows that the Monthly Packet the Girl of the Period Miscellany the Girl's Own Paper Atalanta the Young Woman and the Girl's Realm each attempted to define and refine a unique type of girl particularly the religious girl the Girl of the Period the healthy girl the educated girl the marrying girl and the modern girl These periodicals reflected the challenges of embracing the changing conditions of girls' lives while also attempting to maintain traditional feminine ideals of purity and morality By analyzing the competing discourses within girls periodicals Moruzi's book demonstrates how they were able to frame feminine behaviour in ways that both reinforced and redefined the changing role of girls in nineteenth century society while also allowing girl readers the opportunity to respond to these definitions

A New England? G. R. Searle, 2005 G. R. Searle's narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen's golden jubilee to 1918 as the war to end all wars drew to a close

After Intimacy Karl Leydecker, Nicholas White, 2007 Divorce is a conspicuous character trait of modernity commonly portrayed in texts and on screen with its moral and social rationalisation firmly rooted in Enlightenment and Romantic thought The aim of this volume is to bring into focus this contemporary cultural fascination by assembling the variety of academic responses it has started to create Bringing together the reflections of scholars from the UK and North America who have worked in this domain this study offers for the first time a genuinely wide ranging account of the depiction of divorce across the northern hemisphere in a number of media fiction journalism film and television It reaches historically from the intellectual and legal aftermath of the Enlightenment right up to the present day As such the collection shows both the roots of this apparently contemporary phenomenon in nineteenth century literary practice and the very particular ways in which divorce characterises the different narrative media of modernity

Romantic Friendship in Victorian Literature Carolyn W. de la L. Oulton, 2016-04-08 Carolyn Oulton recovers the strategies nineteenth century authors used to justify the ideal of same sex romantic friendship and the

anxieties these strategies reveal Informed by recent insights into the erotic potential of such relationships but focused on romantic friendship as an independent and fully formulated ideal Oulton departs from other critics who view romantic friendship as either nebulous and culturally naive or an invocation of homoerotic responsiveness By considering both male and female friendships Oulton uncovers surprising parallels between them in novels and poetry by authors such as Dickens Tennyson Disraeli Charlotte Bront and Braddon Oulton also examines conduct manuals periodicals and religious treatises tracing developments from mid century to the fin de siècle when romantic friendship first came under serious attack Her book is a persuasive challenge to those who view mid Victorian England existing in a state of blissful pre Freudian innocence as unproblematically accommodating of passionate same sex relationships

Politics, Religion and Classical Political Economy in Britain J. Lipkes, 1998-12-09 The book examines tensions in classical political economy by describing and analysing changes in J S Mill s economic and religious thought late in life and assesses the influence of Mill s disciplines on these shifts Mill s followers surprisingly were divided into two opposing camps Influenced by the heterodox group opponents of Ricardian political economy and by pressing political concerns Mill modified his principles in ways he would not earlier have countenanced This resulted in inconsistencies and evasions in his final essays which greatly upset the orthodox contingent

Edinburgh History of the British and Irish Press, Volume 2 David Finkelstein, 2020-01-10 This is a unique collection of essays examining nineteenth century British and Irish newspaper and periodical history during a key period of change and development

The Victorian Parlour Thad Logan, 2001-07-05 The parlour was the centre of the Victorian home and as Thad Logan shows the place where contemporary conflicts about domesticity and gender relations were frequently played out In *The Victorian Parlour A Cultural Study* Logan uses an interdisciplinary approach that combines the perspectives of art history social history and literary theory to describe and analyse the parlour as a cultural artefact She offers a detailed investigation of specific objects in the parlour and argues that these things articulated social meaning and could present symbolic resolutions to disturbances in the social field The book concludes with a discussion of how representations of the parlour in literature and art reveal the pleasures and anxieties associated with Victorian domestic life

Victorian Bohemias April Amber Bullock, 1997

A New England? G. R. Searle, 2005-07-29 G R Searle s absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under

Professor Searle's historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England's great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool's tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886-1918 are brought into focus in this magisterial history THE NEW OXFORD HISTORY OF ENGLAND The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation
