

A wide-angle photograph of a busy pedestrian street in Marseille, France, during a flea market. The street is filled with a large crowd of people of various ages and ethnicities, walking in both directions. The street is lined with multi-story buildings, some with balconies and awnings. On the right, there are shops, including one with a sign that says "Karl Lagerfeld". The scene is bright and sunny, with shadows cast on the pavement. The overall atmosphere is lively and nostalgic.

What Nostalgia Was Thomas Dodman, 2018-01-10 Nostalgia today is seen as essentially benign a wistful longing for the past This wasn't always the case however from the late seventeenth century through the end of the nineteenth nostalgia denoted a form of homesickness so extreme that it could sometimes be deadly What Nostalgia Was unearths that history Thomas Dodman begins his story in Basel where a nineteen year old medical student invented the new diagnosis modeled on prevailing notions of melancholy From there Dodman traces its spread through the European republic of letters and into Napoleon's armies as French soldiers far from home were diagnosed and treated for the disease Nostalgia then gradually transformed from a medical term to a more expansive cultural concept one that encompassed Romantic notions of the aesthetic pleasure of suffering But the decisive shift toward its contemporary meaning occurred in the colonies where Frenchmen worried about racial and cultural mixing came to view moderate homesickness as salutary An afterword reflects on how the history of nostalgia can help us understand the transformations of the modern world rounding out a surprising fascinating tour through the history of a durable idea
