## **Marx The Young Hegelians And The Origins Of Radical Social Theory Dethroning The Self:**

**Marx, the Young Hegelians, and the Origins of Radical Social Theory** Warren Breckman, 2001-02-19 This is the first major study of Marx and the Young Hegelians in twenty years The book offers a new interpretation of Marx's early development the political dimension of Young Hegelianism and that movement's relationship to political and intellectual currents in early nineteenth century Germany Warren Breckman challenges the orthodox distinction drawn between the exclusively religious concerns of Hegelians in the 1830s and the sociopolitical preoccupations of the 1840s He shows that there are inextricable connections between the theological political and social discourses of the Hegelians in the 1830s The book draws together an account of major figures such as Feuerbach and Marx with discussions of lesser known but significant figures such as Eduard Gans August Cieszkowski Moses Hess F W J Schelling as well as such movements as French Saint Simonianism and positive philosophy Wide ranging in scope and synthetic in approach this is an important book for historians of philosophy theology political theory and nineteenth century ideas Natural Law and Political Realism in the History of Political Thought: From the seventeenth to the twenty-first century R. W. Dyson, 2005 Original Scholarly Monograph *German Intellectuals and the Challenge of Democratic Renewal* Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West *A Philosophical History of Police Power* Melayna Kay Lamb, 2024-01-11 Rethinking the philosophical grounds of police power Melayna Lamb argues that traditional ideas of sovereignty and the law need to be radically re evaluated In placing police at the centre of analysis this book demonstrates the manner in which police power exists in a complex and overlapping relationship with sovereignty and law in a form which is not reducible to implementation In doing this it argues for the centrality of order in any consideration of police and challenging a common narrative whereby a dynamic interventionist sovereign power that follows from a belief of order as artificial is replaced by a liberal limited non interventionist sovereign power that proceeds from a natural order Moving through thinkers such as Hobbes Hegel and Adam Smith the book argues that police power is in fact an archic in form in a manner that makes it impossible to hold accountable through the law Lamb adopts an interdisciplinary approach that turns to philosophy to make sense of global events that see police power at their

centre This includes the history of police brutality in the US the structural injustices made more apparent by COVID 19 and the growing calls to abolish the police Politics, Religion, and Art Douglas Moggach,2011-04-14 The period from 1780 to 1850 witnessed an unprecedented explosion of philosophical creativity in the German territories In the thinking of Kant Schiller Fichte Hegel and the Hegelian school new theories of freedom and emancipation new conceptions of culture society and politics arose in rapid succession The members of the Hegelian school forming around Hegel in Berlin and most active in the 1830 s and 1840 s are often depicted as mere epigones whose writings are at best of historical interest In Politics Religion and Art Hegelian Debates Douglas Moggach moves the discussion past the Cold War era dogmas that viewed the Hegelians as proto Marxists and establishes their importance as innovators in the fields of theology aesthetics and ethics and as creative contributors to foundational debates about modernity state and society **Print Markets and Political Dissent** James M. Brophy,2024-06-05 Moving book history in a new direction this study examines publishers as brokers of Central Europe s political public sphere They created international print markets translated new texts launched new journals supported outspoken authors and experimented with popular formats Most of all they contested censorship with finesse and resolve thereby undermining the aim of Prussia and Austria to criminalize democratic thought By packaging dissent through popular media publishers cultivated broad readerships promoted political literacy and refashioned citizenship ideals As political actors intellectual midwives and cultural mediators publishers speak to a broad range of scholarly interests Their outsize personalities their entrepreneurial zeal and their publishing achievements portray how print markets shaped the political world The narrow perimeters of political communication in the late absolutist states of Prussia and Austria curtailed the open market of ideas The publishing industry contested this information order working both within and outside legal parameters to create a modern public sphere Their expansion of print markets their cat and mouse game with censors and their ingenuity in packaging political commentary sheds light on the production and reception of dissent Against the backdrop of censorship and police surveillance the successes and failures of these citizens of print tell us much about nineteenth century civil society and Central Europe s tortuous pathway to political modernization Cutting across a range of disciplines this study will engage social and political historians as well as scholars of publishing literary criticism cultural studies translation and the public sphere The history of Central Europe s print markets between Napoleon and the era of unification doubles as a political tale It sheds important new light on political communication and how publishers exposed German language readers to the Age of Democratic Revolution **The Modernist Imagination** Martin Jay,2009 Some of the most exciting and innovative work in the humanities is occurring at the intersection of intellectual history and critical theory This volume includes work from some of the most prominent contemporary scholars in the humanities The Colors of Photography Bettina Gockel,2020-12-16 The Colors of Photography aims to provide a deeper understanding of what color is in the field of photography Until today color photography has marked the here and now while black and white photographs

