*Boring Postcards USA* Martin Parr,2004-03-01 In Boring PostcardsMagnum photographer and postcard enthusiast Martin Parr brought together 160 of the dullest postcards of 1950s 60s and 70s Britain to make a book that was contrary to the conceit of its title both fascinating and extremely funny It was one of those ideas that seemed so obvious that no one could believe it hadn t been done before and it caught the public imagination in a big way In Britain Boring Postcardswas discussed everywhere from daytime TV shows to art and design magazines from local newspapers and radio stations outraged that their town should be labelled boring to Timemagazine Now Parr has turned his attention to the USA for a new book of Boring Postcards Just as before for a postcard to qualify as sufficiently boring either its composition its content or the characters featured must be arguably boring or the photograph must be absent of anything that might conventionally be described as interesting As the study of postcards becomes a field of academic interest this book offers more than amusement as a folk art recording of the non places and non events of post war America it reveals poignant insights into its social cultural and architectural values      **Bliss** Martin Parr,2003 Soap packet book design printed in fluorescent colors on

Martin Parr Martin Parr, Ivana Della Portella, 2006 Photographs of tourists in Rome      Parrworld: Postcards Martin Parr, 2008 Introduction to Postcards by Thomas Weski Introduction to Objects by Martin Parr      *Picturing the Postcard* Monica Cure, 2018-12-18 The first full length study of a once revolutionary visual and linguistic medium Literature has died many times this book tells the story of its death by postcard Picturing the Postcard looks to this unlikely source to shed light on our collective modern day obsession with new media The postcard almost unimaginably now produced at the end of the nineteenth century the same anxieties and hopes that many people think are unique to twenty first century social media such as Facebook or Twitter It promised a newly connected social world accessible to all and threatened the breakdown of authentic social relations and even of language Arguing that new media is as much a discursive object as a material one and that it is always in dialogue with the media that came before it Monica Cure reconstructs the postcard's history through journals legal documents and sources from popular culture analyzing the postcard's representation in fiction by well known writers such as E M Forster and Edith Wharton and by more obscure writers like Anne Sedgwick and Herbert Flowerdew Writers deployed uproar over the new medium of the postcard by Anglo American cultural critics to mirror anxieties about the changing nature of the literary marketplace which included the new role of women in public life the appeal of celebrity and the loss of privacy an increasing dependence on new technologies and the rise of mass media Literature kept open the postcard's possibilities and in the process reimaged what literature could be      Martin Parr Sandra S.
