Frontier Socialism Monica Quirico, Gianfranco Ragona, 2021-07-05 Considering the history of workers and socialist movements in Europe Frontier Socialism focuses on unconventional forms of anti capitalist thought particularly by examining several militant intellectuals whose legacy is of particular interest for those aiming for a radical critique of capitalism Following on the work of Michael L wy Quirico Ragona identify relationships of elective affinity between figures who might appear different and dissimilar at least at first glance the German Anarchist Gustav Landauer the Bolshevik Alexandra Kollontai the German communist Paul Mattick the Italian Socialist Raniero Panzieri the Greek born French euro communist Nikos Poulantzas the German born Swedish Social Democrat Rudolf Meidner and the French social scientist Alain Bihr as well as two historical struggle experiences the Spanish Republic and the Italian revolutionary group Lotta continua Frontier Socialism then analyzes these thinkers and experiences respective paths to socialism based on and achieved through self organization and self government not to build a new tradition but to suggest a path forward for both research and political activism *Karl Marx, Frederick Engels* Karl Marx, 1990 Collected Works: August 1916-March 1917 Vladimir Il'ich Lenin, 1972 *The Publishers' Trade List Annual* , 1990 Studies of the Paris Manuscripts Lixin Han, 2020-02-22 This book is devoted to the studies of Karl Marx s Paris Manuscripts and presents a new interpretation of early Marx arguing that his transition to maturity can be found in these manuscripts and specifically in Comments on James Mill which was drafted between the First Manuscript and the Second Manuscript In Comments on James Mill Marx succeeds in transferring his theoretical framework from the isolated individual to the society and establishes his basic goal i e to explicate the nature of humans and society from the perspective of external economic relations marking the advent of historical materialism This study reopens the possibility of interpreting the Paris Manuscripts from the perspective of Hegel According to the author it was during the Paris Manuscripts period that Marx shifted his theoretical foundations from Feuerbach to Hegel On the basis of Hegel s alienation concept Marx constructs a new form of alienation theory with alienation of intercourse at its core The theoretical challenge tackled by this book is to restore the authority of alienation theory and strengthen the position of the Paris Manuscripts in the history of Marx thought so as to rearrange the traditional landscape of research on early Marx thought This interpretation proposed and published for the first time in the world could compete with the theses of Louis Althusser and Hiromatsu Wataru which consider *Die deutsche Ideologie* to be the turning point of Marx Further it represents a significant contribution by a Chinese scholar to the international research on Marx **Collected Works** Vladimir Il'ich Lenin, 1965 **Margaret Harkness** Flore Janssen, Lisa C. Robertson, 2018-12-10 This collection places the life and work of Margaret Harkness at the heart of a broader consideration of the socially turbulent decades around the turn of the twentieth century in order to illuminate historical forms of women s political activism *Links* , 2003 **Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912** Stanley Pierson, 1993 How does one explain the presence of

educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century

Collected Works of V.I. Lenin Vladimir Il'ich Lenin, 1977 Behind the Crisis Guglielmo Carchedi, 2010-12-17 Much has been written since Capital was first published and more recently after the demise of the Soviet Union and the consequent triumph of neoliberalism about the irrelevance inconsistency and obsolescence of Marx This has been attributed to his unworkable method of inquiry This book goes against the current It introduces the issues that are presently most hotly debated it evaluates them and it groups them into four headings each one of them corresponding to a chapter At the same time it submits a new reading of Marx's method of social research and on this basis it argues that Marx's work offers a solid foundation upon which to further develop a multi faceted theory of crises highly relevant for the contemporary world

The Twice-born Heretic, M.N. Roy and Comintern Samaren Roy, 1986 Life of Manabendra Nath Roy 1893-1954 radical humanist and his role in the Communist International Comintern founded in 1918 covers the period 1916 to 1930

