Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more

We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting. We are engaged in the process of reconstructing our family institutions through criticism and discussion. 1938 pp 3-4 Marriage Reduction and Fertility David Yaukey, 1973 The Decline in the Birth-rate of New South Wales and Other Phenomena of Child-birth Sir Timothy Augustine Coghlan, 1903 Migration and Inequality in Germany, 1870-1913 Oliver Grant, 2005. Migration and Inequality in Germany 1870-1913 is a rigorous analysis of migration in Germany within the demographic and socio-economic contexts of the period studied. Focusing particularly on the rural labour market and the factors affecting it, it also examines the pull factor to cities and offers more nuanced interpretations of German industrialization in the late nineteenth and early twentieth centuries. Migration and Inequality in Germany 1870-1913 presents a new view of German history in the late nineteenth century. Dr Grant argues that many of the problems of Imperial Germany were *Conferencia Mundial de Las Encuestas de Demografia Y Salud*, 1991 Handbook of Families in the Arab Gulf States Md Mizanur Rahman, Kaltham Al-Ghanim, Ziarat Hossain, Sharique Umar, 2025-06-30. This open access book collates and advances the body of knowledge about the factors, directions and magnitudes of change in Arabian Gulf families from interdisciplinary perspectives. Family life across the globe is being impacted by unprecedented diversity in household living arrangements and by sweeping economic, cultural and social change, and this is not an exception in the Gulf region. The book demarcates how Gulf families are experiencing many formidable challenges and undergoing profound changes due to speedy economic transformation, educational reforms, extensive use of social media, rapid urbanization, migration, women empowerment and the intersections of popular culture from both the East and the West. Notwithstanding such challenges and changes, Gulf families often seem to retain and continue many of the traditional roles and functions of families in a sustained manner. It contributes to current debates that revolve around questions of what has changed and what has stayed the same in family structures in the region. Sweeping and comparative, the book provides avenues for offering practical solutions for policy interventions in Kuwait, the United Arab Emirates, Qatar, Bahrain, Oman and Saudi Arabia. It is a key academic text for sociologists interested in transformations in the family in relation to politics, economics, consumption patterns, education, gender, law, social media, religion, culture, social reforms and the state. **Reproduction and Social Organization in Sub-Saharan Africa** Ron J. Lesthaeghe, 2023-11-15. Unlike most Asian and Latin American countries, sub-Saharan Africa has seen both an increase in population growth rates and a weakening of traditional patterns of child spacing since the 1960s. It is tempting to conclude that sub-Saharan countries have simply not reached adequate levels of income, education and urbanization for a fertility decline to occur. This book argues, however, that such a socioeconomic threshold hypothesis will not provide an adequate basis for comparison. These authors take the view that any reproductive regime is also anchored to a broader pattern of social organization, including the prevailing modes of production, rules of exchange, patterns of religious systems, kinship structure.

division of labor and gender roles They link the characteristic features of the African reproductive regime with regard to nuptiality polygyny breastfeeding postpartum abstinence sterility and child fostering to other specifically African characteristics of social organization and culture Substantial attention is paid to the heterogeneity that prevails among sub Saharan societies and considerable use is made therefore of interethnic comparisons As a result the book goes considerably beyond mere demographic description and builds bridges between demography and anthropology or sociology This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 **Women with Epilepsy** Esther Bui, Autumn M. Research and Development Abstracts* ,1982 *World Development Report 1984* World Bank, 1984 Long term needs and sustained effort are underlying themes in this year s report As with most of its predecessors it is divided into two parts The first looks at economic performance past and prospective The second part is this year devoted to population the causes and consequences of rapid population growth its link to development why it has slowed down in some developing countries The two parts mirror each other economic policy and performance in the next decade will matter for population growth in the developing countries for several decades beyond Population policy and change in the rest of this century will set the terms for the whole of development strategy in the next In both cases policy changes will not yield immediate benefits but delay will reduce the room for maneuver that policy makers will have in years to come *The Demographic Revolution in Modern Egypt* Warren C. Robinson, Fatma H. El-Zanaty, 2006-01-01 The Demographic Revolution in Modern Egypt tells the dramatic story of Egypt s transition in the last two decades from staggeringly high to low fertility and mortality rates Scholars Warren C Robinson and Fatma H El Zanaty especially delve into the reasons for the decline in fertility including the relative success of Egypt s recent public initiatives in family planning Robinson and El Zanaty compellingly show the importance of continued demographic stability in Egypt for that nation the Middle East and indeed the world The authors point to Egypt s optimistic progress as a model for other countries facing out of control birthrates wreaking havoc with economic and social development