have been linked to our image of history and have formed our collective memory However such general dichotomies start to crumble when considering the aesthetic cultural and political complexity of color in photography With essays by Charlotte Cotton Bettina Gockel Tanya Sheehan Blake Stimson Kim Timby Kelley Wilder Deborah Willis Photographic contributions by Hans Danuser and Raymond Meier     The Idea of the Self Jerrold Seigel, 2005-02-17 What is the self The question has preoccupied people in many times and places but nowhere more than in the modern West where it has spawned debates that still resound today In this 2005 book Jerrold Seigel provides an original and penetrating narrative of how major Western European thinkers and writers have confronted the self since the time of Descartes Leibniz and Locke From an approach that is at once theoretical and contextual he examines the way figures in Britain France and Germany have understood whether and how far individuals can achieve coherence and consistency in the face of the inner tensions and external pressures that threaten to divide or overwhelm them He makes clear that recent postmodernist accounts of the self belong firmly to the tradition of Western thinking they have sought to supersede and provides an open ended and persuasive alternative to claims that the modern self is typically egocentric or disengaged     **Intolerance** Jeffrey Friedman, 2022-12-12 Intolerance of ideas different from one's own seems to be a common attitude among human beings and at the same time something that seems to be more pronounced in recent years In this volume political theorists and philosophers consider some of the historical preconditions of modern intolerance and debate the sources of its recent manifestations From theories of religious intolerance during the Reformation to the contemporary suppression of religious symbols from homophobia to attempts to ban it from populism on the right to cancel culture on the left this book covers a variety of forms of intolerance analysing not only its consequences but its causes and implications Some of the chapters suggest means by which democracies may through popular and judicial measures defend themselves against intolerance while others probe the philosophical grounding of intolerance in epistemological and metaphysical doctrines such as self evident truth divine revelation inner illumination naive realism and the moral relativism attributed to analytic philosophy and postmodernism The chapters in this book were originally published as a special issue of Critical Review     *In the Spirit of Critique* Andrew J. Douglas, 2013-12-01 Offers a new perspective on the political significance of the Hegelian dialectical legacy Focusing on the critical postures of Hegel Marx and a series of twentieth century intellectuals including Sartre Adorno and C L R James this book explores what dialectical thinking entails and how such thinking might speak to the lived realities of the contemporary political moment What is revealed is not a formal method or a grand philosophical system but rather a reflective energy or disposition a dialectical spirit of critique that draws normative sustenance from an emancipatory moral vision but that remains attuned principally to conflict and tension and to the tragic uncertainties of political life In light of the unique challenges of the late modern age as theorists and citizens struggle to sustain an active and coherent critical agenda *In the Spirit of Critique* invites serious reconsideration of a rich and elusive intellectual tradition     **The Cambridge History of Socialism:**

**Volume 1** Marcel van der Linden, 2022-11-24 This volume describes the various movements and thinkers who wanted social change without state intervention. It covers cases in Europe, the Americas, Africa, and Asia. The first part discusses early egalitarian experiments and ideologies in Asia, Europe, and the Islamic world, and then moves to early socialist thinkers in Britain, France, and Germany. The second part deals with the rise of the two main currents in socialist movements after 1848: anarchism in its multiple varieties and Marxism. It also pays attention to organisational forms, including the International Working Men's Association, later called the First International, and it then follows the further development of anarchism and its proletarian sibling, revolutionary syndicalism, its rise and decline from the 1870s until the 1940s on different continents. The volume concludes with critical essays on anarchist transnationalism and the recent revival of anarchism and syndicalism in several parts of the world.

**The History of Continental Philosophy** Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard, from Hegel to Heidegger, continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century. Although much has been written about these monumental thinkers, students and scholars lack a definitive guide to the entire scope of the continental tradition. The most comprehensive reference work to date, this eight-volume *History of Continental Philosophy* will both encapsulate the subject and reorient our understanding of it. Beginning with an overview of Kant's philosophy and its initial reception, the *History* traces the evolution of continental philosophy through major figures as well as movements such as existentialism, phenomenology, hermeneutics, and poststructuralism. The final volume outlines the current state of the field, bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism, globalization, and the environment. Throughout, the volumes examine important philosophical figures and developments in their historical, political, and cultural contexts. The first reference of its kind, *A History of Continental Philosophy* has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers' texts and movements in rigorous yet jargon-free essays suitable for both undergraduates and seasoned specialists. These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy, surveying the distinctive, sometimes overlapping characteristics and approaches of each tradition. Featuring helpful overviews of major topics and plotting road maps to their underlying contexts, *A History of Continental Philosophy* is destined to be the resource of first and last resort for students and scholars alike.

***The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century*** Warren Breckman, Peter E. Gordon, 2019-08-29 An authoritative and comprehensive survey of the major themes, thinkers, and movements in modern European intellectual history.

