Carlotto,1998 **The Martian Codex** George J. Haas,William R. Saunders,2009-09-22 In this provocative book The Cydonia Codex authors George J Haas and William R Saunders use archaeological research discoveries and photographs from NASA and other space programs to document the uncanny similarities between Martian and now extinct Earth cultures The Martian Codex begins with a review of the thirty year history of documenting the famous Face on Mars landform from NASA s first photographs in 1976 to the Mars Reconnaissance Orbiter s HiRISE shots in 2007 Detailed analysis shows it as a split faced structure that precisely resembles a set of masks from a temple in Cerros Mexico Part two provides additional examples of two faced and composite structures all over the red planet Haas and Saunders explore a series of recurring motifs by providing side by side views of the Martian geoglyphs with their terrestrial pre Columbian counterparts The results substantiate a commonality between two worlds in that both depict specific gods and characters from the creation mythology of the Mayan people as recorded in the sacred Popol Vuh This fact based book represents the most persuasive argument yet that extraterrestrials may indeed have appeared on Earth during an earlier era **The Mars Mystery** Graham Hancock,2010-08-11 An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell Is Earth condemned to the same fate or can we protect ourselves and our planet from extinction In his most riveting and revealing book yet Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers lakes and oceans Could Mars have sustained life and civilization Megaliths found on the parched shores of Cydonia a former Martian ocean mirror the geometrical conventions of the pyramids at Egypt s Giza necropolis Especially startling is a Sphinx like structure depicting a face with distinguishable diadem teeth mouth and an Egyptian style headdress Might there be a connection between the structures of Egypt and those of Mars Why does NASA continue to dismiss these remarkable anomalies as a trick of light Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it The Mars Mystery is both an illumination of our ancient past and a warning that we still have time to heed about our ultimate fate **Mars/Earth Enigma** DeAnna Emerson,1996

The Martians Nick Redfern,2020-10-01 This provocative and exciting book makes a startling case for there being life on Mars Whitley Strieber 1 New York Times bestselling author of Communion The Martians is an in depth study of the theory that Mars was once a world that teemed with life Perhaps even life not too dissimilar to ours Incredibly the Martians may still be there Alive The questions that this book asks and answers include the following What kind of society did the Martians have What caused their world to become harsh and desert like Did global warming or nuclear war ensure the extinction of the Martians Are Martian artifacts strewn about the surface just waiting to be found by the likes of NASA Has NASA already found such evidence but chosen to withhold such monumental finds from the public and the media Could some form of the Martians still exist deeply below the surface of the planet in secure installations that allow them to ensure their civilization
