## **Marx On Suicide:**

**Marx on Suicide** Karl Marx, 1999 This provocative volume presents a glimpse of social philosopher Karl Marx's views on the subject of suicide     The Ethics of Suicide Margaret Pabst Battin, 2015-09-11 Is suicide wrong profoundly morally wrong Almost always wrong but excusable in a few cases Sometimes morally permissible Imprudent but not wrong Is it sick a matter of mental illness Is it a private matter or a largely social one Could it sometimes be right or a noble duty or even a fundamental human right Whether it is called suicide or not what role may a person play in the end of his or her own life This collection of primary sources the principal texts of ethical interest from major writers in western and nonwestern cultures from the principal religious traditions and from oral cultures where observer reports of traditional practices are available spanning Europe Asia the Middle East Africa Oceania the Arctic and North and South America facilitates exploration of many controversial practical issues physician assisted suicide or aid in dying suicide in social or political protest self sacrifice and martyrdom suicides of honor or loyalty religious and ritual practices that lead to death including sati or widow burning hara kiri and sallekhanas or fasting unto death and suicide bombings kamikaze missions jihad and other tactical and military suicides This collection has no interest in taking sides in controversies about the ethics of suicide rather it serves to expand the character of these debates by showing them to be multi dimensional a complex and vital part of human ethical thought     **The History of Suicide in England, 1650-1850, Part II vol 8** Mark Robson, Paul S Seaver, Kelly McGuire, Jeffrey Merrick, Daryl Lee, 2021-11-18 First published in 2013 This two part eight volume reset edition draws together a range of sources from the early modern era through to the industrial age to show the changes and continuities in responses to the social political legal and spiritual problems that self murder posed Part II Volume 8 contains 1800 1850 Medical Writers continued Statistical Inquiries Social Criticism Poetic and Popular Representations and Cases     **Victorian Suicide** Barbara Gates, 2014-07-14 When Viscount Castlereagh leader of the House of Commons and architect of the Grand Alliance committed suicide in 1822 the coroner's inquest could consider only two legal verdicts insanity or self murder Public outrage greeted his burial in Westminster Abbey the tradition lingered that a suicide's burial place be at a crossroads with a stake through the heart to keep the lost soul from wandering Probing a remarkable variety of sources and individual cases Barbara Gates shows how attitudes toward suicide changed between Castlereagh's death and the end of the century By 1900 the Victorians' moral censure of suicide and the accompanying denial that it was a widespread problem had been replaced by a more compassionate response and also by an unfounded belief in a suicide epidemic which Thomas Hardy described as a coming universal wish not to live Exposing a rich area of interaction between history and literature and utilizing the methodology of the new historicism Gates discusses topics ranging from the plot for Wuthering Heights to Victorian shilling shockers Among other findings she includes evidence that Victorian middle class men particularly tended to make suicide the province of other selves of men belonging to other times or places of monsters or of women Originally published in 1988 The

**The Gender of Suicide** Katrina Jaworski, 2016-03-09 Drawing on diverse theoretical and textual sources, *The Gender of Suicide* presents a critical study of the ways in which contemporary society understands suicide, exploring suicide across a range of key expert bodies of knowledge. With attention to Durkheim's founding study of suicide as well as discourses within sociology, law, medicine, psychology, and newsprint media, this book demonstrates that suicide cannot be understood without understanding how gender shapes it and without giving explicit attention to the manner in which prevailing claims privilege some interpretations and experiences of suicide above others. Revealing the masculine and masculinist terms in which our current knowledge of suicide is constructed, *The Gender of Suicide* explores the relationship between our grasp of suicide and problematic ideas connected to the body, agency, violence, race, and sexuality. As such, it will appeal to sociologists and social theorists as well as scholars of cultural studies, philosophy, law, and psychology.

**Suicide in Modern Literature** Josefa Ros Velasco, 2022-01-01 This book analyzes the social and contextual causes of suicide, the existential and philosophical reasons for committing suicide, and the prevention strategies that modern fictional literature places at our disposal. They go through the review of Modern fictional literature in the American and European geographical framework, following the rationales that modern literature based on fiction can serve the purpose of understanding better the phenomenon of suicide, its most inaccessible impulses, and that has the potential to prevent suicide. From the turn of the 20th century to the present, debates over the meaning of suicide became a privileged site for efforts to discover the reasons why people commit suicide and how to prevent this behavior. Since the French sociologist and philosopher Émile Durkheim published his study *Suicide: A Study in Sociology* in 1897, a reframing of suicide took place, giving rise to a flourishing group of researchers and authors devoting their efforts to understand better the causes of suicide and to the formation of suicide prevention organizations. A century later, we still keep on trying to reach such an understanding of suicide, the nature and nuances of its modern conceptualization to prevent suicidal behaviors. The question of what suicide means in and for modernity is not an overcome one. Suicide is an act that touches all of our lives and engages with the incomprehensible and unsayable. Since the turn of the millennium, a fierce debate about the state's role in assisted suicide has been adopted. Beyond the discussion as to whether physicians should assist in the suicide of patients with unbearable and hopeless suffering, the scope of the suicidal agency is much broader, concerning general people wanting to die.

