Office,1977 *Chinese Outcasts* Anders Hansson,2021-11-08 Outcasts and pariahs are known to exist in several Asian countries but have usually not been associated with traditional Chinese society Chinese Outcasts shows that some Chinese were in fact treated as outcasts or semi outcasts They include the boat people of South China and certain less well known groups in different regions including the musicians households and the fallen people The reasons for their inferior status and perceived impurity is examined as well as the intent behind a series of imperial emancipation edicts in the 1720s and 30s The edict provided an escape route from inferior legal status but failed to put a quick end to customary social discrimination

reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature Book Review Digest ,1928
