Kaiser, 2012-02-29 March 5th 2012 marks the 500th birthday of map maker Gerhard Kremer aka Mercator There are many wishing the Flemish map maker well From blogs to books the man who has shaped for many our world view is celebrated as often as vilified Four centuries later Arno Peters created what many see as a fair view of our world but others see as a distorted or misleading map Across the centuries it is maps that link these men and their impact on current human activity This landmark book How Maps Change Things A Conversation About the Maps We Choose and the World We Want looks at maps by these two men and others This examination goes beyond maps as nouns as tactile objects that show locations and distances Maps are verbs don't be fooled we are told at the outset of How Maps Change Things The book examines maps as change agents reflecting intentions and

setting agendas stating who has what and who has not What are the messages sent by maps What were Mercator Peters and other map makers setting out to do with each of their creations Ward Kaiser author publisher pastor and historian was instrumental in bringing the Peters Equal Area Map to North America He has been leading the discussion of what maps mean and the power of maps in framing human activities In *How Maps Change Things* Kaiser takes a passionate view of how maps illustrate and influence the significant paths humans pursue Rather than looking for definitive answers Kaiser focuses on asking thought provoking questions What does our world through the view of maps really look like and what does the perspective or frame of reference or bias of the viewer mean to the map and its view Are all maps simply propaganda for the hidden agenda of the map maker What is the world we get and what is the world we want and who cares and why Kaiser has stimulated an impressive and important conversation

Taking Caesar out of Jesus Robert M. Wills, 2013-10-18 Jesus is the center of Christian faith and the Bible is its holy book its sacred scriptures For hundreds of years this meant that Jesus was divine and the Bible was a divine product This remains the primary perspective for many Christians today However it has mutated appreciably for others It is not that Jesus is no longer thought of as the center of Christian faith or the Bible as Christianitys sacred scriptures Those remain true for everyone However studies in biblical criticism and the historical Jesus suggest Jesus was a Palestinian Jew a human being not different in that respect from you and me Divinity was bestowed upon him by his followers and eventually took the form of imperial divinity after the example of Caesar This presents a conundrum for Christianity What for instance is Christianity to do with a human being at its center How has Christianity accommodated imperial rule What do we do with those imperial titles by which he is known Lord Savior Redeemer and Son of God Taking Caesar out of Jesus presents a new portrait of Jesus based on solid historical evidence assembled from the works of hundreds of critical biblical scholars As the subtitle proclaims Jesus emerges from this book as a new figure relevant to the 21st century Some will say this new perspective destroys Christianity Others will find Jesus to be far more believable and compelling Anyone will find this progressive approach to uncovering the historical Jesus thought provoking This book however goes beyond biblical criticism and a new portrait of the historical Jesus It confronts the Christian proclamation that Jesus is humanitys savior including the notion that it needs a savior It suggests that the historical Jesus never embraced the well known notion of divine salvation To the contrary Jesus embraced Judaism's wisdom tradition In the wisdom tradition a person deals with the exigencies of life by developing a new vision of reality and by acting differently Jesus did not provide an instruction manual for living rather he pointed us in the direction of self management As described in this book this new way of living taken from Jesuss parables and aphorisms will startle some and stir others toward greater maturity and responsibility for their own lives