Selected Works Vladimir Il'ich Lenin, 1943

The Return of Cosmopolitan Capital Nigel Harris, 2003-02-21 The history of the 20th century was dominated by the state nationalism national economies national wars Professor Nigel Harris argues that such a global structure is unthinkable in the 21st century Why As the world opens up and barriers between countries come crashing down so the powers of nations nationalisms and the state have begun to dissolve He argues that the notion of national capital is becoming redundant as cities and their citizens increasingly unaffected by borders and national boundaries take centre stage in the economic world Harris deconstructs this phenomenon and argues for the immense benefits it could and should have not just for western wealth but for economies worldwide for international communication and for global democracy

Mary Putnam Jacobi and the Politics of Medicine in Nineteenth-Century

America Carla Bittel, 2012-06-01 In the late nineteenth century as Americans debated the woman question a battle over the meaning of biology arose in the medical profession Some medical men claimed that women were naturally weak that education would make them physically ill and that women physicians endangered the profession Mary Putnam Jacobi 1842 1906 a physician from New York worked to prove them wrong and argued that social restrictions not biology threatened female health Mary Putnam Jacobi and the Politics of Medicine in Nineteenth Century America is the first full length biography of Mary Putnam Jacobi the most significant woman physician of her era and an outspoken advocate for women s rights Jacobi rose to national prominence in the 1870s and went on to practice medicine teach and conduct research for over three decades She campaigned for co education professional opportunities labor reform and suffrage the most important women s rights issues of her day Downplaying gender differences she used the laboratory to prove that women were biologically capable of working learning and voting Science she believed held the key to promoting and producing gender equality Carla Bittel s biography of Jacobi offers a piercing view of the role of science in nineteenth century women s rights movements and provides historical perspective on continuing debates about gender and science today **Marx at 200** Gilbert Faccarello, Heinz D. Kurz, 2020-09-10 The book provides new vistas on Karl Marx s political economy philosophy and politics on the occasion of his 200th birthday Often using hitherto unknown material from the recently published Marx Engels Gesamtausgabe the MEGA2 edition the contributions throw new light on Marx s works and activities the sources he used and the discussions he had correcting received opinions on his doctrines The themes dealt with include Marx s concepts of alienation and commodity fetishism the labour theory of value and the theory of exploitation Marx s studies of capital accumulation and economic growth and his analysis of economic crises and of the labour contract Novel developments in the reception of his works in France and the UK conclude the volume This book was originally published as a special issue of The European Journal of the History of Economic Thought Colonial Algeria and the Politics of Citizenship Avner Ofrath, 2023-01-26 This book explores citizenship politics in colonial Algeria which became a key battlefield for struggles over participation of the body politic and the reach of universal promise in 1789 In examining these struggles Avner Ofrath shows how colonialism dissolved the political community as a frame of participation and negotiation first in the colonies and ultimately in the metropole Revealing the racialization of citizenship from the late 19th century onwards this book shows how lawmakers under the Third French Republic construed colonial subjugation around rigid ethnic religious criteria in order to protect settler privileges and exclude Algerian Muslims Portraying Islam as oppressive and unmodern the exclusion and othering of Muslims led to a concept of citizenship that was deeply hostile to religious difference Despite this Colonial Algeria and the Politics of Citizenship shows how Algeria witnessed some of the most powerful contestations of racialized citizenship seen in a colony From a successful Jewish campaign for full political rights in the 1860s to Muslims demand for reform in the 1930s Algerians insisted on Maghribi languages religions and history as indispensable dimensions of political life Tracing

intellectual and political networks throughout the Maghrib the Mashriq and across the Mediterranean Avner Ofrath weaves Algeria into a global history of citizenship in the age of empire Collected Works Karl Marx, Friedrich Engels, 1983 For the first time their writings are being made fully available in English including manuscripts not published during their lifetime their correspondence as well as supplementary notes outlines and projects Fully annotated and with bibliographical data and indexes The set will be 50 volumes Correspondence 1852 55 **Fabian Tract** Fabian Society (Great Britain), 1893