*Marx's Fate* Jerrold Seigel, 2010-11 *Marx's Fate* is an intellectual biography of Marx that combines historical, textual, and psychological analyses to provide major new insights into the philosopher's writings and development.

*Critical Theory of Legal Revolutions*

Hauke Brunkhorst, 2014-06-19 This unique work analyzes the crisis in modern society building on the ideas of the Frankfurt School thinkers Emphasizing social evolution and learning processes it argues that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and public law First the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society and posits that a crisis of legitimization is at the core of all crises It then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system This volume in the Critical Theory and Contemporary Society by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology political theory and law

**How Not to Kill Yourself** Clancy Martin, 2024-03-26 FINALIST FOR THE KIRKUS PRIZE FOR NONFICTION ONE OF TIME S 100 MUST READ BOOKS OF THE YEAR ONE OF THE NEW YORK TIMES BOOK REVIEW S CRITICS PICKS ONE OF THE BOSTON GLOBE S 55 BOOKS WE LOVED THIS YEAR ONE OF KIRKUS S BEST NONFICTION BOOKS OF THE YEAR An intimate insightful at times even humorous blend of memoir and philosophy that examines why the thought of death is so compulsive for some while demonstrating that there s always another solution from the acclaimed writer and philosophy

professor based on his viral essay *I'm Still Here* A deep meditation that searches through Martin's past looking for answers about why he is the way he is while also examining the role suicide has played in our culture for centuries how it has evolved and how philosophers have examined it *Esquire* A rock for people who've been troubled by suicidal ideation or have someone in their lives who is *The New York Times* If you're going to write a book about suicide you have to be willing to say the true things the scary things the humiliating things Because everybody who is being honest with themselves knows at least a little bit about the subject If you lie or if you fudge the reader will know The last time Clancy Martin tried to kill himself was in his basement with a dog leash It was one of over ten attempts throughout the course of his life But he didn't die and like many who consider taking their own lives he hid the attempt from his wife family coworkers and students slipping back into his daily life with a hoarse voice a raw neck and series of vague explanations In *How Not to Kill Yourself* Martin chronicles his multiple suicide attempts in an intimate depiction of the mindset of someone obsessed with self destruction He argues that for the vast majority of suicides an attempt does not just come out of the blue nor is it merely a violent reaction to a particular crisis or failure but is the culmination of a host of long standing issues He also looks at the thinking of a number of great writers who have attempted suicide and detailed their experiences such as David Foster Wallace Yiyun Li Akutagawa Nelly Arcan and others at what the history of philosophy has to say both for and against suicide and at the experiences of those who have reached out to him across the years to share their own struggles The result combines memoir with critical inquiry to powerfully give voice to what for many has long been incomprehensible while showing those presently grappling with suicidal thoughts that they are not alone and that the desire to kill oneself like other self destructive desires is almost always temporary and avoidable

Karl Marx's America R. Lynn Wilson,2022-09-05 The Colonists who began settling in the United States in the 1600s came here for three main reasons 1 to escape religious persecution 2 to escape repression and 3 for better economic opportunity It is not coincidental the Declaration of Independence and the Constitution of the United States were written to provide us with the unalienable rights of life liberty and the pursuit of happiness Our founding fathers wrote the Constitution to insure the people and not the government had the power It is a hell of a document that is brilliantly written In America s history the Constitution has never been abused as it is being abused today by those who want to turn America into a Marxist nation

Abraham Lincoln said America will never be destroyed from the outside If we falter and lose our freedoms it will be because we destroyed ourselves Ronald Reagan said Freedom is never more than one generation away from extinction If we lose this way of freedom history will record with the greatest astonishment that those who had the most to lose did the least to prevent its happening You and I have a rendezvous with destiny We ll preserve for our children this the best hope for man on Earth or we ll sentence them to take the last step into a thousand years of darkness There is no way to get back what we will lose if we lose our traditional American values to Marxist rule because there is no place on Earth like America no place on Earth even comes close When it s gone it s gone Historically throughout the Earth s civilizations it has not been a question of whether a successful culture can last forever but how long it can last What makes us think we will be different
