Alien Abduction in the Cinema Paul Meehan, 2023-08-17 The alien abduction phenomenon is one of the enduring enigmas of our time While the reality of alien abductions is a hotly debated topic among UFO researchers scientists skeptics and true believers alike the phenomenon indisputably exists as an artifact of popular culture This book analyzes more than 75 films that draw their inspiration from allegedly fact based accounts of alien contact from 1951's *The Man from Planet X* to *Contactee* in 2021 These films are examined in terms of both their cinematic qualities and their exploration of thematic elements derived from abduction reports Abduction motifs that appear in science fiction classics such as *The Day the Earth Stood Still* 2001 and *Close*

Encounters are analyzed as well as those in lesser known films like *The Stranger Within*, *Starship Invasions*, *Dark Skies* and *Proximity*. Special attention is given to movies based on the famed experiences of abductees Betty and Barney Hill, Whitley Strieber and Travis Walton. The book also addresses skeptical theories about the origins of the phenomenon in science fiction and examines an uncanny prescience that appears to anticipate these inexplicable occurrences.

The Dark
Ellen Datlow, 2004-09-01

Ghosts are among us. On the other side of death, the spirits of departed souls have been part of human myths and beliefs as long as anyone can recall. Some of the most powerful and affecting images in fiction are of ghosts, spirits, visitations from beyond the veil of death. Ellen Datlow, an editor whose stellar career has garnered her World Fantasy Awards, a Stoker Award and a Hugo Award, has long been fascinated by ghosts. Now she has brought together an array of all new original ghost stories for the shivering delight of readers who are ready to be frightened. And that's no idle threat. These are not friendly ghost stories. This book is called *The Dark* because the editor asked her favorite authors specifically for stories that would provoke fear or disquietude, tales that would cause shivers down the spine and make readers want to keep a light on when they retire to bed for the night. The authors who answered her call compose an all star cast of brilliant storytellers, including such award winning, certifiably masterful authors as Ramsey Campbell, Jeffrey Ford, Charles L. Grant, Glen Hirshberg, Kathe Koja, Tanith Lee, Kelly Link, Sharyn McCrumb, Joyce Carol Oates, Lucius Shepard and Gahan Wilson. Frighteningly good writers. Each has penned a unique tale, unlike any of the others. All have cast dark spells that are sure to inspire fear or unease in the hardest of readers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Aliens Are Here
Fraser A. Sherman, 2022-10-10

Aliens. They have taken the form of immigrants, invaders, lovers, heroes, cute creatures that want our candy or monsters that want our flesh. For more than a century, movies and television shows have speculated about the form and motives of alien life forms. Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion, 1945's *The Purple Monster Strikes*. More aliens landed in the 1950s science fiction movie boom, followed by more television appearances. *The Invaders*, *My Favorite Martian* in the 1960s. Extraterrestrials have been on screen mainstays ever since. This book examines various types of the on screen alien visitor story, featuring a liberal array of alien types, designs