***The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century*** Peter E. Gordon, Warren Breckman, 2019-08-29 *The Cambridge History of Modern European Thought* is an authoritative and comprehensive exploration of the themes, thinkers, and movements that shaped our intellectual world in the late eighteenth and nineteenth centuries. Representing both individual figures and the contexts within which they developed their ideas, each essay is written

in a clear accessible style by leading scholars in the field and offers both originality and interpretive insight This second volume surveys twentieth century European intellectual history conceived as a crisis in modernity Comprised of twenty one chapters it focuses on figures such as Freud Heidegger Adorno and Arendt surveys major schools of thought including Phenomenology Existentialism and Conservatism and discusses critical movements such as Postcolonialism Structuralism and Post structuralism Renouncing a single master narrative of European thought across the period Peter E Gordon and Warren Breckman establish a formidable new multi faceted vision of European intellectual history for the global modern age

The Cambridge Companion to German Idealism Karl Ameriks,2000-10-30 The Cambridge Companion to German Idealism first published in 2000 offers a comprehensive penetrating and informative guide to what is regarded as the classical period of German philosophy Kant Fichte Hegel and Schelling are all discussed in detail together with a number of their contemporaries such as Holderlin and Schleiermacher whose influence was considerable but whose work is less well known in the English speaking world The essays in the volume trace and explore the unifying themes of German Idealism and discuss their relationship to Romanticism the Enlightenment and the culture of seventeenth and eighteenth century Europe The result is an illuminating overview of a rich and complex philosophical movement and will appeal to a wide range of readers in philosophy German studies theology literature and the history of ideas

**The Cambridge History of Modern European Thought** Warren Breckman,Peter Eli Gordon,2019 In these well nigh encyclopedic volumes warren Breckman and Peter E Gordon engage in a daunting feat They offer compact and informative introductions to essays on very many crucial dimensions of thought in the nineteenth and twentieth centuries And they furnish along with their own substantive chapters contributions from an array of prominent scholars of intellectual and cultural history all of whom demonstrate impressive expertise in their varied areas of inquiry The result is an important work of both scholarly and general interest Back cover

*Scripture and Traditions* Patrick Gray,Gail R. O'Day,2008-12-31 This volume contains twenty two essays in honor of Carl R Holladay whose work on the interaction between early Christianity and Hellenistic Judaism has had a considerable impact on the study of the New Testament The essays are grouped into three sections Hellenistic Judaism the New Testament in Context and the History of Interpretation Among the contributions are essays dealing with conversion in Greek speaking Judaism and Christianity 3 Maccabees as a narrative satire retribution theology in Luke Acts church discipline in Matthew the Exodus and comparative chronology in Jewish and patristic writings corporal punishment in ancient Israel and early Christianity and Die Judenfrage and the construction of ancient Judaism

**The Rebirth of Revelation** Tuska Benes,2021-12-17 Despite being a pillar of belief in the Judeo Christian tradition the idea of revelation was deeply discredited over the course of the Enlightenment The post Enlightenment restoration of revelation among German religious thinkers is a fascinating yet underappreciated moment in modern efforts to navigate between reason and faith The Rebirth of Revelation compares Protestant Catholic and Jewish reflections on revelation from 1750 to 1850 and asserts that a

strategic transformation in the term's meaning secured its relevance for the modern age. Tuska Benes argues that propositional revelation understood as the infallible dispensation of doctrine gave way to revelation as a subjective process of inner transformation or the historical disclosure of divine being in the world. By comparatively approaching the unconventional ways in which Protestantism, Catholicism, and Judaism have rehabilitated the concept of revelation, *The Rebirth of Revelation* restores theology to a central place in modern European intellectual history. *After the Deluge* Julian Bourg, 2004-01-01. Motivated by a desire to narrate and contextualize the deluge of French theory, *After the Deluge* showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates, figures, and turning points in the postwar era of French thought.

The Engaging Realm of E-book Books: A Detailed Guide Revealing the Pros of E-book Books: A Realm of Ease and Flexibility

Kindle books, with their inherent portability and ease of access, have liberated readers from the constraints of hardcopy books. Gone are the days of lugging bulky novels or meticulously searching for particular titles in shops. Kindle devices, sleek and lightweight, seamlessly store an extensive library of books, allowing readers to immerse in their preferred reads anytime, everywhere. Whether traveling on a busy train, lounging on a sun-kissed beach, or just cozying up in bed, E-book books provide an exceptional level of ease.

A Literary World Unfolded: Discovering the Vast Array of Kindle

Marx The Young Hegelians And The Origins Of Radical Social Theory Dethroning The Self

The Kindle Store, a virtual treasure trove of bookish gems, boasts an wide collection of books spanning varied genres, catering to every readers taste and choice.
