**What Art Is** Michelle Kamhi, Louis Torres, 2016-05-26 What is art The arts establishment has a simple answer anything is art if a reputed artist or expert says it is Though many people are skeptical about the alleged new art forms that have

proliferated since the early twentieth century today's critics claim that all such work however incomprehensible is art A groundbreaking alternative to this view is provided by philosopher novelist Ayn Rand 1901-1982 Best known as the author of *The Fountainhead* and *Atlas Shrugged* Rand also created an original and illuminating theory of art which confirms the widespread view that much of today's purported art is not really art at all In *What Art Is* Torres and Kamhi present a lucid introduction to Rand's esthetic theory contrasting her ideas with those of other thinkers They conclude that in its basic principles her account is compelling and is corroborated by evidence from anthropology neurology cognitive science and psychology The authors apply Rand's theory to a debunking of the work of prominent modernists and postmodernists from Mondrian Jackson Pollock and Samuel Beckett to John Cage Merce Cunningham and other highly regarded postmodernist figures Finally they explore the implications of Rand's ideas for the issues of government and corporate support of the arts art law and art education This is one of the most interesting provocative and well written books on aesthetics that I know While fully accessible to the general reader *What Art Is* should be of great interest to specialists as well Ayn Rand's largely unknown writings on art especially as interpreted released from dogma and smoothed out by Torres and Kamhi are remarkably refined Moreover her ideas are positively therapeutic after a century of artistic floundering and aesthetic quibbling Anyone interested in aesthetics in the purpose of art or in the troubling issues posed by modernism and post modernism should read this book Randall R Dipert Author of *Artifacts Art Works and Agency* Torres and Kamhi effectively situate Rand's long neglected esthetic theory in the wider history of ideas They not only illuminate her significant contribution to an understanding of the nature of art they also apply her ideas to a trenchant critique of the twentieth century's advanced art Their exposure of the invalidity of abstract art is itself worth the price of admission Chris Matthew Sciabarra Author of *Ayn Rand The Russian Radical* Rand's aesthetic theory merits careful study and thoughtful criticism which Torres and Kamhi provide Their scholarship is sound their presentation is clear and their judgment is refreshingly free from the biases that Rand's supporters and detractors alike tend to bring to considerations of her work Stephen Cox University of California San Diego *Arts America: Enjoying the Best Art Museums, Theater, Classical Music, Opera, Jazz, Dance, Film, and Summer Festivals in America*, 2014-03-17 Timesong is the inspirational story of a three legged coyote named j b who befriends Tom an autistic boy Following his father's death Tom retreats into a shell of isolation j b counters Tom's despair with an uplifting explanation of immortality For those trying to reconcile the loss of a loved one Timesong may be the key that opens the door to acceptance and peace of mind [Reflections of an American Harpsichordist](#) Ralph Kirkpatrick, 2017 Presents previously unpublished memoirs 1933-77 lectures and essays by the eminent harpsichordist and scholar Ralph Kirkpatrick **Dionysus Since 69** Edith Hall, Fiona Macintosh, Amanda Wrigley, 2004-01-08 Greek tragedy is currently being performed more frequently than at any time since classical antiquity This book is the first to address the fundamental question why has there been so much Greek tragedy in the theatres opera houses and cinemas of the last three

decades A detailed chronological appendix of production information and lavish illustrations supplement the fourteen essays by an interdisciplinary team of specialists from the worlds of classics theatre studies and the professional theatre They relate the recent appeal of Greek tragedy to social trends political developments aesthetic and performative developments and the intellectual currents of the last three decades especially multiculturalism post colonialism feminism post structuralism revisions of psychoanalytical models and secularization
