Rennert, 2004 This collection of articles by both German literature specialists and German theater experts grew out of the Comparative Drama Conference held annually between February and March from 1977 to 1999 in Gainesville Florida At the center of the contributors work is the productive tension between the literary and the performance aspects of German drama and theater At the same time the reception is truly American since the German playwrights directors theorists and dramatists discussed have gone through creative filters in the researching performing and teaching of German drama and theater on various campuses across the United States during the last third of the twentieth century German Culture and the Uncomfortable Past Helmut Schmitz, 2017-07-05 Beginning with the question of the role of the past in the shaping of a contemporary identity this volume spans three generations of German and Austrian writers and explores changes and shifts in the aesthetics of *Vergangenheitsbewältigung* coming to terms with the past The purpose of the book is to assess contemporary German literary representations of National Socialism in a wider context of these current debates The contributors address questions arising from a shift over the last decade triggered by a generation change questions of personal and national identity in Germany and Austria and the aesthetics of memory One of the central questions that emerges in relation to the Hitler youth generation is that of biography as examined through Günter Grass and Martin Walser's conflicting views on the subject of National Socialism Other themes explored here are the conflict between the post war

generations and the contributions of that conflict to West German mentality and the growing historical distance and its influence on the aesthetics of representation Martin Walser, 1964 **The Gruppe 47 Fifty Years on A Re-Appraisal of Its Literary and Political Significance**, 2023-12-21 German Monitor founded in 1979 is a series for themed edited volumes on literature culture and politics in the German speaking world since 1945 Our approach is inclusive some volumes focus on single authors political figures or genres other volumes explore themes such as narratives of trauma German left wing terrorism local global narratives and the roles that Germany Austria and Switzerland play in Europe today We welcome proposals for interdisciplinary volumes as well as those with a specifically literary cultural or political focus Many of our contributors are based in German Studies others in disciplines such as Comparative Literature Film Studies Musicology History Museum Studies and Political Science The book series has a system of double peer reviewing We publish volumes in German or English Authors are cordially invited to submit proposals to the publisher at BRILL Christa Stevens Questions about your manuscript and proposals can also be directed to the Editor in Chief Laura Bradley *Beyond 1989* Keith Bullivant, 1997 With the opening up of the East in the autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era **Writers and Politics in Germany, 1945-2008** K. Stuart Parkes, 2009 A comprehensive survey of German literary writers political writing and involvement since 1945 Futurity Amir Eshel, 2024-05-31 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century's catastrophes at the expense of literature's prospective vision Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany's public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel's political birth he shows how these stories inspired a powerful reconsideration of Israel's identity Eshel then discusses post 1989 literature from Ian McEwan's *Black Dogs* to J M Coetzee's *Diary of a Bad Year* revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future *Futurity* reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow **After the Nazis** Michael H. Kater, 2023-01-01 A wide ranging insightful history of culture in West Germany from literature film and music to theater and the visual arts After World War II a mood of despair and impotence pervaded the arts in West Germany The culture and

institutions of the Third Reich were abruptly dismissed yet there was no immediate return to the Weimar period's progressive ideals. In this moment of cultural stasis, how could West Germany's artists free themselves from their experiences of Nazism? Moving from 1945 to reunification, Michael H. Kater explores West German culture as it emerged from the darkness of the Third Reich. Examining periods of denial and complacency as well as attempts to reckon with the past, he shows how all postwar culture was touched by the vestiges of National Socialism. From the literature of Günter Grass to the happenings of Joseph Beuys and Karlheinz Stockhausen's innovations in electronic music, Kater shows how it was only through the reinvigoration of the cultural scene that West Germany could contend with its past and eventually allow democracy to reemerge.

German Text Crimes Tom Cheesman, 2013. *German Text Crimes* offers new perspectives on scandals and legal actions implicating writers of German literature since the 1950s. Topics range from literary echoes of the Heidegger Affair to recent incitements to murder businessmen, agents of American neo-liberal power in works by Rolf Hochhuth and others. GDR songwriters' cat and mouse games with the Stasi, feminist debates on pornography around works by Charlotte Roche and Elfriede Jelinek, controversies over anti-Semitism around Bernhard Schlink's *Der Vorleser* (The Reader) and Martin Walser's lampooning of the Jewish critic Marcel Reich Ranicki, Peter Handke's pro-Serbian travelogue, the disputed editing of Ingeborg Bachmann's *Nachlaß*, vexed relations between dramatists and directors, abuses of privacy law to censor contemporary fiction: these are among the cases of text crimes discussed. Not all involve codified law, but all test relations between state power, civil society, media industries and artistic license.

