Sham Steve Salerno, 2006-09-26 Self help To millions of Americans it seems like a godsend To many others it seems like a joke But as investigative reporter Steve Salerno reveals in this groundbreaking book it's neither in fact it's much worse than a joke Going deep inside the Self Help and Actualization Movement fittingly the words form the acronym SHAM Salerno offers the first serious exposé of this multibillion dollar industry and the real damage it is doing not just to its paying customers but to all of American society Based on the author's extensive reporting and the inside look at the industry he got while working at a leading lifestyle publisher SHAM shows how thinly credentialed experts now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy Americans spend upward of 8

billion every year on self help programs and products And those staggering financial costs are actually the least of our worries SHAM demonstrates how the self help movement s core philosophies have infected virtually every aspect of American life the home the workplace the schools and more And Salerno exposes the downside of being uplifted showing how the empowering message that dominates self help today proves just as damaging as the blame shifting rhetoric of self help s Recovery movement SHAM also reveals How self help gurus conduct extensive market research to reach the same customers over and over without ever helping them The inside story on the most notorious gurus from Dr Phil to Dr Laura from Tony Robbins to John Gray How your company might be wasting money on motivational speakers executive coaches and other quick fixes that often hurt quality productivity and morale How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything from drug abuse to sex addiction to shoplifting a dysfunction or disease How Americans blindly accept that twelve step programs offer the only hope of treating addiction when in fact these programs can do more harm than good How the self help movement inspired the disastrous emphasis on self esteem in our schools How self help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows to describe self help as a waste of time and money vastly understates its collateral damage And with SHAM the self help industry has finally been called to account for the damage it has done Also available as an eBook

At Home with Pornography Jane Juffer, 1998 Juffer demonstrates how women s consumption of erotica and porn for their own pleasure can be empowering while simultaneously reinforcing conservative ideals She shows for instance how the Victoria s Secret catalog functions as a kind of pornography whose popularity is enhanced by both its reliance on Victorian themes of secrecy and privacy and by its appeals to the pleasures of modern career women In her pursuit to understand what women like and how they get it Juffer delves into adult cable channels erotic literary anthologies sex therapy guides cyberporn masturbation and sex toys showing the degrees to which these materials have been domesticated for home consumption

The Age of Scientific Sexism Mari Ruti, 2015-07-30 We trust our sciences to operate on a plane of objectivity and fact in a world of subjectivity and cultural ideologies but should we In The Age of Scientific Sexism philosopher Mari Ruti offers a sharp critique of the gender profiling tendencies of evolutionary psychology untangling the insidious threads of various gender mythologies that have infiltrated or perhaps even define this faux science Selling stereotypes as scientific facts evolutionary psychology continually brings retrograde models of sexuality into mainstream culture it insists that men and women live in two completely different psychological emotional and sexual universes and that they will consequently always be locked in a vicious battle of the sexes Among these regressive arguments is the assumption that men s sexuality is urgent and indiscriminate whereas women are naturally reluctant reticent and choosy a concept constructed to justify masculine behavior such as cheating that women have historically found painful On its most basic level The Age of Scientific Sexism explores our impulse to explain romantic behavior through science in the

increasingly egalitarian gender landscape of our society why are we so eager to embrace the rampant gender profiling that evolutionary psychology promotes Perhaps these simplistic gender caricatures owe their popularity at least in part to our overly pragmatic society pragmatic society which encourages us to search for easy answers to complex questions *New York Magazine* ,1995-09-18 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
