Philanthropy and Activism Hilde Van Den Bulck,2018-03-21 In recent years celebrity philanthropy and activism has attracted much attention from the media sparking a great deal of public interest As exponents and endorsers of the marketisation and corporatisation of philanthropy and activism globally renowned super celebrities habitually lend their name time and energy to a range of causes They help raise awareness generate funds and endeavour to evoke social and political responses to crucial societal issues These can range from domestic violence cancer prevention climate change and transgender acceptance to refugee problems and fighting poverty at home and abroad But in what ways do mediated communications about these celebrities have the power to define what is going wrong in the world who or what is to blame how this can be solved and how this is to be evaluated morally and ethically Does celebrity humanitarianism and activism serve to reinforce postcolonial power relations or does it help solve social problems advancing traditional views on how society is and should be organised Importantly more than conceptual and empirical exploration of celebrity philanthropy and activism as such this book analyses the mediated communication the mediatised narratives that these endeavours provide Combining insights from philanthropy and welfare regime studies international politics and diplomacy postcolonial studies but also from

marketing from celebrity star and fan studies and from media communication and cultural studies this book critically analyses the mediated discourses and debates that celebrity philanthropy and activism provokes and considers wider ethical and theoretical perspectives It will be of interest to all scholars and students working in sociology health and social care and social policy
