

Each of the tools in this toolkit start with an action or activity, and the facilitator's role is to help participants "unpack" the lessons through dialogue and discussion. The process of unpacking usually follows three basic questions:

- What just happened? (What?) = action and experience
- What does it mean? (So what?) = reflection and generalization
- What will we do about it? (Now what?) = planning and application

This process always applies—whether you are leading a hands-on planting session, a cooking demonstration, a market visit, or facilitating a gender dialogue. The process of facilitating successful adult learning has been broken down into several key steps. Following these steps will help you prepare for and successfully facilitate a session.