Kierkegaard's Influence on Literature, Criticism, and Art: The Germanophone world Jon Bartley Stewart, 2013. Vol 2 is dedicated to the use of Kierkegaard by later Danish writers. Almost from the beginning, Kierkegaard's works were standard reading for these authors. Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings. These included the theoretical leader of the movement, the critic Georg Brandes, who wrote an entire book on Kierkegaard, and the novelists Jens Peter Jacobsen and Henrik Pontoppidan.

Post-Wall German Cinema and National History Mary-Elizabeth O'Brien, 2014. *German history films that focus on utopianism and political dissent and their effect on German identity since 1989*. Since unification, a radical shift has taken place in Germans' view of their country's immediate past, with 1989 replacing 1945 as the primary caesura. The cold war division, the failed socialist state, the 68 student movement and the Red Army Faction, historical flashpoints involving political oppression, civil disobedience and the longing for utopian solutions to social injustice, have come to be seen as decisive moments in a collective history that unites East and West, even as it divides them. Telling stories about a shared past, establishing foundational myths and finding commonalities of experience are pivotal steps in the construction of national identity. Such nation building is always incomplete, but the cinema provides an important forum in which notions of German history and national identity can be consumed, negotiated and contested. This book looks at history films made since 1989, exploring how utopianism and political

dissent have shaped German identity It studies the genre including popular successes critical successes and perceived failures as a set of texts and a discursive network gauging which conventions and storylines are resilient At issue is the overriding question to what extent do these films contribute to a narrative that legitimizes the German nation state Mary Elizabeth O'Brien is Professor of German and The Courtney and Steven Ross Chair in Interdisciplinary Studies at Skidmore College

The Burden of the Past Thomas A. Kovach, Martin Walser, 2008 English translation analysis and contextualization of Walser's notorious but little examined Peace Prize speech and related writings The German novelist Martin Walser's 1998 speech upon accepting the Peace Prize of the German Book Trade remains a milestone in recent German efforts to come to terms with the Nazi past The day after the speech Ignatz Bubis leader of Germany's Jewish community attacked Walser for inciting dangerous right wing sentiment with controversial passages including the notorious statement Auschwitz is not suited to be a moral bludgeon thus igniting the protracted public battle of opinions known as the Walser Bubis Debate The speech continues to loom large in Germany's struggle to acknowledge responsibility for Nazi crimes yet escape a suffocating burden of remembrance But in spite of its notoriety little attention has been paid to what the speech actually says as opposed to the public outcry and debate that followed it This book presents the text of the speech along with several of Walser's other essays and speeches about the Holocaust and its impact on German identity in English translation It examines them as texts a process that involves a discussion of literary complexities and an attempt to distinguish valid criticism of German intellectual life from what is justifiably problematic And it places this textual examination in the context of Walser's and other postwar German intellectuals' attempts to deal with the Nazi past of German Jewish relations in the postwar era and of the once hidden and now due in part to Walser's speech increasingly open discourse about Germans as victims during and immediately after the Nazi era Thomas A. Kovach is Professor of German Studies at the University of Arizona

German Literature in the Age of Globalisation Stuart Taberner, 2004-11-01 Literary fiction in Germany has long been a medium for contemplation of the nation and questions of national identity From the mid 1990s in the wake of heated debates on the future direction of culture politics and society in a more normal united country German literature has become increasingly diverse and seemingly disparate at the one extreme it represents the attempt to reinvent German traditions at the other the unmistakable influence of Anglo American forms and pop literature A shared concern of almost all of recent German fiction however is the contemporary debate on globalisation its nature impact and consequences for local culture In its engagement with globalisation the literature of the Berlin Republic continues the long established practice of reflection on what it is to be German This book investigates literary responses to the phenomenon of globalisation The subject is approached from a wide range of thematic and theoretical perspectives in twelve chapters which taken together also provide an overview of German fiction from the mid 1990s to the present The book serves both as an introduction to contemporary German literature for university students of German and as a resource for scholars interested
